VERTICAL SLIM PROFILE USB SOCKET CONNECTORS

KUSB SL Series - Meets USB 1.1 and 2.0 Specifications

- Contact Resistance: 30 mΩ max.
- Operating Temperature: -55°C to +80°C
- Contacts: Phosphor Bronze
- RoHS Compliance per Kycon Documentation
- Contact Plating: Gold over Nickel on contacts
- Shell: Copper Alloy
- Insulator: PBT Thermoplastic
- PCB Mount
- Slim Profile

RoHS Compliant

For quantities of 1000 and up, call for quote.

VERTICAL TOP ENTRY USB SOCKET CONNECTORS

KUSBV Series - Meets USB 1.1 and 2.0 Specifications

- Insulator: PBT Thermoplastic, UL94V-0 rated
- Contact Resistance: 15 mΩ max.
- Contacts: Phosphor Bronze
- Contact Plating: Gold over Nickel on contacts
- Shell: Phosphor Bronze
- RoHS Compliance per Kycon Documentation
- PCB Mount
- Operating Temperature: -25°C to +80°C

RoHS Compliant

For quantities of 1000 and up, call for quote.

LOW PROFILE RIGHT ANGLE USB SOCKET CONNECTORS

KUSBL Series - Meets USB 1.1 and 2.0 Specifications

- Insulator: HTN Thermoplastic, UL94V-0 rated
- Operating Temperature: -55°C to +80°C
- Low Profile
- Contact Plating: Gold over Nickel on contacts
- Shield: Copper, Nickel plated
- RoHS Compliance per Kycon Documentation
- Contact Resistance: 30 mΩ max.
- Contacts: Phosphor Bronze

RoHS Compliant

* * High Temperature Thermoplastic UL94V-0 Rated

For quantities of 1000 and up, call for quote.

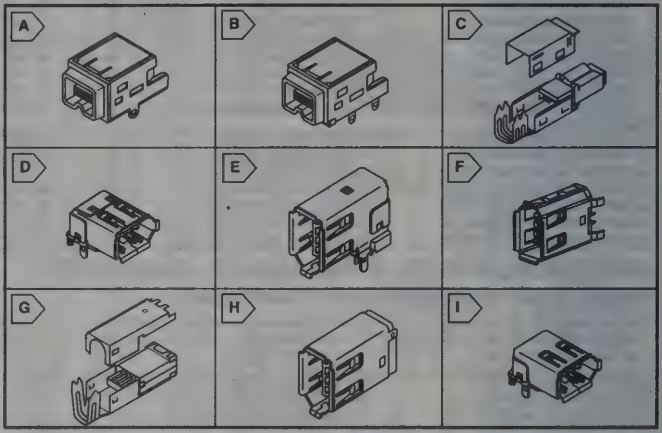
KOBICONN IEEE 1394 FIREWIRE RECEPTACLES AND PLUGS

Features:
- The 4-pin and 6-pin I/O connectors are available in both plugs and receptacles.
- Receptacles are offered with high temperature plastic for true SMT processing.
- Fully shielded metal frame of the receptacle is for ESD protection.
- Rugged gold plated terminals withstand up to 1500 mating cycles with less than 30 mΩ.

Specification:
- Mating cycles: 1500 cycles minimum
- Contact Resistance: 30mΩ
- Vibration: NO discontinuity at 1 micro-second during 3-axis vibration(Peak 30G Random vibration)
- Withstanding Voltage: 500V DC ±50V DC minimum
- Insulation Resistance: 100MΩ minimum
- Electrostatic Discharge: NO evidence of discharge to any of the 6 positions & the 4 positions

RoHS Compliant



For quantities 1000 and up, call for quote.

ETHERCON® SERIES - RJ45 RECEPTACLES

Specifications:

- Rated Current: 1.5A
- Flammability: UL94V-0
- Category 5e
- Material Temperature Range: -30°C to +80°C
- Number of Contacts: 8

- RoHS Compliant per Neutrik documentation
- Female chassis connectors are based on the current NEUTRIK® A, B & D Series of XLR receptacle
- Terminations are horizontal and vertical PCB or IDC, punch down
- Color coding available for both the cable carrier and receptacles for ease of identification
- Frequency Bandwidth: 1-100 MHz

RoHS Compliant

For quantities of 500 and up, call for quote.

ETHERCON® SERIES - RJ45 CABLE CARRIERS

Specifications:

- Cable end offers a robust die-cast shell as a carrier for pre-assembled and not assembled RJ45 plugs
- Electrical specs depend on type of RJ45 plugs used
- Cable O.D. Range - Max. 8 mm / 0.315"
- Standard bushing color is black; 9 different coding colors available upon request

- RoHS Compliant per Neutrik documentation
- Flammability: UL94V-0
- Temperature Range: -30°C to +80°C
- RJ45 cable carrier consists of shell, fixing disk, chuck, bush, and boot

RoHS Compliant

For quantities of 500 and up, call for quote.

OPTICALCON®

Specifications:

- Temperature Range: -30°C to +80°C
- Rated Voltage: 50V AC
- Push-Pull locking mechanism
- Easy to clean, no tools required
- Flammability: UL94HB

- Rugged connection, metal housing & heavy duty cable retention
- Dust & dirt protected optical connection using automatic sealing covers
- Uses conventional LC-connectors
- Rated Current: 3A
- RoHS Compliant per Neutrik documentation

RoHS Compliant

For quantities of 500 and up, call for quote.

RJ45 MODULAR JACKS WITH LEDS

- LEDs are available as either a single color with a matching colored lens, or as a bi-color variant that utilizes a clear lens.
- Bi-color LEDs can be made to change color simply by reversing the voltage.
- UL File Number: E138872
- Insulator Housing: Black Plastic PBT/Nylon, UL94V-0
- Reverse Voltage: 5.0 Volts @ <100mA
- LED Voltage: 2.1 Volts Typ. @ 20mA
- Voltage Rating: 120 VAC Max.
- FCC Compliance: Part 68 SubPart F
- 30μ" Gold
- RoHS Compliant per EDAC documentation

RoHS Compliant

USB ON-THE-GO (OTG) CONNECTORS AND CABLE ASSEMBLIES

Molex's new USB On-The-Go (OTG) connectors and cable assemblies help enable mobile devices such as digital cameras, PDAs, audio players, printers and cellular phones to exchange data directly without the need for a host PC. All Molex OTG connectors are compatible with the On-The-Go supplement (Rev. 1.0) to the USB 2.0 specification. Along with enabling mobile products to communicate with one another, OTG also enables mobile products to become "dual-role" devices, serving as either host or peripheral.

Features:

- Compact size for space savings
- Operates at speeds up to 480Mbps
- Fully shielded for EMI/RFI protection
- 5000 cycles for rugged durability

Specifications:

- Current: 1.0A
- Voltage Rating: 30V
- Operating Temperature: 0°C to +50°C

USB TYPE "A" AND "B" RECEPTACLES

The basic characteristics of all 'A' and 'B' receptacles are: having a metal shell to provide for excellent EMI/RFI protection, PCB hold-downs meet specifications of an electrical rating of 1.0 Amp per contact and are designed to endure at least 1,500 mating cycles.

For quantities of 100 and up, call for quote.

AMPHENOL Harsh Environment Ethernet Connectors

Amphenol®

PULSE NET®

Ethernet is currently the industry's network protocol of choice. Harsh environment Ethernet leverages existing Ethernet data communication standards while providing the required mechanical and environmental protection to secure critical data transmission and collection from exposure to dust, noise, vibration, temperature extremes, chemical exposure, weather, debris, wash-downs and moisture.

Features:
- Push & click, Pulse Lok® quick mating action
- Positive confirmation of engagement
- Industry standard components and termination tools
- Multiple termination options
- Environmentally sealed to IP-67
- No accidental disconnects
- Resistant to chemical exposure
- Ideal for medical environments

Specifications:
- Operating current at 25C: 1.5 Amps
- Operating voltage: 150 VAC
- Housing size: 1.300"
- Cable diameter range: .160"-.310"
- For Cat 5e - customer supplies RJ45 Plug

Receptacles Rear Mount-Cat 5e

PULSE PLUS™

Repeated matings and unmatings can be performed rapidly and consistently with the unique coupler system. In a fractin of the time it takes to mate one traditional m12 threaded connector, you can mate and un-mate several Pulse Plus™ connectors.

Features:
- Pulse Lok® quick mating action
- Positive confirmation of engagement
- Backward compatibility to threaded M12 D-Coded plugs or Pulse Plus® plugs.
- ODVA Ethernet/IP 4-pin compatible
- Environmentally sealed to IP-65/IP-67
- IEC 61076-2-101 D-coded Industrial
- Ethernet approved by IAONA, ODVA & PNO
- Ideal for medical environments
- TIA/EIA: Cat 5e

For quantities of 10 and up, call for quote.

AMPHENOL Harsh Environment Connectors

MUSB SERIES: HARSH ENVIRONMENT USB CONNECTORS

Amphenol's MUSB series represents a unique and innovative USB connector design. This design provides the ideal solution for data transfer in harsh or demanding environments against physical and environmental conditions. These connectors are underwater submersible rather than just water resistant in both mated and unmated conditions. They are absolutely unshaken by hostile environmental elements.

Features:

- IP67 sealed in mated and unmated conditions
- Meets military shock and vibration levels
- Shell: Metal die cast
- Finish: Nickel
- Housing: UL94V-0 Black
- Rear shielded
- Contact Plating: 30" Gold
- Number of Contacts: 4 per port
- Current Rating: 1.5 Amps
- Voltage Rating: 100 VDC @ -25°C to +85°C
- Dielectric Withstanding Voltage: 500VAC, RMS, 60Hz 1 minute
- Operating Temperature: -40°C to +105°C

Applications:

- Industrial
- Military Communications
- Marine
- Mobile Communication
- Automotive

RoHS Compliant

For quantities of 100 and up, call for quote.

MRJ SERIES: HARSH ENVIRONMENT MODULAR JACK CONNECTORS

Amphenol's MRJ series represents a unique and innovative RJ connector design. This design provides the ideal solution for network data transfer in harsh and demanding environmental conditions. These connectors are underwater submersible rather than just water resistant in both mated and unmated conditions. They are absolutely unshaken by hostile environmental elements.

Features:

- Cat 5 ethernet performance
- IP67 sealed in mated and unmated conditions
- Meets military shock and vibration levels
- Available with optional integrated LEDs
- Shell: Metal die cast
- Will not allow RJ11 to enter
- Finish: Nickel
- Housing: UL94V-0 Black
- Contact Plating: 30" Gold
- Number of Contacts: 8
- Contact tail length: .100"
- Current Rating: 1.5 Amps
- Voltage Rating: 100 VDC @ -25°C to +85°C
- Dielectric Withstanding Voltage: 500VAC, RMS, 60Hz 1 minute
- Operating Temperature: -40°C to +105°C

Applications:

- Industrial
- Military Communications
- Marine
- Mobile Communication
- Automotive

RoHS Compliant

For quantities of 100 and up, call for quote.

MDB SERIES: ENVIRONMENTALLY SEALED D-SUB CONNECTORS

The MDB series offers cost efficient environmentally sealed D-Subminiature connectors with screw machine contacts and high performance thermoplastic or metal die cast shells.

Features:

- IP67 sealed in mated and unmated conditions
- Number of Contacts: 9
- Contact Plating: 30" Gold
- Gasket: Silicone rubber
- Insulator/Shell: UL94V-0
- Current Rating: 5 Amps
- Voltage Rating: 200 VDC, 125 VAC
- Dielectric Withstanding Voltage: 500 VDC @25°C & 50 mA max
- Operating temperature: -40°C to +105°C

Applications:

- Industrial
- Military Communications
- Marine
- Automotive

RJ SWITCH ETHERNET SWITCH

- IP30 Iridized Aluminum Enclosure
- Din-Rail or Panel Mount
- Ultra reliable 1,000,000 hours MTBF
- Auto-detecting, auto-crossover, and auto polarity
- Operating Temperature: -40°C to+85°C
- Redundant power inputs with surge/spike protection

For quantities of 5 and up, call for quote.

Rugged Ethernet, Firewire & USB Connection Systems Amphenol®

RJF544 ETHERNET CONNECTION SYSTEM

RJ Field allows you to use an Ethernet Class D / Cat. 5e connection for 10 BaseT, 100 BaseTX or 1000 BaseT networks in harsh environments.

- IP67, Sealed against fluids and dusts
- Shock, vibration, and traction resistant
- Improved EMI protection
- Accomodates a standard RJ45 cordset
- Quick Push-Pull coupling
- No tools required

For quantities of 25 and up, call for quote.

FIREWIRE FIELD IEEE 1394A-2000 CONNECTION SYSTEM

- IP67, Sealed against fluids and dusts
- Shock, vibration, and traction resistant
- No tools required
- Can use most standard IEEE1394 cordsets
- Tri-Start Thread coupling mechanism (MIL-DTL-38999 series III type) with anti-decoupling device
- Data Rate: 400Mbits/second over 4.5 meters

For quantities of 25 and up, call for quote.

AMP Industrial Ethernet - Circular Sealed RJ-45 Connectors

Tyco Electronics
Authorized Distributor

Common Features:
- Provides for reliable performance in electrically noisy conditions found on most factory floors
- Compatible with Cat5e Cable
- Fully intermateable with unshielded product
- Threaded outer connection contributes to: Environmental sealing (IP67 rated); vibration resistance; and secure, robust connections.
- RoHS Compliant per Tyco Electronics Documentation

RoHS Compliant

DIRECT PCB MOUNT RECEPTACLE

Low profile receptacle that solders directly to a printed circuit board (PCB) - intended for customers who wish to incorporate a robust, sealed connection into their field equipment. Ideal for customers who wish to incorporate a sealed RJ-45 in the smallest possible package.

- Receptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS)
- O-Ring: Vition Rubber
- TIA/EIA Rating: Category 5 compliant
- Use with receptacles, adapters, cordsets, and/or field-attachable plug

For quantities of 25 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each		
				1	5	10
571-1-1546405-1	1-1546405-1	A	8 pin through-hole receptacle, front coupling hex nut	32.38	29.14	27.52

STANDARD PCB BOARD RECEPTACLES

Highly flexible solution that enables an end-user to solder a cable lead to an internal Ethernet connection.

- Receptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS)
- O-Ring: Nitrile Rubber
- Use with cordsets, field-attachable plug and/or caps

For quantities of 25 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each		
				1	5	10
571-1-1546409-1	1-1546409-1	B	With PC Board	35.80	32.22	30.43
571-1-1546410-1	1-1546410-1	B	With PCB & 12" of cable (10 Base-T)	40.48	36.43	34.41
571-1-1546411-1	1-1546411-1	B	With PCB & 12" of cable (568A)	43.34	41.28	37.15
571-1-1546412-1	1-1546412-1	B	With PCB & 12" of cable (568B)	52.08	49.60	44.64

BULKHEAD PASSTHROUGH RECEPTACLES

The perfect solution to bring Ethernet into a cabinet or control box. Simply mount bulkhead product in a panel cutout, mate a sealed connector on the outside of the enclosure, and run a commercial patch cord from the backside RJ-45 jack to your PLC, I/O, or Ethernet control board. No conduit entry is required.

- Receptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS)
- O-Ring: Nitrile Rubber
- Operating Temperature: -20° to +80°C
- Return Loss: 5 dB @ 100 MHz
- Shock/Vibration: Per IEC 60068-2-6
- Environmental Rating: IEC IP67
- TIA/EIA Rating: Category 5e compliant
- Knockout Hole for Receptacle: 1.031 (26.19)

Backside RJ-45 Jack Specifications:
- Base Material: Copper alloy w/30u-inches gold alloy
- Underplating: 2.54 microns of nickel
- Mating Cycles: 250 min.
- Current Rating: 1.5A
- Voltage Rating: 125 V DC

For quantities of 25 and up, call for quote.

FEMALE-TO-FEMALE ADAPTER

- Receptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS)
- O-Ring: Nitrile Rubber
- Operating Temperature: -20° to +80°C
- Shock/Vibration: Per IEC 60068-2-6
- Environmental Rating: IEC IP67
- Mating Thread: UNC 1" - 14
- Use with closure caps

For quantities of 25 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each		
				1	5	10
571-1546574-1	1546574-1	E	Female-to-Female Adapter	71.60	64.44	60.86

FIELD-ATTACHABLE PLUG

Assemble the connection in the field using a standard crimping tool, and still enjoy the same IP67 sealed connection as the overmolded cordset.

- Receptacle Shell: Acrylonitrile- Butadiene- Styrene (ABS)
- O-Ring: Nitrile Rubber
- Use with receptacles, adapters, and/or caps

For quantities of 25 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each		
				1	5	10
571-1546440-1	1546440-1	F	0.1-0.26 (2.5-6.5) acceptable cable diameter	17.46	15.72	14.85

OVERMOLDED CORDSETS, DOUBLE-ENDED

Cordsets utilize a standard RJ-45 plug, but add strain relief and a locking mechanism that creates a seal when mated with a receptacle.

- Insert Material: Acrylonitrile- Butadiene- Styrene (ABS)
- Overmold: Polyurethane (Solid Core & Proplex), PVC (Stranded)
- Coupling Nut: Acrylonitrile- Butadiene- Styrene (ABS)
- Recommended Mating Torque: 12 inch-lbs.
- Use with receptacles, adapters, and/or caps

For quantities of 25 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Cable	RJ-45 Plug Ends	Length		Price Each

HARTING Industrial Ethernet Solutions

IP30 ETHERNET SWITCH

Features:
- The ethernet switch eCon-3080 and eCon-2050 can be used in industrial environments and supports Ethernet (10 Mbit/s) and Fast Ethernet (100 Mbit/s.)
- Up to 8 ethernet devices can be connected via the RJ45-ports.
- Supports simple and quick network diagnostics with integrated LEDs at every port
- Store and Forward switching mode and supports auto-crossing, auto-negotiation and auto-polarity
- Compact design
- Robust metal housing
- Extended temperature range
- Unmanaged switch
- Top hat rail mounting (DIN EN 60 715)
- RoHS compliant per HARTING documentation

Power Supply:
- Input voltage: 24 VDC (12-30V)
- Input current: max. 125 mA (at 24 VDC)
- Connection: 3-pole, pluggable
- Diagnostic LED: green

Construction:
- Dimensions (WxHxD):
  8 ports: 23x130x100 mm
  5 ports: 46.5x25.5x105.4 mm
- Weight: 8 ports: 0.6 kg
  5 ports: 0.5 kg
- Protection class: IP30
- Operating temperature: -10°C to +70°C

RJ45 Ethernet Interface:
- Number of ports: 8x 10/100Base-TX, unmanaged
  5x 10/100Base-TX, unmanaged
- IEEE 802.3 Cable Type: STP / UTP Category 5E
- Data transmission rate: 10 / 100 Mbit/s
- Maximum cable length: 100 m (Twisted pair, Cat. 5E)

Diagnostic LEDs:
- Connection (Link): green
- Data transfer (Act): flashing green
- Data transmission rate (speed): 100 Mbit/s: yellow
  10 Mbit/s: off

RoHS Compliant

For quantities of 5 and up, call for quote.

RJ INDUSTRIAL® IP20 STANDARD PATCH CABLES

Category 5E patch cables in accordance with PROFInet® guidelines.

Features:
- Designed for use in protected environments or IT-based applications
- HARTING now offers a complete solution for both networks and switchgear-cabinet cabling requirements.
- Electrical performance Cat. 5E or to ISO/IEC 11 8801:2002
- Mating face RJ45, 8-pin
- Pin assignment to TIA/EIA 568B 1:1 cabling
- Molded connector, shielded with latch, molded from halogen-free polyamide
- Cat. 5E cable, AWG 26/7, shielded
- Sheath material made of halogen-free polyurethane (PUR), available in black or green
- RoHS Compliant per HARTING documentation

RoHS Compliant

For quantities of 25 and up, call for quote.

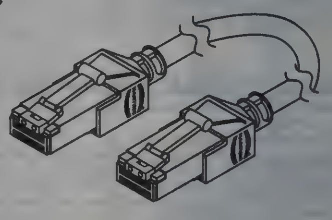
C



HAN® MAX ETHERNET CONNECTORS

Approved by the ODVA (Open DeviceNet Vendors Association) EtherNet/IP.

The Ethernet connector Han® Max connects ethernet cables via RJ45 very easily and quickly. One of its main features is a high degree of protection due to a robust metal housing. It can be used directly in industrial environments, thus reducing the termination time to set up industrial networks.

Features:
- High degree of protection
- Robust metal housing
- Plug & play installation
- Bayonet nut connector

Specifications:
- Housing: Zinc die cast metal housing, nickel plated
- Connector: RJ45 according to IEC 60 603-7
- Number of contacts: 8 contacts
- Operating temperature: -25°C up to +85°C
- Wire: 26-24 AWG
- Cable gland: PG 9

RoHS compliant per HARTING documentation

For quantities of 25 and up, call for quote.

HARAX® CIRCULAR SHIELDED M12-L CONNECTORS

Approved by the ODVA (Open DeviceNet Vendors Association). In accordance with PROFInet® guidelines.

Features:
- Transmission characteristics in accordance with DIN 50 173-1
- D-Coding for ethernet
- Wire gauge: 22-24 AWG stranded
- Conductor insulation material: PVC
- Working temperature: -25°C to +85°C
- Temperature during connection: -5°C to +50°C
- Protection level: IP 67

For quantities of 25 and up, call for quote.

HARTING Industrial Ethernet Solutions

RJ INDUSTRIAL® SERIES - CAT 5e

In accordance with PROFInet® guidelines

- Transmission properties in accordance w/Category 5 ISO/IEC 11 801:2002 and EN 50173-1
- Sealed to IP 67
- Fast assembly - no special tools required
- IDC termination

IP 67 Hybrid Connectors

- Mating interface: RJ 45 in accordance with IEC 60603-7, plus 4 x power supply
- Data and power integrated into one connector for hybrid ethernet networks
- Mating cycles: 500 min
- Cable plug: Wire gauge: 22-24 AWG stranded 22-23 AWG solid
- Panel Feed Through: Panel cut out: 22 x 22mm
- Protection level: IP67
- Temperature range: -40°C to +70°C
- Working voltage power supply: 48 V
- Housing material: Black polyamide, UL94V-0 rated
- RoHS compliant per HARTING documentation

RoHS Compliant

For quantities of 25 and up, call for quote.

INDUSTRIAL ETHERNET PLUGS AND JACKS, CATEGORY 5E

Features (84702-0006/0008):
- Category 5E specified for high data transmission speeds
- IP67 and NEMA 6p ratings - water and dust tight for functional integrity
- Bayonet style latch receptacle for quick and easy connection with proper mating depth ensured
- One sealing surface for less likelihood of failure
- Back-end is potted for extra durability (84702-0008 only)

Features (84700-0001/0002/0003):
- Rugged construction provides protection to terminals and withstands harsh environments
- Meets Category 5E performance for fast ethernet industry standard

Specifications (All):
- Contact: Phosphor Bronze (CwSn)
- Plating Contact: 1.3μm Gold (Au)
- Under Plating: Nickel (Ni)
- Housing Material: PA Polyamide (Nylon) PBT Polyester, TPE Thermo Plastic Elastomer
- Color: Black
- Flammability: UL 94V-0
- Durability (mating cycles): 500 cycles min.
- Current: 1.5A max.
- Voltage: 125V max.
- Withstanding Voltage: 1000VAC
- Contact Resistance: 20mΩ max.
- Insulation Resistance: 500MΩ Min.

DIMENSIONS: IN.

AMP USB RECEPTACLES

Specifications:
- Receptacle housing: UL 94V-0 rated thermoplastic
- Shells: Copper alloy, plated bright tin
- Plug Contacts: Brass, plated gold over palladium nickel
- Voltage rating: 30VAC (rms)
- Current rating: Signal application only, 1A per contact
- Temperature rating: -55°C to +85°C (unless limited by cable or overmold)
- RoHS Compliant per Tyco Electronics documentation

Features:
- Plug and play capability
- Hot pluggable
- Compatible with asynchronous and isochronous data transfer methods
- Compatible with Windows operating systems

RoHS Compliant

VARIOSUB RJ45

Industrial ethernet connection for CAT 5 and CAT 6

Features:

- Patented VARIOSUB housing with push/pull locking system
- IP20 or IP67 rated connections for protection from dust, dirt, water
- PCB mount or panel feed thru connections
- Fully shielded inserts

For quantities of 50 and up, call for quote.

VARIOSUB USB

Provides connection of peripherals for Industrial PC's and control systems.

- Compatible with USB 2.0
- Transmission rate 480Mbp/s
- IP67 and IP20 rated connections for protection from dust, dirt, water
- Mates with Phoenix Contact VARIOSUB USB Patch Cables

For quantities of 50 and up, call for quote.

BULGIN Bluetooth Adapters and USB Connectors

BLUETOOTH BUCCANEER® ENVIRONMENTALLY SEALED ADAPTERS

Bluetooth wireless connectivity is the latest addition to Bulgin's USB Buccaneer waterproof connector family. Bluetooth Buccaneer is a robust USB to Bluetooth adapter designed to overcome common limitations with hardwired USB connections, such as the 5 meter distance restriction and signal isolation problems.

Bluetooth Buccaneer's IP68 rated dust and waterproof connector is designed to withstand the rigorous demands of harsh or industrial environments, and the Bluetooth electronics with built-in antenna are robustly housed in the overmoulded UL94V-0 body.

Comprehensive utility software and drivers can be freely downloaded from Bulgin's website, although the most popular plug and play operating systems will automatically recognize the adapter.

Bluetooth Buccaneer will find many applications within industrial control, where water and dust may be present, and a strong, robust and secure wireless connection is needed between computers and peripherals.

Features:
- Dust & Waterproof to IP68 EN60529 when mated
- Bluetooth specification V1.1 & V1.2
- Built-in antenna
- Screw coupling for secure connection
- Windows compatible drivers
- Windows XP recognized
- Optional driver download via Bulgin website
- Class 1 working Range up to 100m
- Class 2 working Range up to 25m
- Data rates up to 723kbps
- Standard A type USB interface
- Frequency band: 2.4GHz unlicensed ISM band
- Sensitivity: -76dBm
- Support: Piconet, up to seven slaves
- RoHS Compliant per Bulgin documentation

RoHS Compliant

For quantities of 25 and up, call for quote.

MOUSER STOCK NO.	Bulgin Part No.	Fig.	Description	Price Each	
				1	10
167-PX0880/1	PX0880/1	A	IP68 rated USB/Bluetooth Adapter, Class I	63.98	59.05
167-PX0880/2	PX0880/2	A	IP68 rated USB/Bluetooth Adapter, Class II	48.93	45.16

USB BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

- IP68 Rated - Dust and waterproof sealing when mated
- USB version 2.0 performance - Low and high speed bus connection, 1.5Mbs to 480Mbs
- Plug and play capability - Hot pluggable, standard 4 pole interface
- Visual mating indication - Alignment indicator reduces risk of damage during mating
- Shielded system - High noise immunity and EMI protection
- Screw coupling - Secure, proven locking system
- RoHS Compliant per Bulgin documentation

RoHS Compliant

Patch Cords

- Single and double ended cables - Suitable for PC and peripheral configuration
- IP68 'A' type USB connector to standard 'B' type USB connector, mates with PX0842/A
- IP68 'B' type USB connector to standard 'A' type USB connector, mates with PX0842/B
- IP68 'A' type USB connector to IP68 'B' type USB connector, mates with PX0842/A and PX0842/B
- Available in 2m, 3m and 5m lengths

For quantities of 50 and up, call for quote.

Telecom, DVI, HDMI, and Interface Connectors

V.35 TELECOM DTE/DCE INTERFACE CONNECTORS

- Meets CCITT V.35 synchronous modem interface requirements per ISO-2593
- Mates with other industry standard V.35 connectors
- Data Traffic: 20kbps to 2mbps max.
- 30μ" Gold
- Operating Temperature: -55°C to +125°C

For quantities of 500 and up, call for quote.

MOUSER STOCK NO.	EDAC Part No.	Fig.	No. of Pins	Type	Style	Shell Type	Current Rating	Price Each

DVI (DIGITAL VISUAL INTERFACE) CONNECTORS

- Supports both analog and digital signals
- First mate last break
- Fully shielded for top EMI/RFI performance
- Fully grounded prior to connecting to elimnate ESD
- Insulator: High Temperature Nylon 6T
- Gold Flash

For quantities of 500 and up, call for quote.

DG1 SERIES INTERFACE CONNECTOR CONFORMING TO INFINIBAND™ STANDARD

- Conform to ∗IBTA Cooper Cable Standard 4x,12x
- Enables high-speed transmission of 5Gbps or more
- RoHS Compliance per JAE documentation
- Receptacle can be mated to panel using one-touch clip, eliminating need for any other tool
- Receptacle with wide nozzle attachment area enables automatic mounting

∗ IBTA/InfiniBand Trade Association

For quantities of 100 and up, call for quote.

AMPHENOL External I/O Connectors

RoHS Compliant **This page of product is compliant.**

INFINITY InfiniBand™

High speed INFINITY connectors facilitate data speeds up to 75 Gbps total bandwidth. INFINITY connectors are high density, hot pluggable and meet SFF-8470 specifications.

Applications:
- Datacom devices
- HCA's
- High speed routers/switches
- SAN's
- RAID
- XAUI

RoHS Compliant

For quantities of 500 and up, call for quote.

VHDCI - SINGLE PORT

VHDCI (Very High Density Cable Interconnect) provides connection where space is limited and high performance is required. These fully shielded connectors support ESD/EMI protection and are capable of transferring data up to 80 Gbps.

Applications:
- RAID
- Disk drive/systems
- Servers
- SANs
- Routers

RoHS Compliant

For quantities of 500 and up, call for quote.

SMALL FORM FACTOR PLUGGABLE (SFP)

20 position connector and cage combo for mounting to a host PCB with a metal cage enclosing the connector. Similar to GBIC but smaller in size and operate at much higher data transfer rates. The cages are a one-piece construction with enhanced transceiver mating tabs presently available in press-fit version.

Applications:
- Servers
- Routers
- Storage devices
- Switches
- Optical devices
- Networking devices

RoHS Compliant

For quantities of 500 and up, call for quote.

MINIATURE MICRO-RIBBON® CONNECTORS

57 series connectors meet the demands of today's multi-wire termination applications. These reliable and versatile rack & panel, cable-to-panel, and cable-to-cable connectors are used extensively in telecom applications. Mating capability allows them to be used with existing equipment without the need for expensive modifications.

RoHS Compliant

For quantities of 500 and up, call for quote.

AMPHENOL I/O Connectors

This page of product is compliant.

MINI SAS

This connector system is designed to satisfy the needs for gigabit serial data transmission applications with signal speeds across the connector interface at up to 10 Gigabits/second on both rows of contacts. The cage is mounted separately to the body so that the stress imposed by insertion and removal of the cable plug does not affect the signal/body solder joints. Compliant metal gasket on external cages provides excellent mechanical performance and EMI suppression. Connectors are compliant with SFF 8086, SFF 8087, and SFF 8088

RoHS Compliant

Applications:
- Servers
- Routers
- Storage devices

Specifications:
- Electrical: .5A maximum per contact
- Mechanical: 250 mating cycles minimum

For quantities of 100 and up, call for quote.

SAS

SAS (Serial attached SCSI) is a point to point connectivity storage system architecture that has many advantages over SCSI. It is designed to replace the SCSI interconnect system with a much smaller, more flexible serial design. SAS connectors allow devices to be cabled or directly attached to the backplane.

Features:
- Data speed up to 6 Gbps
- Simpler cable routing and better system airflow
- Compatible with SATA disc drives

Specifications:
- Electrical: 1.5A per contact
- Contact Resistance: 15mΩ maximum
- Durability: 500 cycles
- Insulation Resistance: 1000MΩ min.

RoHS Compliant

For quantities of 100 and up, call for quote.

SATA (SERIAL ATA)

Provides much higher speed data transfer than the traditional Parallel ATA standard. The cable is much smaller than that of PATA and provides better airflow within the device box, lowering manufacturing and maintenance cost. It allows for flexibility in system design.

Specifications:
- Electrical: 1.5A per contact
- Insulation Resistance: 1000mΩ maximum
- Durability: 500 cycles

RoHS Compliant

For quantities of 100 and up, call for quote.

FUJITSU microGiGaCN I/O Connectors

microGIGaCN HIGH SPEED I/O CONNECTORS

RoHS Compliant **This page of product is compliant.**

Designed for high speed differential signal applications such as 10G Ethernet, CX4, SAS, and SATA-2 applications. RoHS compliance per Fujitsu documentation.

Features:
- Matched impedance: 100Ω ±10%
- Low insertion loss and low cross talk
- Adopted by InfinBand as 4x (4 channel) and 12x (12 channel) I/O Interface
- Meets Bellcor 1217
- Insulator Material: LCP Resin (UL94V-0)
- Conductor Material: Copper Alloy
- Contact Plating: Gold Plated

Specifications:
- Operating Temperature Range: -55°C to +105°C
- Current Rating: AC 0.5A (signal)
  AC 1A (ground)
- Voltage Rating: AC 30V
- Contact Resistance: 80 mΩ max. (signal)
  35 mΩ max. (ground)
- Insulation Resistance: 1000 MΩ minimum

RoHS Compliant

Socket Connectors

microGiGaCN STACKING MEZZANINE CONNECTORS

Features:
- High speed matched impedance (100Ω) differential signal connector.
- Low cross talk
- Hot pluggable
- RoHS compliance per Fujitsu documentation
- Insulator: LCP Resin (UL94V-0)
- Conductor: Copper Alloy
- Contact Plating: Au over Pd-Ni plated

Specifications:
- Operating Temperature Range: -55°C to +105°C
- Current Rating: AC 0.5A (signal)
  AC 1A (ground)
- Voltage Rating: AC 30V
- Contact Resistance: 80 mΩ max. (signal)
  40 mΩ max. (ground)
- Insulation Resistance: 1000 MΩ minimum

RoHS Compliant

MOLEX 0.8mm Ultra+™ VHDCI & HandyLink™ Connectors

0.8MM ULTRA+™ VHDCI CONNECTOR SYSTEM

Molex's Ultra+™ VHDCI (Very High Density Cable Interconnect) connector system is a leader among the next generation of high-density I/O interconnects. These 68-circuit connectors are designed for high performance memory transfer applications supporting the latest SCSI-style interfaces. They offer greatly increased density compared to existing SCSI connector styles. They are also suited for other high density I/O needs.

Features:

- Blade on beam, bullet nose lead-in
- Meets EIA, ANSI/SFF-8441 and SPI-4
- Shielded
- RoHS Compliant per Molex documentation

Applications:

- Mainframes
- File servers
- RAID (Redundant Arrays of Inexpensive Disks)
- Workstations
- Tape and disk drives
- Applications requiring high-speed memory transfers

For quantities of 50 and up, call for quote.

HANDYLINK™ CONNECTORS

Molex's new 0.80mm (.031") pitch HandyLink™ product family of connectors, cable assemblies and accessories offers a perfect solution to any hand-held device, design, or application. The HandyLink™ family includes a right-angle SMT receptacle, a wire and PCB version of the plug, and a perpendicular or parallel mounted cradle connectors for docking applications.

Features:

Receptacle (44828 Series)

- High-temperature thermoplastic housing withstands Lead-free processing
- SMT leads allow population to both sides of PCB
- Low profile height and compact width minimizes size of customer's product
- Insert-molded "sealed" design support various ingress protection requirements
- Overmolded voiding capability provides design flexibility
- 20,000 mating cycles provide the perfect solution for the multiple mating cycles required in hand-held devices

Plugs (45593 and 45339 Series)

- PCB version optimal when used as a mask for overmolding of boot and strain relief
- Wire-version plug incorporates a shelf feature on the solder tails which assists operator in placement and hand soldering of wires
- Integrated latch design inside alignment posts provides protection to latch and prevents wire entanglement during shipment or processing
- First-mate, last break (pins #1 and #16) prevents damage to electrical circuitry when "hot plug" mating
- 22 AWG maximum provides mechanical and electrical cable flexibility
- 20,000 mating cycles provide the perfect solution for the multiple mating cycles required in hand-held devices

Cradle (45560 Series)

- SMT leads and high-temperature thermoplastic housing withstands Lead-free processing
- Latches are integrated into mating alignment posts which provide protection to latch during handling and processing
- Screw mount hold down to PCB provides additional mechanical stability to PCB
- 20,000 mating cycles provide the perfect solution for the multiple mating cycles required in hand-held devices

Specifications:

- Voltage: 30 Volts AC/DC max.
- Current: 1.5A continuous (up to 3.0A dependent on circuit configuration)
- Contact Resistance: 50 mΩ
- Dielectric Withstanding Voltage: <5mA
- Insulation Resistance: 100 MΩ min.
- USB 2.0 Compatible
- RoHS Compliant per Molex documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

MOLEX Triad™ Differential Pair Connectors & SFP Products

TRIAD™ DIFFERENTIAL PAIR CONNECTORS

Achieve bandwidths up to 5.0 Gbps and beyond and available in 18, 28, and 48 circuit versions with TDP. The innovative TDP (Triad Differential Pair) family uses the Triad design of differential signal and ground lines to achieve optimal bandwidths for cable-to-board interconnections. The shielded, dual row interface offers high-speed and 100-ohm controlled impedance. The TDP family is comprised of a fully shielded receptacle and plug to provide maximum EMI/RFI protection.

RoHS Compliant

Electrical Specifications:

- Voltage: 40V
- Current: 1.5A per contact
- Contact Resistance: 20 mΩ max.
- Dielectric Withstanding Voltage: 500V
- Insulation Resistance: 100 MΩ min.
- Differential Impedance:
  2.5Gbps: 100 ± 10Ω @ 150psec risetime
  5.0Gbps: 100 ± 18Ω @ 75psec risetime

Physical Specifications:

- Housing: Black glass-filled polymer, UL 94V-0
- Contact: Copper Alloy
- Plating: Selective Gold 0.76μm (15μ") min.
- Shield: Deep-drawn Steel
- RoHS Compliant per Molex documentation

Applications:

- LVDS servers, displays, hubs, routers, RAIDS, switches, storage devices, and network products
- InfiniBand interfaces to support one, two or four channels
- TMDS digital displays supporting one, two, or four channel with side channels to support USB, serial ATA, digital audio, IEEE 1394-1995 or other multi-media applications
- Portable DVI devices
- HDTV and other entertainment displays
- Automotive displays

Features and Benefits:

Board Mount Receptacle (74960):

- Inline SMT leads on 0.64mm (.025") pitch provide direct PCB routing
- High cycle LFH shrouded contact system provides two points of contact for optimal signal integrity

Cable Plug Connector (75000):

- LFH contact design provides shallow mating angle, reducing insertion forces
- Terminates to 24 to 32 AWG high-performance wire through soldering or resistance welding

Cable Plug Kit (75115):

- Kit contains two-piece die cast shell and two threaded jackscrews for use with TDP Cable Plug Connector
- Die-cast shell reduces overall labor costs by eliminating internal shielding and overmolding processes
- User-friendly strain eliminates secondary operations
- Ergonomic die-cast shell thumb grip and thumb rest for ease of mating and unmating

SMALL FORM-FACTOR PLUGGABLE (SFP) PRODUCTS

The SFP system follows the function of the standard Gigabit Interface Converter (GBIC) products, with reduced size and increased data-transfer rates at and beyond two Gigabits per second (Gbps). A multi-sourced, industry-standard product line, our SFP products feature a common design interface for use with multiple data transfer protocols, including Fibre Channel, Gigabit Ethernet, InfiniBand and proprietary links. The system consists of a 20-position SMT connector mounted on the host PCB, enclosed by a low-profile metal cage, engineered to guide and secure a variety of industry-standard mating modules. The pluggable modules include hot-swappable duplex LC optical and HSSDC2 copper transceivers, along with copper patch cables. Other products in the family include the duplex LC optical cable assemblies and a wide selection of HSSDC2 cable assemblies.

Features and Benefits:

HSSDC2 Copper Pluggable Modules (74720):

- Industry standard HSSDC2 interface in pluggable module
- Provides data transmission rates up to 2.5Gbps
- Active and passive versions available
- User-friendly latch for easy installation and replacement

HSSDC2 Copper Cable Assemblies (73939):

- Industry standard HSSDC2 plug interface
- Provides data transmission rates up to 2.5Gbps
- Cable assemblies available in various lengths
- User-friendly latch for easy installation and replacement

SMT Receptacle (74441):

- Alignment posts provide stability for placement on the PCB
- Standoffs allow easy PCB cleaning after soldering
- SMT design provides option for placement on both sides of PCB

Copper Patch Cables (73929):

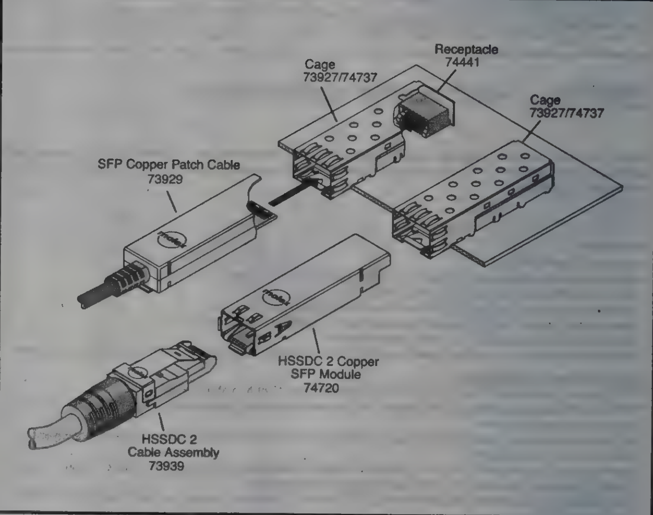
- Cable directly terminated to module for economical pluggable solution
- Provides data transmission rates up to 2.5Gbps
- Cable assemblies available in various lengths
- User-friendly latch for easy installation and replacement

Cages (73927/74737):

- All metal construction for EMI protection
- Two-point spring contacts for optimal EMI grounding
- Chamfered edges on cover facilitate assembly
- Design allows cages to be mounted on opposite sides of PCB for "belly-to-belly" applications

Applications:

- Network Switches
- Routers
- Servers
- Storage Devices
- Network Interface Cards (NICs)
- Host Bus Adapter Cards(HBAs)



For quantities of 25 and up, call for quote.

MOLEX HDMI Displayport™ and DVI Connectors

molex
one company > a world of innovation

Products may be RoHS compliant.
Check mouser.com for RoHS status.

HDMI CONNECTORS AND CABLE ASSEMBLIES

Molex's new HDMI (High Definition Multimedia Interface) connectors and cable assemblies provide an uncompressed digital link between consumer electronics equipment such as DVD players, set-top boxes and audio/video monitors such as plasma display screens for high-definition TVs. HDMI is a small, user-friendly interconnect that provides up to 5 Gbps of bandwidth to support high-definition video plus multi-channel audio in a single cable.

Features:

- Compact, user-friendly design
- 5 Gbps bandwidth
- HDMI-DVI cables
- Mounting flange
- Signal with coupled ground
- Fully shielded

Specifications:

- 10,000 cycles
- Gold-plated contacts
- Lead-free plating
- Current: 0.5A
- Voltage: 40V

Applications:

- Digital TVs
- Plasma Displays
- LCDs
- Set-Top Boxes
- DVD Players/Recorders
- Audio/Video Receivers
- D-VHS Players
- High Definition Monitors
- TiVo
- Satellite Boxes

DISPLAYPORT™ CONNECTORS AND ASSEMBLIES

This next generation DVI connector has the ability to deliver high-definition digital video and audio to the display device.

Features:

- Color: Black
- EMI Shielding
- Latches available
- Meets DisplayPort specification 1.0
- Supports up to 2.7Gbps transfer rate
- Detent locks
- Polarized
- Small footprint

RoHS Compliant

For quantities of 50 and up, call for quote.

MICROCROSS DVI (DIGITAL VISUAL INTERFACE) CONNECTOR SYSTEM

Cable Assemblies

Features:

- LFH (Low Force Helix) rugged contacts offer increased cycle life, mechanical reliability and optimal signal integrity.
- Supports up to 1.65 Gbps bandwidth per differential pair for a total of 4.95 Gbps
- Fully shielded against RFI/EMI
- Grounding detents on mating shell
- Positive retention jackscrew: thread 4-40 UNC-2A
- Shielded I/O

Specifications:

- Color: Black
- Length: 2.0 meters or 6.56 ft.
- Current: 3.0A

For quantities of 50 and up, call for quote.

HEADERS

DVI-I Digital/Analog Visual Interface Receptacle Headers

Features:

- Supports digital signals
- Plug and play interface
- LHF contact design is rugged and reliable
- Panel mount
- DDWG DVI standard interface
- Supports 4.95 Gbps over a single link and 9.9 Gbps performance over a dual link implementation
- Through hole, PCB

Specifications:

- Rating: UL94V-0
- Voltage: 40V
- Current: 3.0A
- Housing: Thermoplastic, glass filled

RoHS Compliant

IPASS CONNECTORS

External iPass Connectors (series 75586): The SMT design provides placement options on both sides of the PCB,as well as placements stability. Standoffs allow for easy PCB cleaning after soldering.

Internal iPass Connectors (series 75783):
These 0.80mm (.031") pitch connectors include hood kits for internal applications. Acting as a disposable pick-and-place cap, the pre-positioning device aligns the connector to the hood during robotic placement. It offers 3 keying options.

RoHS Compliant

For quantities of 10 and up, call for quote.

IPASS GUIDE FRAMES

The guide from gasket delivers improved EMI performance and the die cast frame provides a robust cable-to-chassis interface.
It also features a screw attachment to the PCB, offering a durable I/O connection for large cable bundles during the cable management process

RoHS Compliant

For quantities of 10 and up, call for quote.

IPASS CABLE ASSEMBLIES

4X External Cable Assemblies (series 74546, 74547, 74576): Its high performance paddle-card design with impedance matching helps reduce crosstalk and provide improved signal integrity. The assembly also features a flexible, low profile, latch-pull mechanism that is easily accessible in high density applications. An EMA gasket seals the plug interface.

RoHS Compliant

Internal Cable Assemblies (series 79576): The internal cable assemblies can support SAS generation I (3.0 Gbps) and II (6.0 Gbps) bandwidths, as well as SATA generation I (1.5 Gbps) and II (3.0 Gbps) bandwidths. Delivering up to four times the port density of the current 4X offering, the assemblies are overmolded and have an attached direct-wire termination. They provide options for active and passive latch versions, transition cables to legacy SFF-8484 4X SAS interfaces, and breakout cables to individual SATA or SAS drives. The cable assemblies provide 100-ohm differential impedance with tight skew control and low cross talk. They also offer multiple cable lengths as a standard, as well as custom lengths upon request.

For quantities of 10 and up, call for quote.

SERIAL ATA CONNECTORS

Along with the digital revolution, the ability to create, store and distribute vast amounts of music data and games is continually driving demand for higher speed, higher capacity storage drives with increasingly smaller form factors. This has opened up new storage applications for Serial ATA as hard disk drives are increasingly being designed into a growing number of HDD-DVD recorders, home servers, multimedia hubs, LCD TVs, digital jukeboxes, HDD-enabled game consoles, audio players and automobile audio visual products.

Locking latches for signal cables have recently been approved by the Serial ATA Working Group. Positive locking latches ensure cables will stay connected. Latching cable receptacles come in both straight and right angle versions. This ensures an easy transition when converting existing designs from Parallel ATA to Serial ATA.

Features:
- First-mate/last-break contacts support hot plugging
- Lead-free product

Specifications:
- Current: 1.5A max.
- Voltage: 15V max.
- Withstanding Voltage: 500V AC

For quantities of 50 and up, call for quote.

SERIAL ATA CABLE ASSEMBLIES

Locking latches for signal cables have recently been approved by the Serial ATA Working Group. Positive locking latches ensure cables will stay connected.

Features:
- High speed data transfer. Generation 2 (300 MBps)
- Device can be hot swapped without shutting down or restarting the system.
- Plug and Play under Windows® 98 Second Edition, Windows® Me, Windows® 2000 and Windows® XP.
- Built-in RAID support.
- User-friendly latch provides secure mating.

Specifications:
- Wire Size: 26 AWG
- Contact: Copper (Cu) Alloy
- Plating Contact: 0.76µm (30µ") Gold (Au)
- Color: Red
- Current: 1.5A max.
- Voltage: 40V max

RoHS Complian

For quantities of 50 and up, call for quote.

3M™ SAS / SATA Connectors and Cable Assemblies

RoHS Compliant **This page of product is compliant.**

MINI SERIAL ATTACHED SCSI (MINISAS) CONNECTORS - .8MM

Features:
- 6 Gb/s input/output connector for server applications
- Meets SFF-8086 Specification
- Meets SAS Specification, SAS-1.1
- RoHS Compliant per 3M™ documentation

Specifications:
- Material: High Temperature Thermoplastic
- Current Rating: Per Contact: 0.5A
- Insulation Resistance: 10^3 MΩ min

SERIAL ATTACHED SCSI (SAS) CONNECTORS - 1.27MM

Features:
- Up to 300 MB/sec (3.0Gbs) data transfer rates, 2x(6.0 Gbs) and 4x(12.0Bgx) Roadmap
- EMLB for Hot Swap Requirements
- Backward compatible with existing SCSI software
- Polarization and alignment guides for Blind Mate requirements
- Meets SFF-8482 Specification and SAS Specifications, SAS-1.1
- RoHS Compliant per 3M™ documentation

Specifications:
- 1600mV Low Voltage Signal
- Material: High Temperature Thermoplastic
- Flammability: UL 94V-0
- Current Rating: Power Pin- 1.5A; Signal Pin- 500mA
- Withstanding Voltage: 500VAC at sea level
- Operating Temperature: 0°C to +55°C

RoHS Compliant

SERIAL ATA (SATA) CONNECTORS - 1.27MM

RoHS Compliant

Features:
- Created for Hard Disk Drive (HDD) Storage Interface
- Up to 300 MB/sec (3.0 Gbs) Data Transfer Rates
- EMLB for Hot Swap Requirements
- Backward compatible with existing ATA software
- Polarization and Alignment Guides for Blind Mate Requirements
- Meets SATA Specification 1.0a
- RoHS Compliant per 3M™ documentation

Specifications:
- 250 mV Low Voltage Signal
- Serialized, Differential pair Signal
- Material: High Temperature Thermoplastic
- Flammability: UL 94V-0
- Current Rating: 1.5A
- Withstanding Voltage: 500VAC at sea level
- Operating Temperature: 0°C to +55°C

SERIAL ATA (SATA) POWER CABLE ASSEMBLY

Features:
- Rugged over-molded construction provided in standard lengths
- Supports 3.3V, 5V or 12V applications
- "Y" type supports multiple devices
- Meets SATA Specification 1.0a
- RoHS Compliant per 3M™ documentation

Specifications:
- Material: High Temperature Thermoplastic
- Flammability: UL 94V-0
- Current Rating: 4.5A
- Withstanding Voltage: 100V
- Operating Temperature: 0°C to +55°C

RoHS Compliant

SERIAL ATA (SATA) 7 POSITION SIGNAL CABLE ASSEMBLIES

Features:
- Multiple variations in length and interface attachments
- Point-to-point signaling
- 26 AWG stranded differential pairs
- Meets SATA Specification 1.0a
- RoHS Compliant per 3M™ documentation

Specifications:
- Material: High Temperature Thermoplastic
- Flammability: UL 94V-0
- Withstanding Voltage: 500VAC at sea level
- Current Rating: 1.5A
- Operating Temperature: 0°C to +55°C

RoHS Compliant

SERIAL ATA (SATA) COMBO RECEPTACLES

- High density serial data transmission at 1.5 to 3.0 Gb/sec.
- Compliant with SATA 1.0a standard
- Signal and power combined device I/O
- 2 differential pairs signal (7 pins)
- 3 different voltage levels of power (15 pins)
- Combined signal/power receptacle for direct device plug-up
- Guide pegs for blind mate
- First-Make-Last-Break for hot plugging capability
- No. of Positions: 22

- Temperature Range: 260°C max for 10 seconds
- Color: Black
- Contact Material: Cu Alloy
- Contact Resistance: 15 mΩ Max
- Current Rating: 1.5 A @ 30°C
- Voltage Rating: 500 VAC
- Durability: 500 Mating Cycles
- Housing Material: Thermoplastic UL94V-0
- Insulation Resistance: 1000 MΩ Min

- RoHS Compliant per FCI documentation

HDMI CONNECTORS

- Type A receptacle meets HDMI spec1.1
- Metal shield for better EMI
- Speed to 5Gpbs uncompressed single transmit rate
- Backward compatible with DVI
- Low impedance mismatch
- No. of Positions: 19

- Contact Base Material: Copper alloy
- Contact Resistance: 30Ω max.
- Voltage Rating: 40 VAC max.
- Durability: 10,000 mating cycles
- Housing Material: High-temp resin
- Insulation Resistance: 100 MΩ

- RoHS Compliant per FCI documentation
- Withstanding Voltage: 500 VAC
- Color: Black
- Operating Temperature: -55°C to +85°C
- Solder Tail Plating: Pure Sn
- Recommended PCB thickness: 1.6mm
- Contact Current Rating: 0.5A min.

RoHS Compliant

AMP Fiber Optic Connectors

RoHS Compliant **This page of product is compliant.**

ST CONNECTORS

Features:
- Kit Packaging
- Ferrule Material: Ceramic
- Body Material: Nickel Plated Brass
- Nominal Fiber Size: 126
- Epoxy Type: Pre-radiused Ferrule Finish

Singlemode Specifications:
- Insertion Loss: 0.3 dB typical
- Return Loss: <-40 dB typical
- Durability: 200 cycles

Multimode Specifications:
- Insertion Loss: <0.3 dB typical
- Durability: 500 cycles

RoHS Compliant

For quantities of 250 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Connector Type	Jacket Size	Price Each			
						1	25	50	100

SC CONNECTORS

Features:
- Kit Packaging
- Ferrule Material: Ceramic
- Body Material: Plastic
- Nominal Fiber Size: 126

Singlemode Specifications:
- Insertion Loss: 0.2 dB typical
- Return Loss: <-59 dB typical
- Temperature Range: -40°C to +85°C
- Durability: 200 cycles

Multimode Specifications:
- Insertion Loss: <0.2 dB typical
- Temperature Range: -40°C to +85°C
- Durability: 500 cycles

RoHS Compliant

For quantities of 250 and up, call for quote.

AMP Fiber Optic Connectors and Cable Assemblies

Tyco Electronics
Authorized Distributor

LIGHTCRIMP® PLUS ST, SC, AND LC SERIES

Features:
- Kit Packaging
- Easy Installation
- No epoxy, no polishing
- Meets TIA/EIA 568-B.3

Specifications:
- Insertion Loss: Typical (dB) 0.2 dB SM; 0.3 dB MM
- Temperature Range: -10°C to +60°C
- Durability: 500 cycles
- Ferrule Material: Ceramic

RoHS Compliant

For quantities of 100 and up, call for quote.

AMP FIBER OPTIC CABLE ASSEMBLIES

Specifications:
- Insertion Loss: Typical (dB) 0.25 max.<0.1 dB SM; 0.1 dB MM
- Return Loss: 55 dB-PC endface SM; 20 dB MM

ST and SC Features:
- Specified connector float assures intermateability with all Fibre Channel compliant devices
- Connector's minimal metal contact helps contain RFI/EMI
- Assemblies available with riser and plenum grade cable

LC Features:
- For high performance applications/high density
- Small size - 1/2 size of standard SC and FC products
- Hybrid assemblies available with all standard connectors
- Factory terminated/factory tested

RoHS Compliant

For quantities of 25 and up, call for quote.

ATCA®

ATCA stands for: Advanced Telecommunications Computing Architecture. This newly developed architecture and system layout allows manufacturers of telecom equipment a new standard for designing system. The basic structure is utilizing a modular concept. Application of this new structured approach allows various module designs that are compatible in layout and mechanical installation. The PICMG Group created the PICMG 3.0 Standard. This standard specifies the mechanical details with regards to input/output, voltage, current and connection parameters. Control, backplane layout and system architecture are part of the standard. Products such as plugs and sockets, high power and signal contact have been developed. This new connector series is available with press fit and through hole contact types.

Features:
- Rugged construction
- Polarizing system
- Selective loading of contact positions
- Screwdown hardware
- Special variations on request
- RoHS compliant per Conec documentation

Specifications:
- Complies with the PICMG 3.0 standard
- UL approval Ecc8329
- Solder and press-fit technology
- Press-fit with flat plate
- Mating area compatible

RoHS Compliant

For quantities of 500 and up, call for quote.

COMPACT PCI

The CompactPCI bus has been defined by the PICMG Group in specification 2.0. The appreviation PCI stands for Peripheral Component Interconnect. Besides the standardized 47-pin connector according to PICMG 2.11 R1.0, variations have been developed for computer, industrial, medicinal and measurement technology. Conec offers different models within this product family relating to contact layout and connection technology, for both the male and female connectors.

Features:
- Premating contacts in selective positons
- Polarizing coding system
- Mounting screws for PCB are available
- Selective loading for mixed layout contact configurations
- High reliability and longevity
- RoHS compliant per Conec documentation

RoHS Compliant

HARTING AdvancedMC™ Connectors for μTCA™ and ATCA®

ADVANCEDMC™ CONNECTORS FOR MICROTCA™ (μTCA™) AND ADVANCEDTCA® (ATCA®)

NEW! TECHNOLOGY

Specifications:

- Number of contacts: 170
- Contact spacing: 0.75 mm
- Clearance and creepage distance between contacts: 0.1 mm min.
- Working current of power contacts: 1.52 A @ 70 °C, max. 30 °C temp. rise
- Test voltage: 80 Vr.m.s.
- Contact resistance: 25 m Ohm max.
- Insulation resistance: 10 M Ohm
- Temperature range: -55 °C to +105 °C
- Durability: 200 mating cycles
- Termination technique: Press-in termination
- Mating force: 100 N max.
- Withdrawal force: 65 N max.
- Moulded parts material: Liquid Crystal Polymer (LCP), UL 94-V0
- Contact material: Copper Alloy
- Contact surface material: Selectively gold plated

AdvancedMC™ Connector for μTCA™
Card Edge Connector, Straight

AdvancedMC™ Connector for MicroTCA™ (μTCA™)

MicroTCA™ is an open industry standard developed by the PCI Industrial Computer Manufacturers Group (PICMG). In a MicroTCA™ system, AdvancedMC™ modules are plugged directly into a backplane and not into a carrier board. As a result MicroTCA™ system shelves are smaller and cheaper than AdvancedTCA® systems, yet powerful enough to address the needs of telecom, enterprise and medical applications.

Features:

- Offers good routing capabilities with wide routing channels
- Differential pins are isolated by the distance between signal and ground pins, resulting in low cross talk and excellent high speed performance
- Design according to: PICMG MicroTCA.0
- HARTING con:card+® technology for significant increase in connector reliability

For quantities of 50 and up, call for quote.

MOUSER STOCK NO.	HARTING Part No.	No. of Contacts	Pin Length (mm)	Description	Price Each

617-16-11-170-5202	16 11 170 5202 000	170	2.1	Card edge, straight	38.80	36.86	34.92

AdvancedMC™ Connector for AdvancedTCA™ (ATCA™)

Advanced Telecommunications Computing Architecture (AdvancedTCA®) is an open industry standard developed by the PCI Industrial Computer Manufacturers Group (PICMG). Defined by PICMG 3.0, the AdvancedTCA® series of specifications targets the requirements of the next generation of carrier grade telecommunications equipment. It incorporates an impressive suite of recent technological advancements including the latest trends in high speed interconnect technologies. To extend the functionality and modularity of AdvancedTCA® carrier boards, PICMG developed the Advanced Mezzanine Card (AdvancedMC™) standard AMC.0. Up to eight AdvancedMC™ add-on modules can be hot-swapped in and out of a carrier board.

Features:

- New press-fit compliant pin designed for 0.55 mm plated PCB holes
- Superior transmission performance at high data transmission speeds designed to minimize interferences from cross talk and reflections
- Design according to: PICMG AMC.0
- HARTING con:card+® technology for significant increase in connector reliability

For quantities of 50 and up, call for quote.

MOUSER STOCK NO.	HARTING Part No.	No. of Contacts	Pin Length (mm)	Description	Price Each

AdvancedMC™ Connectors for ATCA®
Card Edge Connector, Angled Type B+ with pegs

HAR-MIK® SCSI (SMALL COMPUTER SYSTEM INTERFACE) I/O CONNECTORS

Features:

- Meets SCSI-3 Specifications
- Pin and Socket
- Pitch: 1.27 mm
- Current rating: 1 A
- Contact resistance: ≤ 30mΩ
- Temperature Range: -55°C - +105°C
- UL Recognized
- Contacts: Copper Alloy
- Moldings: Thermoplastic resin, glass fiber filled - UL94V-0

For Cable Mount Connectors:

- Insulation diameter for 60 03 050 5200 and 60 03 068 5200: 0.50 - 0.65mm
- Insulation diameter for 60 03 068 5210: 0.65 - 0.80mm

SCSI Female PCB Connectors

Features:
- TVS diodes for protection
- Clamping Voltage 9.8 volts
- Junction capacitance I/O to GND<10pF max.
- Product meets EN6100-4-2 EDS & EN61000-4-4 EFT specs
- Drop-in replacement for unfiltered USB connectors
- RoHS Compliant per Spectrum Control Documentation.

Specifications:
- Working Voltage: 5 VDC
- Current Rating: 1 Amp max.
- Operating Temp: -55° to +125°C
- Temperature Range: -40°C to +71°C
- Contact Resistance: 30 mΩ max.

RoHS Compliant

PATCH ANTENNA ELEMENTS

Features:
- Temperature stable (-40°C to +105°C)
- Low return loss
- Uniform dielectric constant
- Offset single-point feeding method

Specifications:
- Silver plated electrode and probe
- 50 Ohm impedance
- Surface Mount
- RoHS Compliant per Spectrum Control documentation

RoHS Compliant

3M™ SDR and D Ribbon Connectors

3M

SHRUNK D RIBBON (SDR) CABLE ASSEMBLIES

0.80mm High Speed Digital Data Transmission, 26 position

Features:
- Supports new AIA Industrial Camera Link® Standard for new Mini C/L camera to new frame grabber applications
- 11 shielded, twisted twinax pairs with four drain wires
- Double overall shield with inner foil and outer braid
- Rugged ribbon contact type

Specifications:
- Connector Contact Plating: 30μ" Min Gold
- Color: Beige
- Material: Polyvinyl Chloride (PVC)
- Flammability: AWM VW-1
- Voltage Rating: 30 V
- Current Rating: 0.5 A
- Temperature Rating: 0°C to +70°C

SHRUNK D RIBBON (SDR) CONNECTORS - SHIELDED

0.80mm Receptacles

Features:
- Wiper on wiper contact for reliable repetitive mating.
- Ground lock for reliable PCB retention
- Full metal face for better EMI shielding effectiveness
- On-board jacksockets maintains a secure connection
- RoHS Compliant per 3M documentation

Specifications:
- 30μ" Gold Plating
- Color: Black
- Contact Material: Phosphor Bronze
- Current Rating: 0.5 A
- Temperature Rating: -40°C to +70°C

RoHS Compliant

For quantities of 200 and up, call for quote.

3000 SERIES D RIBBON WIREMOUNT CONNECTORS

Features:
- Accepts .050" round, flat or jacketed cable
- Insulation material: Glass Filled Polyester (PBT)
- Flammability: UL 94V-0
- Color: Gray
- Contact material: Copper alloy
- Current rating: 1 A
- Temperature rating: -55°C to +105°C
- Plating: 30 μ" Gold
- Wire Accommodation: 26 and 28 AWG solid or stranded

Metal faced plug: provides complete EMI shielded system when mated to a metal faced female connector

CAMERA LINK™ STANDARD INTERFACE CABLE ASSEMBLIES

.050" High Speed Digital Transmission System

- Connector Contact Plating: 30µ" gold
- 26 position connector
- Positive retention overmold thumbscrew shell
- Supports new industrial CameraLink™ Standard for camera to frame grabber communications
- Eleven shielded pairs and four drain wires
- Entire cable bundle is shielded with foil and braid
- Rugged MDR ribbon type contact
- RoHS Compliance per 3M™ documentation

RoHS Compliant

CameraLink™ is a trademark of the Automated Imaging Association.

.050" MINI D RIBBON (MDR) CABLE ASSEMBLIES

- Supports LVDS Channel Link™ Signaling
- Connector Contact Plating: 30µ" min. gold
- Flammability: AWM VW-1
- RoHS compliance per 3M™ documentation
- Voltage Rating: 30V
- Current Rating: 1 Amp
- Withstanding Voltage: 350 Vrms for 1 minute
- Temperature Rating: -20°C to +75°C

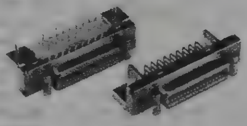
MINI D RIBBON (MDR) CONNECTORS

.050" Boardmount Thru-Hole Right Angle Shielded Receptacles

- Wiper-on-wiper contact for reliable repetitive plugging
- Rugged die cast metal case construction
- Interface latch design for connection stability
- IEEE 1284C Interface as a 36 contact connector
- Insulation material: Beige glass reinforced polyester (PCT), UL94V-0
- Contact material: Copper alloy (C521)
- Plating: 30µ" Gold
- Current rating: 1 A
- Withstanding voltage: 500 Vrms for 1 minute
- Temperature rating: -55°C to +105°C



* MDR Digital LCD interface as a 20 ror 26 contact connector

** Reverse pin layout pattern - SCSI-2 layout compatible

For quantities of 200 and up, call for quote.

MINI D RIBBON (MDR) CONNECTORS

.050" Shielded Solder Plug Connectors

- Wiper-on-wiper contact for reliable repetitive plugging
- Solder cup termination requires no special tooling
- Accepts a wide varity of discrete wire (24 to 30 AWG)
- Insulation material: Black glass reinforced polyester (PCT), UL94V-0
- Contact material: Copper alloy (C521)
- Plating: 20μ" Gold
- Current rating: 1 A
- Withstanding voltage: 500 Vrms for 1 minute
- Temperature rating: -55°C to +105°C

For quantities of 200 and up, call for quote.

MINI D RIBBON (MDR) JUNCTION SHELLS AND ACCESSORIES

Non-Shielded Plastic Solder Plug Junction Shells

- Compatible with 101xx-3000VE plug connectors
- Design features durable two-piece backshell with ground strap
- Round straight exit
- Reliable metal strain relief clamp provides grounding for cable shield
- Quick release metal latching mechanism
- Shell material: Black glass reinforced polyester (PBT), UL94V-0
- Temperature rating: -20°C to +85°C

For quantities of 200 and up, call for quote.

Plastic Shielded Junction Shell for Round Cable

- Compatible with 101xx-6000EC plug connectors
- Durable one piece plastic over two piece metal junction shell for straight round cable
- MDR digital LCD interface as a 20 or 26 contact connector
- Quick release latching
- Shell material: Beige ABS, UL94V-0

For quantities of 200 and up, call for quote.

3M™ D-Subminiature Connectors

RoHS Compliant **This page of product is compliant.**

D-SUB CONNECTORS

Available in preassembled or two piece covers. Improved metal strain relief hooks directly to metal shell - Ordered Separately.

Features:
- Low profile
- Insulation Material: Glass Filled Polyester (PBT)
- Flammability: UL 94V-0
- Insulation Color: Gray
- Contact Material: Copper alloy
- Contact Plating: 30μ" Gold
- Shell Material: Steel
- Shell Plating: Tin
- Wire Accommodation: 26 and 28AWG solid or stranded
- Current Rating: 1A
- Withstanding Voltage: 1000 Vrms @ Sea level
- Temperature Rating: -15°C to +105°C
- RoHS Compliant per 3M documentation

RoHS Compliant

LR40971 E68080

METAL D-SUB CONNECTOR EMI HOODS

Designed to fit the 3M 8200 and 8300 series D-Sub connectors listed above.

Features:
- Provides EMI/ESD protection
- Provides option in grounding for discrete wire applications
- Light weight, compact design
- RoHS Compliant per 3M documentation
- Color: Black
- Flammability: UL94V-0
- Material: Steel
- Plating: Nickel
- Cover Nut Material: Glass Filled Polyester (PBT)

* 50 Position has a cast aluminum shell

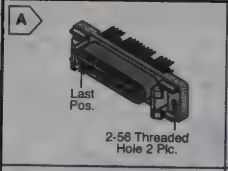
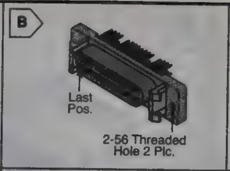
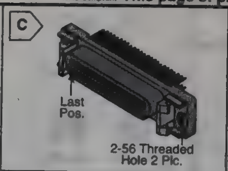
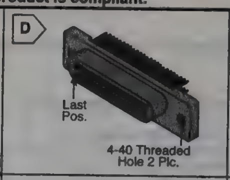
AMPLIMITE .050 Connectors

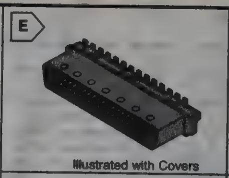
RoHS Compliant **This page of product is compliant.**

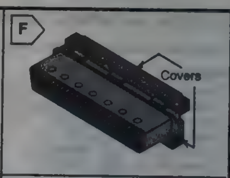


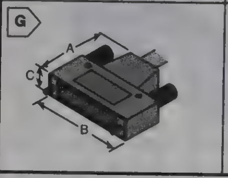


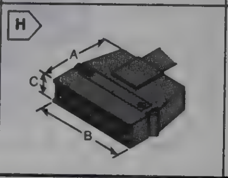


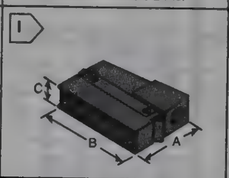


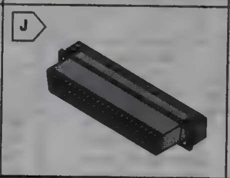


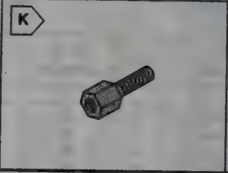


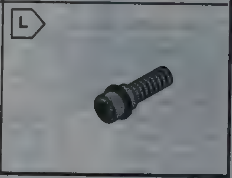












Description:

- Compatible with SCSI-2, EIA RS-232, HIPPI and IPI-2 standards
- High-density D type interface
- Shields mate before contacts, with ground mating first and breaking last
- Recognized under the Component Program of Underwriters Laboratories, Inc. File No. E28476
- Certified by Canadian Standards Association, File No. LR 7189A-207
- Series I - will intermate with 50, 68 and 96 position connectors in Series II and Series III
- Series III - will intermate with all Series II positions and the 50, 68, and 96 position Series I

VERTICAL RECEPTACLE HEADERS, SERIES III

.125 (3.18) Solder Tail Length

Material and Finish:

- Housing: Thermoplastic, UL94V-0 rated, black, SMT compatible
- Shell: Steel, plated .000200 (0.00508) min. bright tin over .000050 (0.00127) min. copper
- Bracket: Zinc, plated nickel over copper
- Contacts: Phosphor bronze, duplex plated .000030 (0.00076) min. gold on mating end
- .000120 (0.00304) min. tin-lead on solder end all underplated .000050 (0.00127) min. nickel

RoHS Compliant

For quantities of 500 and up, call for quote.

SHIELDED BACKSHELL KITS, SERIES III

With Male Jackscrews

Materials:

- Jackscrews: Steel, plated black zinc
- Jackscrew Caps: Polyolefin or PVC, black
- 2-56 Screws: Stainless Steel
- Backshell: Zinc, plated nickel over copper
- Strain Relief Staple: Steel, plated tin-lead over nickel

Features:

- Each kit includes upper and lower backshells, two male jackscrews, one strain relief staple and two 2-56 screws.
- Packaged unassembled

RoHS Compliant

For quantities of 500 and up, call for quote.

Straight and Angled Exit RFI/EMI Shields (Two-Piece) for Jacketed Cable-With Spring Latches

Materials:

- Backshell: Zinc, plated nickel over copper
- Spring Latch: Stainless Steel
- 2-56 Screws: Stainless Steel
- Strain Relief Staple: Steel, plated tin-lead over nickel

Features:

- Each kit includes upper and lower backshells, two male jackscrews, one strain relief staple and two 2-56 screws.
- Packaged unassembled

RoHS Compliant

For quantities of 500 and up, call for quote.

PLUG ASSEMBLY UNSHIELDED, SERIES III

For .025 (0.64) Centerline Ribbon Cable

Material and Finish:

- Covers: Thermoplastic, UL94V-0 rated, black
- Contacts: Phosphor Bronze, duplex plated .000030 (0.00076) min. gold on mating end, .000050 (0.00127) min. bright tin-lead on termination end, all over .000050 (0.00127) min. nickel underplating
- Recommended wire size: .025 (0.64) centerline, 30 AWG solid or 7 strand, PVC, flat ribbon cable.
- Cable must be approved by Tyco engineering

RoHS Compliant

For quantities of 500 and up, call for quote.

- Insert: UL94V-0 black thermoplastic
- Contacts: Phosphor bronze
- Plating: 30μ" gold on mating end, tin on termination end, all nickel underplated
- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

Preloaded with IDC crimp contacts. Use extraction tool 571-912321.

For quantities of 500 and up, call for quote.

HDF-20 SERIES (For Flat Ribbon Cable)

Low Profile, All Plastic Connectors

- Shell, housing, & cover: UL 94V-0 black thermoplastic
- Plating: gold on mating end, tin on solder end, all over nickel underplated
- Contacts: phosphor-bronze
- Standard mounting holes
- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

✻ Threaded inserts

For quantities of 500 and up, call for quote.

CRIMP, SNAP-IN CONTACTS - SIZE 20 DF

- Use with HDP series

Plating:
(a) Gold flash over nickel on entire contact
(b) Gold on mating end, tin on termination end, with entire contact nickel underplated
(c) Gold flash over all nickel underplated, additional gold on mating end
(d) Gold flash on mating end, tin on crimp barrel, all nickel underplated
(e) 30μ" Gold on mating end, tin on crimp barrel, all nickel underplated
(f) 30μ" Gold on mating and termination ends
(g) Gold on mating end, tin on crimp barrel, all nickel underplated

RoHS Compliant

Use insertion/extraction tool 571-912851; Crimp Tool 571-584482

For quantities of 5000 and up, call for quote.

HD-22 FRONT METAL SHELL, RIGHT ANGLE CONNECTORS

Features:

- PCB Mount
- High density, .350 PCB footprint with boardlocks
- Front shell: steel tin plated
- Housing: black thermoplastic, UL94V-0
- Contacts: pin-brass, socket-phosphor bronze .22DF
- Plating:
  - (a) 30μ" gold on mating end, tin on termination end, all nickel underplated
  - (b) Gold flash on mating end, tin on termination end, all nickel underplated
- RoHS Compliant per Tyco Electronics Documentation
- Shell: nickel plated steel
- Boardlocks: tin plated brass
- Threaded Inserts: tin plated brass
- Female Screwlocks: nickel plated brass

RoHS Compliant

HD-20 STACKED PCB CONNECTORS

AMPLIMITE HD-20 Stacked PCB Connectors add the advantage of reducing overall board real estate normally consumed by individual PCB connectors.

Materials:

- Housing: UL94V-0, Thermoplastic, Black
- Front Metal Shell: Tin Plated Steel
- Boardlocks: Tin Plated Brass
- Female Screwlocks: Nickel Plated Brass
- Threaded Inserts: Tin Plated Brass
- Brackets: Zinc
- Contact Pins: Brass
- RoHS Compliant per Tyco Electronics Documentation
- Contact Sockets: Phosphor Bronze
- Plating: .000030 (0.00076) gold on mating end, tin on solder tails with overall nickel underplate

28476 LR 7189 RoHS Compliant

Authorized Distributor

RoHS Compliant **This page of product is compliant.**

UNSHIELDED CABLE CLAMP KITS

These cable clamp assemblies can be used on either a plug or socket. All parts are packaged unassembled.

- Use with HDP metal shell
- RoHS Compliant per Tyco Electronics documentation
- Each kit includes: 1 hinged plastic clamp, 2 self-tapping screws, 1 strain-relief clip, 1 cable exit gate plug

RoHS Compliant

Box and Lid, Straight / 90° Exit, Black Thermoplastic

For quantities of 500 and up, call for quote.

FIXED MACHINED CONTACT PCB MOUNT

Materials:
- Shells: Steel, tin plated
- Contact: Brass
- Contact Plating: Gold
- Insulator: Black Thermoplastic, UL94V-0

Specifications:
- Temperature Range: -67°F to 185°F
- Current Rating: 7.5A
- Voltage Rating: 300V
- PCB Pins: .024" Dia. and .124" Length

Standards:
- UL File: E119881
- MIL C24308

RoHS Compliant

For quantities of 250 and up, call for quote.

RIGHT ANGLE CONNECTORS (.318" FOOTPRINT)

Specifications:
- Temperature Range: -67°F to 221°F
- Current Rating: 5A
- Voltage Rating: 300V
- 4-40 Threaded Mounting Hole

Materials:
- Shells: Steel, tin plated
- Contact Plating: 30μ" Gold over 50μ" Nickel
- Contact: Brass
- Insulator: Black Thermoplastic, UL94V-0
- Split Arrowhead Boardlocks

For quantities of 250 and up, call for quote.

PLATED PLASTIC BACKSHELLS 2-PIECE DESIGN

Features:
- Fits most standard and high-density D-Subs
- Meets FCC 20780 Requirements
- Plated shell provides EMI/RFI shielding

Specifications:
- Housing: ABS Polymer
- Grommets: PVC (UL94V-0)
- Plating: Nickel over copper
- Hardware: Steel, clear zinc finish

For quantities of 250 and up, call for quote.

CINCH D-Subminiature Connectors

D*KL SERIES STRAIGHT 0.109" DENSITY METAL SHELL

Features:

- PCB mount
- Metal Shell provides grounding and shielding capability
- Mates with industry compatible connectors
- UL Recognized: File E130965 (UL1863)
- CSA Approved: File LR97981
- Economy Version

* With grounding indents.

Specifications:

- Socket contact material: Phosphor bronze (stamped)
- Plug contact material: Brass (stamped)
- Insulator Material: Glass-filled polyester (black)
- Contact plating: Gold flash over Nickel plating in mating area and tin/lead on tails
- Operating temperature: -55°C to +125°C
- Withstanding voltage: minimum AC 1000V RMS @ sea level

For quantities of 200 and up, call for quote.

D*U SERIES 0.109" DENSITY METAL SHELL

Features:

- Crimp and Poke Machined contacts supplied loose with connector
- Commercial grade metal shell connectors intermate with all existing D-subs of comparable pin contacts
- With .120 mounting holes
- Use with 20-24 AWG wire
- UL Recognized: Files E170218 (UL1977) & E130965 (UL1863)
- CSA Approved: File LR31996

Specifications:

- Plug and Socket contact material: copper alloy
- Insulator Material: Glass-filled nylon, black
- Connector shell: steel with zinc plating and yellow chromate finish
- Operating temperature: -65°C to +125°C
- Withstanding voltage: minimum 1000V RMS @ sea level

SERIES 1 HIGH-RELIABILITY

Features:

- Monoblock green diallyl phthalate insulator for improved electrical performance
- Machined contacts for precision performance
- With .120 mounting holes
- Will accommodate up to 20 AWG wire
- Metal shell with solder cup terminals

Specifications:

- Insulator: Glass-filled diallyl phthalate (green)
- Connector shell: steel with zinc plating and yellow chromate finish
- Plug contact material: brass
- Socket contact material: phosphor bronze

For quantities of 100 and up, call for quote.

CINCH D-Subminiature Accessories

DEEP STRAIGHT CLAMP JUNCTION SHELL

Materials:

- Shell Material: Zinc plated low carbon steel with yellow chromate finish
- Clamp & Screw: Zinc-plated steel with yellow chromate finish
- Stop Nut: Zinc-plated brass with yellow chromate finish

For quantities of 100 and up, call for quote.

COMMERCIAL SCREW LOCK ASSEMBLIES

Two screwlocks are required per connector. Female screwlocks consist of one #4-40 screw, two flat washers, one lockwasher, and one #4-40 nut. Male screwlocks consists of one #4-40 slotted screw and a spring tension clip.

* Indicates Use With Junction Shells

(P = Plug; S= Socket)

For quantities of 100 and up, call for quote.

SLIDE LOCK ASSEMBLIES

Consists of the lock retainer plate, two screws, 2 washers, and two nuts. Two lock posts, part # D-53018, are required to fit into the mounting holes of the mating connectors, must be ordered separately. Compatible with all Cinch metal shell D-sub connectors, Backshells, hoods, and junction shells except D*H Series, SDH Series, and Phenolic hood.

For quantities of 100 and up, call for quote.

STRAIGHT BACKSHELLS - TWO-PIECE D*H SERIES

Fits Standard and High Density D-Subminiature Connectors. Backshell includes hardware: 4-40 screws, hex nuts 4-40 mounting bracket and grommets to accommodate most cable sizes and function as strain reliefs. Backshells are individually bagged. Slide locks may not be used with these backshells. Optional thumbscrew for backshells must be ordered separately if required.

Two-Piece Plastic and Metallized Backshells

For quantities of 100 and up, call for quote.

WATER RESISTANT D-SUBS

- Shell: Tin plated Brass/Steel
- Voltage: 125V
- IP67
- Contacts: Copper Alloy with Gold over Nickel
- RoHS Compliant per Conec documentation
- Current: 5A
- Operating Temperature: -40°C to +105°C

For quantities of 500 and up, call for quote.

μTCA D-SUB CONNECTORS

This power module I/O connectors for 24 and 48 volt applications are designed in accordance with μTCA specifications. The robust D-sub concept based on simplified and cost effective Delta D design combines power contact able to handle up to 49A with signal contacts.

NEW PRODUCT

Features:

- First mate last brake functioinality for hot plugging
- Single and Dual versions
- Solder and Pin-in-Paste terminations
- Field repairable
- Touch proof
- Loose female screw locks cable connector
- Stackable hoods with high retention devices

For quantities of 25 and up, call for quote.

MIXED POWER CABLE CONNECTORS

(Contacts not Included)

Material Specifications:

- Shell: Steel
- Insulator: Thermoplastic
- Contacts: Copper Alloy

Standard Plating:
- Shell: Tin
- Contact: Active Area: Gold over Nickel
  Termination Area: Tin over Nickel

- RoHS Compliant per FCI documentation

For quantities of 25 and up, call for quote.

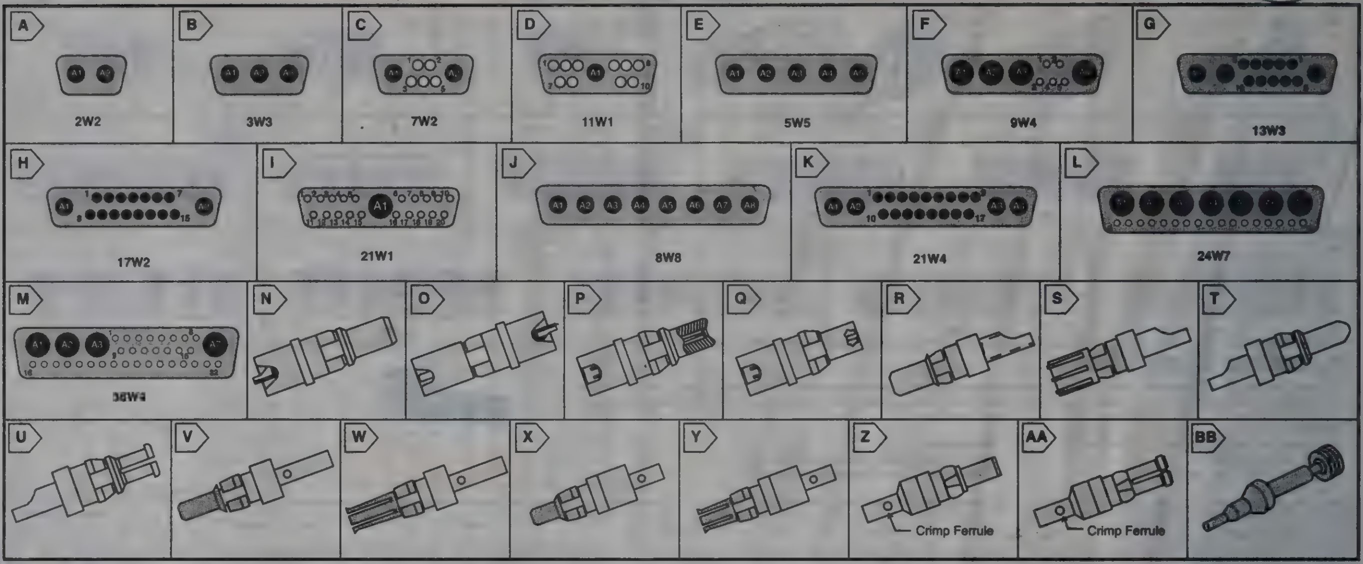
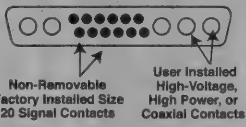
FCT ELECTRONICS Cable Mixed D-Sub Connectors



D-SUB MIXED CONTACT CONNECTOR HOUSINGS

These D-subminiature connectors have added versatility and convenience of mixed contact arrangements. This allows coaxial and/or power contacts to be combined with standard signal contacts in a single housing. These connectors have non-removable, size 20 signal contacts. They are available in nine contact configurations,male and female, and four shell sizes. To order, select the shell size and contact arrangement that best suits your application from the layouts. Order the optional 50Ω or 75Ω coaxial contacts for your high speed data or the high voltage or high power contacts for your power requirements. Combinations can be created using all three contacts resulting in a custom designed connector unique to your application.



Non-Removable Factory Installed Size 20 Signal Contacts
User Installed High-Voltage, High Power, or Coaxial Contacts

Contact Arrangements

RoHS Compliant

Features:
- Standard D-sub shell
- Housings plug with grounding indents
- Non-removable size 20 signal contacts
- Choice of standard signal contacts and/or power contacts

Specifications:
- Flammability rating: UL 94V-0
- Temperature rating: -55°C to +155°C
- Contact/contact resistance: 500 megohm
- Plating: tin

For quantities of 50 and up, call for quote.

COAXIAL CONTACTS, PCB TERMINATION

Features:
- Current Rating: 2 A Max.
- Plating: 30μ" Gold
- RoHS per FCT Documentation

RoHS Compliant

For quantities of 50 and up, call for quote.

RIGHT ANGLE D-SUB CONNECTORS PCB TERMINATION

- Temperature rating: -55°C to +150°C
- Current rating: 5A
- Shell plating: Tin plated over nickel
- Contact material: Copper alloy
- High temperature insulators allow for RoHS soldering processes
- Insulator: PCT, glass filled (UL94V-0), natural
- Mounting type: Clinch nut 4-40 UNC
- Contact: Right angled PCB termination
- Performance class 1 in accordance with DIN 41652

For quantities of 25 and up, call for quote.

HARTING D-Sub Connectors

RIGHT ANGLE SMT BOARDMOUNT D-SUB CONNECTORS

NEW PRODUCT

Specifications:

- Contact material: Phosphor Bronze
- Contact plating: Terminating side: Gold flash; Mating side: Selective gold plating per performance level
- Flammability: UL 94 V-0 tested in accordance with IEC 60807-2
- RoHS Compliant per HARTING documentation
- UL recognized

Features:

- Front shell: Nickel-plated steel
- Housing: LCP
- Housing color: Black
- Tin-plated Zamac (die cast) ground brackets
- Nickel plated brass female screw locks
- PL3 = 50 mating cycles
- PL2 = up to 200 mating cycles

RoHS Compliant

Right Angle SMT with Die Cast Grounding and 4-40 UNC Rear Nut

For quantities of 100 and up, call for quote.

HIGH DENSITY D-SUB CONNECTORS

Specifications:

- Plug and Receptacle versions 15, 26, 44, 62, 78 pos
- PCB Terminations (straight and right angle)
- Crimp Terminations
- Working Current: 2A max
- 4 - 40 UNC hardware
- Temperature Range: - 55°C to +105°C
- Performance level 3 ≥50 mating cycles according to DIN41652

Features:

- Metal Shell - tinned steel
- Right Angle versions include board lock
- Straight versions w/without board lock
- Crimp Contacts AWG 26-24
- UL recognized
- Increased density up to 70% vs standard D Sub

Crimp - Through Hole

- Housing only, order pin or socket contacts separately.

For quantities of 500 and up, call for quote.

HARTING Filtered D-Sub Connectors

FILTERED D-SUB CONNECTORS

Specifications:
- Plug and Receptacle versions 9, 15, 25, 37 pos
- PCB Terminations (straight and right angle)
- Solder bucket Terminations
- Working Current: 7.5A max
- 4 - 40 UNC hardware
- Temperature Range: - 55°C to +125°C
- Max Temperature: +230°C (for 60 seconds) during reflow soldering
- Meets & complies with FCC-part 15, IEC 1000 and EN 5502 Specifications
- Selective gold plating over nickel = 200 mating cycles

Features:
- Unique multi-layer PCB design, utilizing surface mount capacitors within standard size D shell
- Directly interchangeable with existing D Sub connector - same standard footprint
- Type C Filter, 1,000 pF
- UL recognized

Straight PCB - Through Hole

molex 1.27MM COMMERCIAL MICRO-D CONNECTORS

one company > a world of innovation

Commercial Micro-D Plug, Right Angle

RoHS Compliant

Economical solution for commercial applications requiring the density of a micro-miniature connector. Rugged commercial design with a metal interface and grounding tabs for improved mechanical and electrical shield conditions.

- Through hole
- Housing: Shell - nickel-plated 1008LC steel; Insulator - LCP, UL94V-0
- Contact: Pin - gold-plated beryllium copper
- Color: Black
- Current: 3.0A
- Voltage: 350V
- Jackpost: Stainless steel
- Temperature: -55 to +125°C
- PCB Mount

For quantities of 50 and up, call for quote.

Custom Adapter Housings

A two piece plastic housing designed for custom applications requiring the use of two D-sub connectors. Applications include custom jumper boxes and interconnects. Connectors are not included.

Features:
- All plastic construction
- Snap together assembly
- Connector screws included

For quantities of 500 and up, call for quote.

KYCON Ferrite Filtered D-Subminiature Connectors

KF22 SERIES - RIGHT ANGLE, .318" FOOTPRINT

RoHS Compliant **This page of product is compliant.**

Specifications:

- PCB Mount - .318" Footprint
- Grounding board locks
- Riveted threaded inserts
- Shell: Steel, Tin plated
- Insulator: PBT Thermoplastic with glass-fiber reinforcement, UL94V-0 rated
- Color: Black
- Contact Material: Plug: Brass; Socket: Phosphor Bronze
- Contact Plating: Gold flash on mating end with Nickel underplate on entire contact, Tin over Nickel on termination end
- Current Rating: 5A
- Voltage Rating: 300VDC
- Insulation Resistance: more than 1000MΩ
- Operating Temperature: -55°C to +105°C
- RoHS Compliance per Kycon Documentation

Features:

- EMI/RFI noise suppression in data communication lines
- Cost effective way to meet FCC and VDE Class B requirements
- Does not require any more board space that a standard D-Sub

LR78160 E140125

Ferrite filters provide an easy and efficient way of reducing both radiated and conducted interference. KYCON uses a medium permeability nickel zinc ferrite material that is effective at attenuating frequencies above 30 MHz.

Ferrite Specifications		
Test Frequency	Edge Hole	Inner Hole
30 MHz	17-27 Ohms	22-30 Ohms
50 MHz	22-30 Ohms	29-37 Ohms
100 MHz	29-34 Ohms	35-40 Ohms

RoHS Compliant

KF66 SERIES - RIGHT ANGLE HIGH DENSITY, .350" FOOTPRINT

Specifications:

- PCB Mount - .350" Footprint
- Grounding board locks
- Riveted threaded inserts
- Shell: Steel, Tin plated
- Insulator: PBT Thermoplastic with glass-fiber reinforcement, UL94V-0 rated
- Color: Black
- Contact Material: Plug: Brass; Socket: Phosphor Bronze
- Contact Plating: Gold flash on mating end with Nickel underplate on entire contact, Tin over Nickel on termination end
- Current Rating: 5A
- Voltage Rating: 300VDC
- Insulation Resistance: more than 1000MΩ

NORCOMP D-Subminiature Connectors

NORCOMP
A DIVISION OF EDAC (AMERICA) LIMITED

SERIES 170 CRIMP AND POKE D-SUB CONNECTORS

Specifications:
- Shell: Steel, nickel plated
- Insulator: Glass-filled thermoplastic. U.L. rated 94V-O
- Contact current rating: 5 amps

Features:
- RoHS Compliance per NorComp documentation (Low Temperature Material)
- Allows for easy loading of only the positions required using Crimp and Snap-in contacts (sold separately)

RoHS Compliant

For quantities of 500 and up, call for quote.

SERIES 182 AND 183 ECONOMY VERSION RIGHT ANGLE D-SUB CONNECTORS

- Shell: Steel, nickel plated
- Insulator: Glass-filled thermoplastic. U.L. rated 94V-O
- Contacts: Brass or Phosphor Bronze

- RoHS Compliance per NorComp documentation (High Temperature Material - 260°)
- Hardware: Two 4-40 inserts on mating side and 2 forked board locks
- Male shells have indents to provide grounding and additional retention
- Non-removable contacts

RoHS Compliant

For quantities of 500 and up, call for quote.

NORCOMP D-Subminiature Connectors

NORCOMP
A DIVISION OF EDAC (AMERICA) LIMITED

SERIES 171 STAMPED CONTACT D-SUB CONNECTORS - SOLDER CUP

Specifications:
- Nickel Shell
- Insulator: Glass-filled thermoplastic, UL94V-0
- Contacts: Male- Brass Pins;
  Female- Phosphor Bronze Pins
- Plating: Gold flash on the entire contact

Features:
- RoHS Compliant per NorComp documentation
- Non-removable contacts
- Low cost economy series
- Male nickel shells have indents to provide grounding and additional retention
- High performance, stamped contacts

RoHS Compliant

For quantities of 200 and up, call for quote.

SERIES 180 STAMPED CONTACT D-SUB CONNECTORS - SOLDER CUP HIGH DENSITY

Specifications:
- Shell: Nickel Plated Steel
- Insulator: Glass-filled thermoplastic, UL94V-0
- Contacts: Male - Brass Pins, Female - Phosphor Bronze Pins
- Plating: Gold flash on the entire contact

Features:
- RoHS Compliant per NorComp documentation
- Interfaces with IBM PS/2
- Approximately 65% higher density than standard D-Subs
- Connectors will fit in standard D-sub backshells

RoHS Compliant

For quantities of 200 and up, call for quote.

SERIES 172 MACHINED CONTACT D-SUB CONNECTORS

Specifications:
- Insulator: Glass-filled thermoplastic, UL94V-0
- Shell: Steel, plated with nickel
- Machined Contacts: Brass male and female pins
- Plating: Gold flash over entire contact area

Features:
- Non-removable contacts
- Shells have indents to provide grounding and additional retention
- Screw machine contacts offer high reliability
- RoHS Compliant per NorComp documentation

RoHS Compliant

NORCOMP D-Subminiature Backshells

D-SUB BACKSHELLS

- Perimeter sealing lips for secure assembly
- Die Cast Material: Lightweight zinc
- Die Cast Plating: Nickel over copper or black chromate
- Metalized Plastic Material: High temperature plastic UL94V-0
- Metalized Plastic Plating: Nickel over copper
- Plastic Material: High temperature plastic UL94V-2
- RoHS Compliant per NorComp documentation

RoHS Compliant

970 and 971 Series Backshells

- Kit includes: (2) Backshell Halves, (2) 4-40 Thumbscrews, (2) Housing Screws, 2 pc. Grommet - Various sizes
- Fully tapped assembly holes allow easy assembly

For quantities of 500 and up, call for quote.

D-SUB BACKSHELLS

Straight/Top Entry Backshells - 978 Series

- RoHS Compliant per NorComp documentation.

RoHS Compliant

- Kit Includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Saddle Washers, (2) Housing Screws, (2) 4-40 Housing Nuts, (1) Strain Relief Threaded Rod
- Metallized plastic provides up to 60 dB shielding.
- Metallized Plastic Material: High temperature - UL94H-B
- Plastic: High temperature plastic - UL94H-B
- Strain Relief design ensures secure fit no matter what cable diameter is used.
- Metallized Plastic Plating: Chrome
- Perimeter sealing lips for secure assembly.

For quantities of 500 and up, call for quote.

Top Entry Backshells - 979 Series

RoHS Compliant

- Kit includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Saddle Washers, (2) Housing Screws, (2) 4-40 Housing Nuts, (1) Grommet Tree - Various Sizes
- Die Cast Zinc backshell is nickel plated for over 70 dB shielding
- Perimeter sealing lips for secure assembly
- Backshell cable entry designed for sure grip on cable jacket or grommet and provide proper strain relief
- Non-conductive grommet/strain relief supplied to enhance EMI/RFI shielding

For quantities of 500 and up, call for quote.

Straight/90° Backshells - 982 Series

RoHS Compliant

- Kit includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Strain Relief Clamps, (2) Strain Relief Screws, (1) Compression Spring, (1) Cable Slot Shut-Off, (1) Cable Slot Feed-Thru, (3) Housing Screws
- Metallized plastic provides up to 60 dB shielding.
- Metallized Plastic Material: High temperature - UL94V-0
- Separate strain relief mechanism is useable in either top or 90 degree entry.
- Perimeter sealing lips for secure assembly.
- Metallized Plastic Plating: Electro-plated nickel over copper
- Gray Plastic Material: High temperature plastic - UL94V-0
- RoHS Compliant per NorComp documentation

For quantities of 500 and up, call for quote.

Straight Snap Backshells - 983 Series

RoHS Compliant

- Kit includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Saddle Washers, (1) Yoke, (2) Strain Relief Clamps, (2) Strain Relief Screws
- Metallized plastic provides up to 60 dB shielding
- Cable Clamp with self-tapping screws provide positive strain relief
- Gray Plastic Material: ABS Plastic - UL94V-0
- Metallized Plastic Material: ABS Plastic - UL94V-0
- Perimeter sealing lips for secure assembly
- Metallized Plastic Plating: Chrome
- May be used as "Gender Changer", pin-out changer or standard cable entry backshell

For quantities of 500 and up, call for quote.

SUBCON D-SUB CONNECTORS

Phoenix Contact's SUBCON products provides a means to make D-SUB assemblies without the hassle of soldering or crimping. The SUBCON product provides connection from the pins of a D-SUB connector to individual screw actuated terminal blocks all in a D-SUB clamshell housing. This means that the only tool required to configure a cable is a screwdriver.

- EMI/RFI Shielded, secure connection of cable assembly to mating receptacle.
- Cable feed-in is designed for one cable.

For quantities of 50 and up, call for quote.

SUBCON-PLUS D-SUB CONNECTORS

- SUBCON-PLUS is for applications where 2 cable feed-ins are required.
- SUBCON-PLUS-PROFIB is designed for use in Profibus systems up to 12 Mbit/s.
- Number of Contacts: 9
- PROFIBUS-Terminating resistor is already integrated in all versions.

For quantities of 50 and up, call for quote.

VARIOSUB D-SUB CONNECTORS

VARIOSUB-D-SUB is the IP67 protected plug connector range with commercially available D-SUB contact inserts.

- Male and female insert format enable 9,15, or 25 data lines and cable shields to be connected.
- VARIOSUB housings offer space and time-saving Push-Pull locking which snaps with a noticeable click.

For quantities of 50 and up, call for quote.

SPECTRUM CONTROL Ferrite Filtered D-Sub Connectors

RoHS Compliant **This page of product is compliant.**

SPECTRUM CONTROL INC

SERIES 400 FERRITE FILTERED CONNECTORS

The Series 400 Ferrite Filtered Connector is designed as a low cost EMI solution for high frequency interference. The space saving connectors incorporate a solid slab of ferrite material as the filtering element.

Features:

- Prevents common-mode noise in signal lines of data communication terminals and digital devices
- Drop In replacements for standard .318" D-Sub connectors
- Replaces individual ferrite beads, saving cost and space
- Effective in helping meet requirements of FCC, VDE, EN55022 and Japan's VCCI
- RoHS Compliant per Spectrum Control documentation

Specifications:

- Operating Temperature: –40°C to +105°C
- Frequency Range: 10 – 300 MHz
- Current Rating: 5 Amps
- Dielectric Withstand Voltage: 1000 VAC for one min
- Shell: Steel (Tin Plated)
- Plug Contacts: Brass
- Recept. Contacts: Phosphor Bronze
- Contact Plated: Gold Flash

RoHS Compliant

For quantities of 25 and up, call for quote.

SERIES 700 HIGH PERFORMANCE FILTERED CONNECTORS

Spectrum Control Series 700 Connectors offer the highest performance filtering for all types of professional applications.

Features:

- One piece diecast housing design
- Tubular capacitor filtering provides effective performance through 10 GHz
- UL Recognized: File #E149046
- RoHS Compliant per Spectrum Control documentation

Specifications:

- Shell: Zinc diecast, nickel plated
- Contacts: Copper alloy
- Plug Contacts: 15μ" Gold plated over nickel
- Receptacle Contacts: 30μ" Gold plated over nickel
- Temperature: -55°C to +125°C
- Current Rating: 5 Amps
- Contact Resistance: 10MΩ maximum

RoHS Compliant

Plug/Receptacle Adapter

In-line design allows EMI/RFI filtering to be added externally to equipment. Utilizes existing D-Sub connectors. No gender changer required. Offers same protection as soldered in filters.

- RoHS Compliant per Spectrum Control documentation

✱ LI Suffix=4-40 UNC Inserts

RoHS Compliant

For quantities of 25 and up, call for quote.

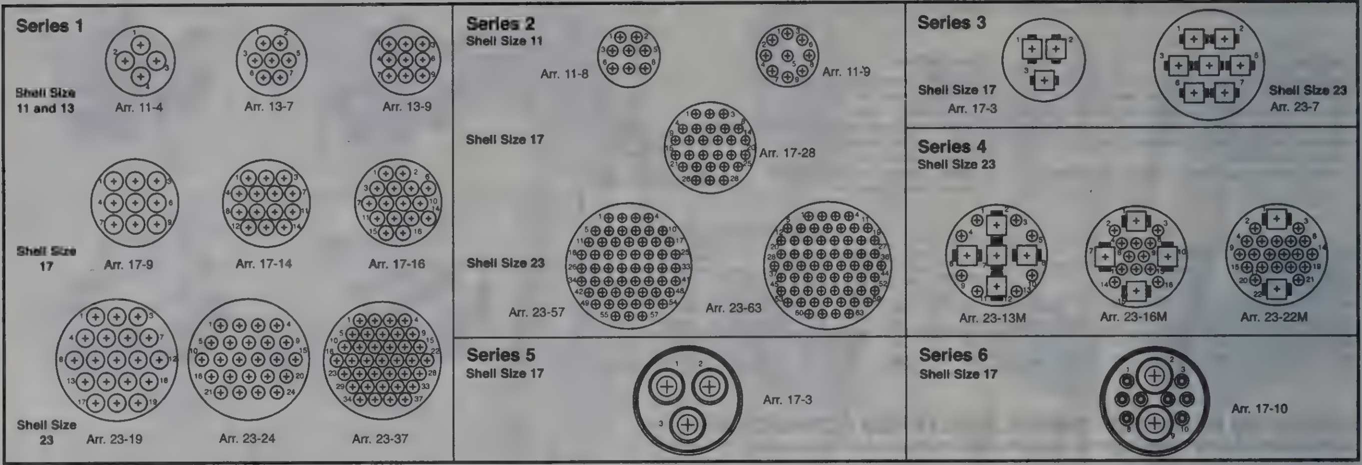
AMP CPC Connectors

(SERIES 1)

Tyco Electronics
Authorized Distributor

CPC CONTACT ARRANGEMENTS



"SERIES 1" (SIZE 16 CONTACTS)

Standard density, signal and low-current applications using Multimate contacts.

∗ STD. Gender= Pin contacts in receptacle housings, socket contacts in plug housings
∗ REV. Gender= Socket contacts in receptacle housings, pin contacts in plug housings
Pins and sockets must be ordered separately.

Features:

- Housing Material: Black thermoplastic
- Flammability rating: UL94V-0
- .062" pin diameter

Connectors

- Molded-in keying: standard configuration: 5 keys.
- Sealed connectors are with pre-installed, bonded peripheral seal, two piece.

Standard Sex Connectors

RoHS compliant per Tyco Electronics documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

Tyco Electronics
Authorized Distributor

MICRO CPC

Ideal for medical, instrumentation and industrial applications where size, contact density and durability are primary concerns. The nylon housings offer good resistance to a wide range of chemical agents while the IP65 sealing helps prevent ingress of dirt or fluids that would have an adverse effect on the contact interface.

Features:

- Squeeze-to-release coupling mechanism offers positive latch or optional breakaway locking feature
- Panel mount receptacle offers jam nut mounting
- Keyed and polarized
- Sealed to IP65
- No assembly required
- No application tooling required
- Ink marked positive alignment indicators

Electrical:

- Carrying capacity: 2-3 Amps
- Operating voltage: 250 VAC min.
- Operating temp.: -67°F to +221°F
- Dielectric withstanding volt.:1500 VAC min
- Wire size: 24-30 AWG
- Housing: single piece design, nylon

- Available in wire-to-wire, wire-to-board, and wire-to-panel configurations

For quantities of 100 and up, call for quote.

MINIATURE CPC

Ideal for medical, instrumentation and industrial applications where size, contact density and durability are primary concerns. The nylon housings offer good resistance to a wide range of chemical agents while the IP67 sealing helps prevent ingress of dirt or fluids that would have an adverse effect on the contact interface.

Features:

- Sealed to IP67
- Pre-positioned 1/4 turn coupling ring with positive lock and alignment features
- Unique contact pattern for each position size helps prevent accidental mating with other position sizes
- Front or rear jam nut mounting
- Field repairable contacts
- Available in wire-to-wire, wire-to-board and wire-to-panel configurations

Electrical:

- Operating temperature: -67°F to 221°F
- Dielectric withstanding voltage: 2200 VAC minimum
- Wire termination: Crimp
- Housing: single piece design, plastic

RoHS Compliant

- RoHS compliant per Tyco Electronics documentation

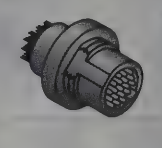
C



D

PA6 Flexa Tubing

Temperature range: From approximately -40°C up to approximately +115°C; temporarily withstands temperatures up to approximately +150°C

- RoHS compliant per Tyco Electronics documentation

RoHS Compliant

Features:

- Air and liquid tight
- Oil resistant up to +80°C
- Highly resistant to acids and solvents
- Ozone and Benzine resistant
- Free of silicone, cadmium, and halogen
- Self-extinguishing and flame retardant

AMPHENOL 97 Series Circular Connectors

Amphenol®

97 SERIES SOLDER TYPE (MIL-C-5015 STYLE)

The Amphenol 97 series connectors are a general duty standard cylindrical connector, MIL-C-5015 style. The 97 series is a widely used connector for the automotive, robotics, machine tool and welding industries, as well as numerous other commercial applications. Shell components are fabricated from high grade aluminum alloy. A complete connector assembly consists of a shell with an installed insert.

Features:
- Medium to heavy weight cylindrical
- Durable, field-proven design
- Single key/keyway polarization
- Threaded coupling, hard dielectric inserts
- Operating temperatures from -55°C to +125°C
- Intermateable and intermountable with existing 97 series and MIL-C-5015 connectors
- All connectors shipped assembled and individually packaged

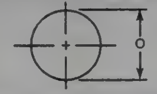
Materials:
- Shells: High grade aluminum alloy, with a conductive cadmium plate finish and an olive drab chromate after treatment.
- Inserts: Hard Blue Diallyl-phthalate
- Contacts: Silver plated with pre-tinned solder cups

RoHS Version Materials:
- Plating: Black Zinc Cobalt
- Insert: Hard Blue Diallyl Phthalate
- Contacts: Silver Plated with non-filled solder cups
- Add (946) to end of Part No.

Recognition
File #E115497

Certification
File # LR 69183

Receptacle Mounting Holes:
.173" (4.394) Diameter for shell sizes 32 and 36
.147" (3.734) Diameter for shell sizes 24 and 28
.120" (3.048) Diameter for all other shell sizes



Panel Opening

Quick selection guide for the standard Amphenol 97 series.

1. **How many wires are you going to connect and what gauge?**
   Use the insert arrangement table on the following page for selecting insert configuration .
2. **What kind of receptacle shell do you need?**
   Wall Mounting: 3100 Shell Series, Box Mounting: 3102 Shell Series, Cable Mounting: 3101 Shell Series
3. **What kind of plug shell do you need?**
   Straight Cable : 3106 Shell Series, Right Angle Cable : 3108 Shell Series
4. **Do you need a plug with a solid or split back shell?**
   The solid shell (A Type) has greater strength and saves space. The split shell (B Type) allows for quick inspection of solder terminals.
5. **Which connector shell gets the socket insert? The receptacle or the plug shell?**
   Either pin or socket inserts can be used with plug or receptacles shell. The rule of thumb is use the socket insert for the connector on the "hot" side of the circuit.
6. **Which accessories are needed?**
   Cable clamps and protection caps are available and are shown at the end of this product section.

How to build a standard Amphenol 97 series part number:

97 - 3101 A - 28 - 21 P (946)

97- Like MS but Amphenol®

Shell Type

97 SERIES SOLDER TYPE (MIL-C-5015 STYLE) (CONT.)

How to build a standard Amphenol 97 series part number:

Combine the shell part number with insert arrangement number to complete the Amphenol part number. For Example: From the table below, combine a wall mount shell number **(97-3100A-)** with an insert number **(18-16P)** to create a complete Amphenol part number **(97-3100A-18-16P)**. The standard Amphenol 97 series shells are constructed with a high grade aluminum alloy and come in a olive drab chromate finish. The blue diallyl-phthalate inserts have pre-installed silver plated contacts with solder cups. **All connectors are shipped fully assembled, labeled, and individually packaged.** For complete connector specifications and descriptions see the 2 previous pages.

* How to build a RoHS version of a standard Amphenol 97 series part number:

Add **(946)** to the end of a part number for either a plug or receptacle. This provides a black zinc cobalt finish and solder contacts with non-filled solder cups. **Example: 97-3100-18-16(946)**

Receptacles

For quantities of 100 and up, call for quote.

To make a mating receptacle - plug connection:

From the table below, select a plug combination off of the same line as the selected receptacle combination. For Example: A **97-3100A-18-16P** wall mount receptacle will mate with any of the plugs with the **18-16S** insert. **Receptacles only mate with plugs on the same line.**

Recognition
File #E115497

Certification
File # LR 69183

*** RoHs Version Available**

Mating Plugs

For quantities of 100 and up, call for quote.

AMPHENOL 97 Series Circular Connectors

Amphenol®

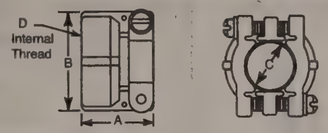
ACCESSORIES FOR AMPHENOL 97 SERIES CONNECTORS

Cable Clamp MS 3057A Type and Bushing

For quantities of 250 and up, call for quote.

Cable Clamp MS3057A Type

For jacketed cable or wires protected by tubing. Both clamping halves float for maximum strain relief. For unjacketed cable or wires, use corresponding MS3420 bushing. Clamp and bushing can be ordered together.



Bushing MS3420

Rubber bushing specifically designed for MS3057A type cable clamp. Can also be used as a reducing bushing. Order separately or with cable clamp.

9767 Cable Clamp

MIL-C-5015 TYPE CIRCULAR CONNECTORS, SOLDER CONTACTS

Features:

- Threaded couplings with single key/keyway polarization
- Durable, field-proven design
- Black resilient neoprene insert material
- All connectors shipped assembled and individually packaged

Materials:

- Shells: Fabricated from high grade aluminum alloy with an olive drab chromate finish
- Contacts: Machined copper alloy with a silver plated finish
- Inserts: Black resilient neoprene

Connector Class:

- A-Type: Solid shell for general, non-environmental applications.
- E-Type: Environmental resisting, designed for applications where the connector will be exposed to moisture, vibration, and rapid changes in pressure and temperature.
- F-Type: Environmental resisting with strain relief, designed for applications where the connector will be exposed to moisture, vibration, and rapid changes in pressure and temperature.
- R-Type: Lightweight environmental resisting, shorter in length and lighter in weight than the E and F types.

Insert Arrangements:

- See the insert arrangement table in the 97 series catalog section.

Mating Information:

- Receptacles mate with plugs on the same line.

PT SERIES SOLDER TYPE (MIL-C-26482, SERIES 1)

Amphenol Miniature Cylindrical connectors offer twice the number of contacts in just half the size of a standard connector. The PT series offers quick positive three point bayonet lock coupling. A complete connector assembly consists of a shell with an installed insert. **All connectors shipped fully assembled, labeled and individually packaged.**

Features:

- Medium size, widely used cylindrical connector
- Corrosion resistant cadmium plate with an olive drab chromate finish
- Five key/keyway polarization
- Quick positive three point bayonet lock coupling
- Audible, tactile and visual indication of full coupling
- Suitable for wide temperature range
- Spring tension provided by a wave washer ensures maintenance of interfacial seal between mating halves
- Resilient neoprene insert and main joint gasket provides excellent moisture sealing and superior electrical contact isolation
- Some styles available in RoHS Compliant versions

Materials:

- Shells: High grade aluminum alloy, with a conductive cadmium plate finish and an olive drab chromate after treatment.
- Inserts: Black resilient neoprene
- Contacts: Gold plated copper alloy. Socket contacts are a closed entry design.

Specifications:

- Temperature range: -65°C to +257°C
- Current rating: 7.5 Amps to 23 Amps

Quick selection guide for the standard Amphenol PT series.

1. **How many wires are you going to connect and what guage?**
   Use the insert arrangement table on the following page for selecting insert configuration.
2. **What kind of receptacle shell do you need? The plug only mates with receptacles.**
   Box Mount: PT02, Jam Nut: PT07, Wall Mount: PT00
3. **Which connector shell gets the socket insert? The receptacle or the plug shell?**
   Either pin or socket inserts can be used with plug or receptacle shells. The rule of thumb is use the socket insert for the connector on the "hot" side of circuit.

PT Service Classes:

A General Duty; back shell is threaded for conduit attachment of MS3057 cable clamp†

A (SR) General Duty; with strain relief clamp for cable or wire bundle support

E Environmental resistant connectors - supplied with a multi-holed grommet and clamping nut for moisture-proofing individual open wires

E (SR) Environmental resistant strain relief clamp and grommet for moisture proofing individual wires; provides added wire bundle support

† PT02 Shells do not have a threaded back shell

PT SERIES SOLDER TYPE (MIL-C-26482, SERIES 1) (CONT.)

How to build a standard Amphenol PT series part number:

Combine the shell part number with insert arrangement number to complete the Amphenol part number.
Receptacle Example: From the table below, combine a box mount shell number (**PT02A-**) with an insert number (**8-2P**) to create a complete Amphenol part number (**PT02A-8-2P**).

Plug Example: From the table below, combine a plug shell number (**PT06A-SR**) with an insert number (**8-2S**) to create a complete Amphenol part number (**PT06A-8-2S-SR**). The standard Amphenol PT series shells are constructed with a high grade aluminum alloy and come in a olive drab chromate finish. The black resilient neoprene inserts have pre-installed gold plated contacts with solder cups. **All connectors are shipped fully assembled, labeled, and individually packaged.** For complete connector specifications and descriptions see the previous pages.

To make a mating receptacle - plug connection:

From the table below, select a plug combination off of the same line as the selected receptacle combination. For Example: A **PT02A-8-2P** box mount receptacle will mate with any of the plugs with the **8-2S** insert.
Receptacles only mate with plugs on the same line.

PT SERIES CRIMP TYPE (MIL-C-26482, SERIES 1)

Amphenol SE crimp type miniature connectors provide performance and versatility needed for applications demanding high reliability and crimp removable contacts. These crimp contacts are rear insertable/front release and are held in position by an MS approved spring tower retention system. Crimp contacts are supplied with connectors. Product specifications are comparable, intermateable, and intermountable to the PT solder series.
(See above text for ordering information.)

Crimp Tools

For quantities greater than listed, call for quote.

MS TYPE ENVIRONMENTAL MINIATURE BAYONET CONNECTORS (MIL-C-26482, SERIES 1)

Features:
- Bayonet couplings with 5 key/keyway polarization
- Visual confirmation of complete mating
- Durable, field-proven design
- Solder Contacts
- All connectors shipped assembled and individually packaged

Specifications:
- Temperature Range: -40° F to + 185°F (IEC 60068-1)
- Shells: Fabricated from high grade aluminum alloy with an olive drab chromate finish
- Contacts: Machined copper alloy
- Inserts: Black resilient neoprene with white printing

Mating Information:
- Receptacles mate with plugs on the same line.

AMPHE-LITE® COMMERCIAL 38999, SERIES III TYPE COMPOSITE CONNECTORS

COMMERCIAL 38999, SERIES III TYPE COMPOSITE CONNECTORS
The Amphe-Lite Connector Series is designed for communications equipment manufacturers with signal, power, RF or fiber optic interconnect requirements in harsh environments such as communication towers, outdoor and roof-top applications. This commercial 38999, Series III type composite connector series is ideal for communications equipment, manufacturing process control, and medical equipment. The Amphe-Lite offers the highest performance capabilities for severe environment applications, and yet is cost effective enough for general duty, and non-environmental applications.

Features:

- Nickel finish connectors provide EMI shielding capability which exceeds MIL-DLT-38999 Series III requirement
- Lightweight composite shells resist severe corrosion
- Completely mates in one 360° turn of the coupling nut
- Recessed pins minimize potential contact damage in this scoop-proof connector
- All connectors shipped assembled and loose crimp contacts

Specifications:

- 22D contact size rated at 5A
- Operating temperatures from -55°C to 125°C
- Gold plated crimp contacts (50u")
- Suggested operating voltage for 22D contacts is 400 VAC (RMS) and 550VDC

Receptacle Shells

AMPHENOL RADSOK® Power Bus Connectors

The difference is in the RADSOK® (Radial Socket) design. The socket cylinder within the female contact has several equally spaced longitudinal beams twisted into a shape. As the male pin is inserted, axial members in the female half deflect, imparting high current flow across the connection with minimal voltage loss. This twisted hyperbolic grid ensures the greatest possible contact area on the mating pin. This technology is ideal for crimp termination applications requiring repeated mating cycles and high current with low milli-volt drop and features higher ampacity, lower insertion force, high cycle durability, and high reliability.

Amphenol now offers RADSOK® technology in their MIL-C-5015 cylindrical connectors for high current applications. Because they now feature the flat stamped, hyperbolic twisted contact grid in the socket, a 50% increase in current rating is achieved.

Amphe-Power Crimp Contact Current Rating		
Contact Size	Standard Contact	Amphe-Power
8 AWG	46 Amps	70 Amps
4 AWG	80 Amps	120 Amps
0 AWG	150 Amps	250 Amps

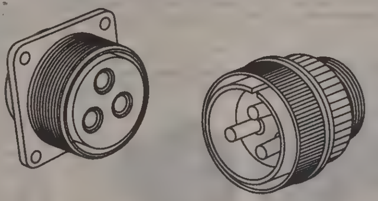
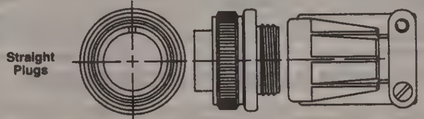
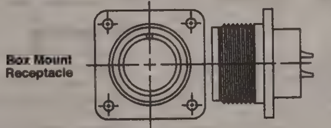
AMPHE-POWER® 5015 WITH RADSOK® TECHNOLOGY

Features:

- Threaded Coupling
- Durable field proven cylindrical connector derived from the MIL-C-5015 family
- Single key/keyway polarization
- Operating Temperature: -55°C to +125°C
- Termination Type: Crimp
- Environmental Rating: IP67
- Contact Plating: Silver
- Finish: Black Zinc Cobalt
- Inserts: Neoprene







Part Number Configuration:

- ACC02E__-__P025 Box Mount Receptacle
- ACC06E__-__R025 Straight Plug

Straight Plugs

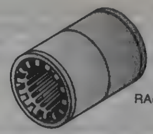
AMPHENOL RADSOK® Power Bus Connectors

The difference is in the RADSOK® (Radial Socket) design. The socket cylinder within the female contact has several equally spaced longitudinal beams twisted into a shape. As the male pin is inserted, axial members in the female half deflect, imparting high current flow across the connection with minimal voltage loss. This twisted hyperbolic grid ensures the greatest possible contact area on the mating pin. This technology features higher ampacity, lower insertion force, high cycle durability, and high reliability.

Twisted Hyperbolic Grid



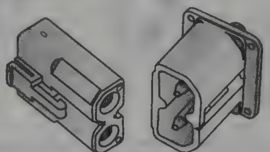
RADSOK® Contact

AMPHE-PD™ WITH RADSOK® TECHNOLOGY

The Amphe-PD™ connector generates more processing power with less heat than a similar-sized connector. The series produces greater amperage without wasting valuable space, offering a compact solution for datacom applications that require small, yet powerful connectors.

Features:

- 2 Position DC Power interconnect in about 1 square inch
- UL94V-0 molded thermoplastic
- Integrated latching mechanism
- Easy tool-less assembly
- Proven metal clip contact retention on receptacles
- TUV finger proof
- Tactile and audible locking
- Plug is designed to accept Superflex 6 AWG
- TPA device on plug to insure socket locking
- RoHS Compliant per Amphenol documentation



RoHS Compliant

Specifications:

- Current rating: 69 Amps UL rated, 55 Amps CSA rated
- 6 AWG

Applications:

- Battery Connection
- Busbar Connection
- Power Supply Connection
- Telecom
- Data Storage
- Controls

AMPHE®-GTR WITH RADSOK® TECHNOLOGY

Amphe®-GTR Connectors use RADSOK® technology inside a composite reverse bayonet housing that is already proven in the power server industry. This combination of utilizing the existing connector footprint and the increase in power offered by using the RADSOK® sockets makes the Amphe®-GTR second to none.

Features:

- Quick positive coupling
- Audible, tactile and visual indication of coupling
- High shock and vibration capabilities
- Pressure wire termination
- FMLB ground contact
- High performance composite shell and hardware
- UL / CUL 2238 Listed
- Field repairable

Applications:

- High power process control
- Server applications

Specifications:

- Contact Plating: Silver
- Contact: #4
- IP67 rating
- Termination Type: Compression set screw
- Dielectric Withstanding Voltage: 2000VAC (RMS)
- Insulation Resistance: 1000MΩ
- Flammability: UL94V-0
- Mating Cycles: 25 min

AMPHENOL Amphe-PPM Push/Pull Connectors Amphenol®

RoHS Compliant **This page of product is compliant.**

The Amphe-PPM is a rapid mate push - pull connector which provides positive mating in limited space and ease of use. The design features of the Amphe-PPM allows consumers to save cost in space savings along with installation. Ideally suited, but not limited to, Medical Equipment, Instrumentation, Test and Measurement, and Communication Equipment.

Features:

- Push - Pull Rapid Mate connector system
- Sealed IP67 or Non-sealed IP55 versions
- 4 Sealed shell sizes: 10mm, 12mm, 16mm, & 18mm
- 2 Non-sealed shell sizes: 12mm & 16mm
- Termination Style: Solder
- Operating Temperature: -40°C to 100°C
- Mating Cycles: 500+
- Current Rating: 0.8mm: 3 amps, 1mm: 5 amps, 1.5mm:10 amps, 2.5mm: 25 amps
- Designed to IEC 61984
- Non-Magnetic
- Crimp or PCB tails available on special request.

AMPHENOL Circular Connectors

RoHS Compliant **This page of product is compliant.**

SERIES C16-M ECO|MATE CIRCULAR CONNECTORS

The new eco|mate Series is designed to have ease of operation using reduced dimensions while withstandstanding harsh conditions. This new series is compatible and interchangeable with the well established C16-1 Series.

Features:
- Quick and easy assembly
- Vibration safe with non-sensitive screw locking
- Ergonomic coupling sleeve for better grip and safer handling
- Interchangeable with the C16-1 series
- Other colors available . Ask sales for details.

Specifications:
- Cable O.D.: 6 - 12.5mm
- Contact Plating: Silver
- IP Degree: IP 65 / IP67 (DIN EN 60529)
- Temperature range: -40°C to +100°C
- Flammability: UL94V-0

RoHS Compliant

SERIES C091A CIRCULAR DIN CONNECTORS

Circular connectors with metal screw coupling and plastic back shell that provides EMI shielding.

Features:
- Metal threaded coupling acc. to IEC 130-9
- Internal metal strain relief with half shell construction and snap-in latching
- UL Approval File # E63093
- Complete EMI Shielding in fully mated and locked position
- Solder Termination
- Cable Connector Length: 2.658 In.
- Cable Connector Diameter: .670 In.

Specifications:
- Temperature Range: -40° F to + 185°F (IEC 60068-1)
- IP-Degree: IP 40 (IEC 60529)
- Contact Plating: Silver
- Mating Cycles: 500
- Flammability: UL94V-0
- Dielectric material: Thermoplastic

SERIES C091D IP67 RATED CIRCULAR DIN CONNECTORS

Circular connectors with metal screw coupling and back shell designed for harsh environmental conditions

Features:
- Metal threaded coupling acc. to IEC 130-9
- Precision metal construction
- Internal metal strain relief
- UL Approval File # E63093
- Complete EMI Shielding in fully mated and locked position
- Solder Termination
- Cable Connector Length: 2.244 In.
- Cable Connector Diameter: .709 In.

Specifications:
- Temperature Range: -40° F to + 185°F (IEC 60068-1)
- IP-Degree: IP 67 (IEC 60529)
- Contact Plating: Silver
- Mating Cycles: 500
- Flammability: UL94V-0
- Dielectric material: Thermoplastic

SERIES C091B BAYONET LOCKING CIRCULAR DIN CONNECTORS

Features:

- Internal metal strain relief with half shell and snap-in locking
- UL Approval File # E63093
- Complete EMI shielding in fully mated and locked position
- Solder termination

Specifications:

- Cable Diameter: 3 - 6mm
- Contact Plating: Silver
- IP Degree: IP 40 (IEC 60529)
- Temperature Range: -40°F - +185°F (IEC 60668-1)

RoHS Compliant

For quantities of 100 and up, call for quote.

SERIES 44 ENVIRONMENTAL CIRCULAR CONNECTORS

Features:

- Poke-Home® crimp contacts
- One piece water resistant design (IP65)
- Housings made from santoprene thermoplastic rubber
- Contacts sold separate from housings

Specifications:

- Temperature Range: -40°C to +125°C
- Wire Outer Diameter: .080" to .130"
- Mated Length: 2.174"
- Contact Plating: Silver

RoHS Compliant

PL-700 SERIES PLASTIC SHELL AUTO-COUPLING CIRCULAR CONNECTORS

The PL-700 Series connectors feature Pulse-Lok®, auto-latch mating action that provides audible, visible and confirmation that connector pairs are fully engaged. Compact and configurable, the PL-700 Series is the most versatile offering in a .700" diameter package.

Features:

- Up to 27 contact positions
- Chemical resistant housing
- Sterilizable
- Plastic shell
- Up to 5,000 mating cycles (with std. contacts)
- Water proof (IP-67 rated)
- Auto coupling
- Ideal for medical environments

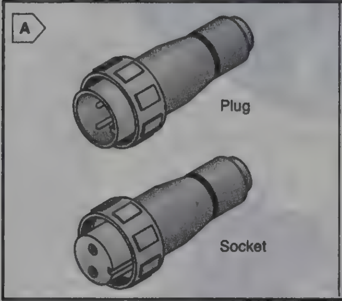
BULGIN 400 Series Buccaneer® Sealed Connectors

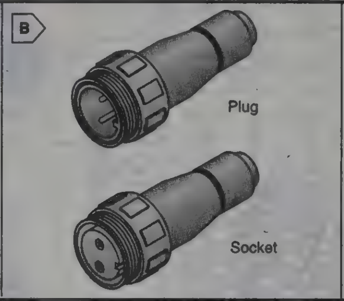
RoHS Compliant **This page of product is compliant.**

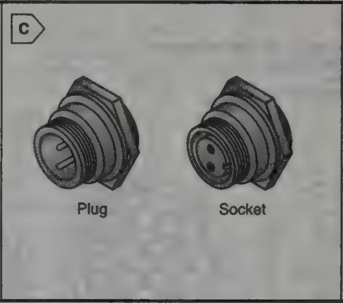
400 SERIES BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

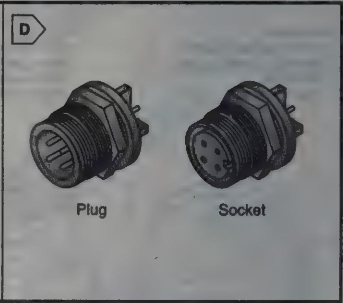
Specifications:

- Sealed to IP68 when mated
- Contact inserts are part of body moulding
- Cable range from 3 to 7mm
- Diameter over coupling ring 19.1mm
- Flame retardant moulding material: Polyamide UL94V-0
- RoHS Compliant per Bulgin documentation
- Secure sealing system
- UL, CSA, and VDE approvals









Flex Cable Connectors

- Mates with flex in-line or panel mounting versions
- Screw locking ring
- Contacts supplied separately
- RoHS Compliant per Bulgin documentation

RoHS Compliant
For quantities of 250 and up, call for quote.

BULGIN 900 Series Large Buccaneer® Sealed Connectors

BULGIN

RoHS Compliant **This page of product is compliant.**

900 SERIES LARGE BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

Specifications:

- Water and dustproof to IP68 when mated
- Positive locating keyways - cannot be mis-connected
- Compact design
- Easy assembly - no special tools required
- UL, CSA, and VDE approved
- Axial screw terminals
- Current rating: 32A
- Voltage rating: 600 VAC/VDC
- Contact resistance: <10mΩ initial
- Insulation resistance: >10^{6}MΩ @ 500 VDC
- Operating temperature: -40°C to +85°C
- Body material: Polyamide UL94V-0
- Contact material: Machined solid brass, nickel plated
- Cable Diameter: PX0: 13-15mm
  PXA: 20-22mm

Flex Cable Connectors

- Mates with in-line flex, panel or flange mounting versions
- Positive, fast acting locking ring - can be turned with a gloved hand
- PXA - strain relief clamp included
- RoHS Compliant per Bulgin documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

BULGIN Mini and SMB Buccaneer® Sealed Connectors

RoHS Compliant **This page of product is compliant.**

MINI BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

- Sealed to IP68 when mated
- Cable range from 3.5 to 9mm
- Diameter over coupling ring 26mm
- Positive locating keyways - cannot be mis-mated
- Flammability rating UL94V-0
- Compact design
- Easy assembly - no special tools required on screw terminal versions
- RoHS Compliant per Bulgin documentation

RoHS Compliant

Flex Cable Connector

- Mates with flex in-line or panel mounting versions
- Cable Acceptance: 3.5 - 9mm (Standard 5 -7mm)
- Suitable for plug or socket inserts sold separately
- Screw locking ring

For quantities of 250 and up, call for quote.

FIELD INSTALLABLE CONNECTORS

Low cost Standard connectors for Industrial and Marine Applications

The all plastic connector is corrosion resistant, non-conductive and withstands substantial abuse, hostile environments, and heavy impacts that would otherwise cause metal connectors to corrode, deform or become electrically conductive and thus become unusable or unsafe.

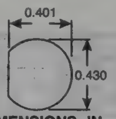
Features:

- Solder Cup Termination
- Corrosion resistant and non-conductive connectors
- Suitable for use in hostile environments
- Coupling rings have overriding locking feature to prevent loosening or separation of connector
- RoHS compliance per Conxall documentation
- UL Recognized File # E138878-250V
- CSA Certified File # LR89277-600V

Specifications:

- Connector body & Backshell: Black Nylon
- Connector: Gold over Nickel
- Grommet: Black Santoprene Rubber
- Voltage: 600V
- Durability: Minimum 300 mate/unmate cycles w/out mechanical or electrical failure
- Temperature Rating: -55°C to +125°C (-67°F to +257°F)
- Watertight: Up to IP67/NEMA 6P

Recommended Panel Cut-Out ±.003



DIMENSIONS: IN

Micro-Con-X® Subminiature Series

Contact size #20; #20-24 AWG

RoHS Compliant

For quantities of 50 and up, call for quote.

Low cost Standard connectors for Industrial and Marine Applications

The all plastic connector is corrosion resistant, non-conductive and withstands substantial abuse, hostile environments, and heavy impacts that would otherwise cause metal connectors to corrode, deform or become electrically conductive and thus become unusable or unsafe.

Features:

- Solder Cup Termination
- Corrosion resistant and non-conductive connectors
- Suitable for use in hostile environments
- Coupling rings have overriding locking feature to prevent loosening or separation of connector
- RoHS compliance per Conxall documentation
- UL Recognized File # E138878-250V
- CSA Certified File # LR89277-600V

Specifications:

- Connector body & Backshell: Black Nylon
- Connector: Gold over Nickel
- Grommet: Black Santoprene Rubber
- Voltage: 600V
- Durability: Minimum 300 mate/unmate cycles w/out mechanical or electrical failure
- Temperature Rating: -55°C to +125°C (-67°F to +257°F)
- Watertight: Up to IP67/NEMA 6P

RoHS Compliant

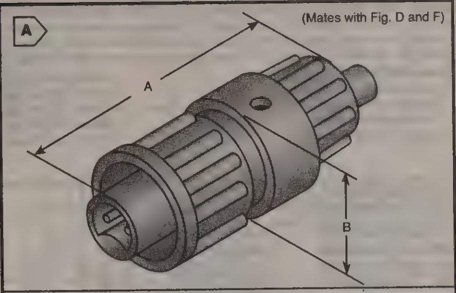
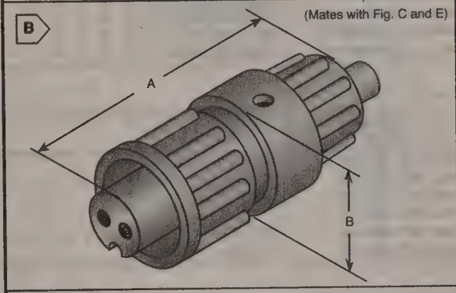
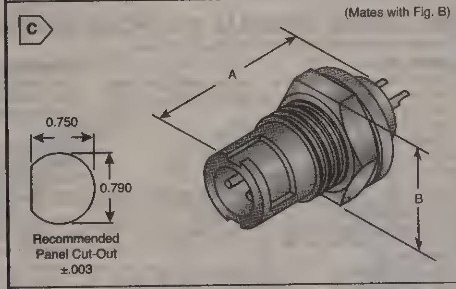
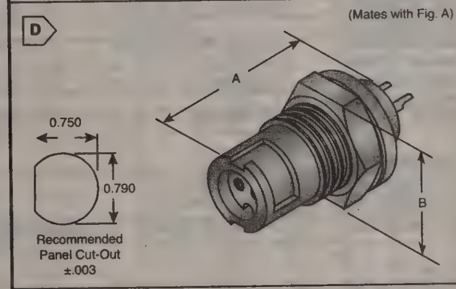
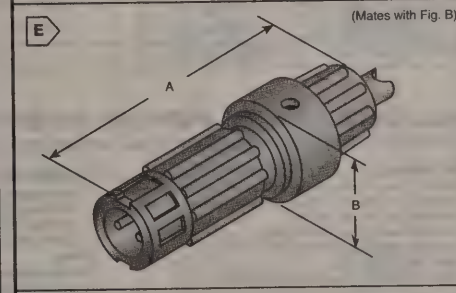
3DC=Daisy chain grommet with 3 I.D.'s (.125, .188, .250)

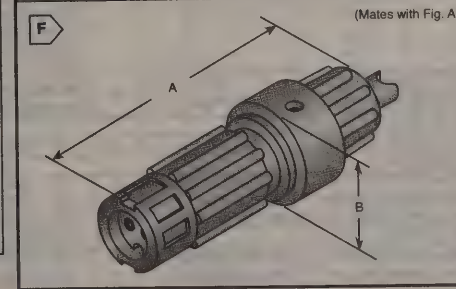












JAE Circular Connectors

RoHS Compliant **This page of product is compliant.**

JB5 SERIES GENERAL PURPOSE WATERPROOF CIRCULAR CONNECTORS

This I/O connector features a secure push-pull mating system and is suitable for use in devices such as handheld PC's, scanners, portable instruments, medical monitors, and any other device used in outdoor or splash-prone environments. Metal micro-circular connector. Waterproof seal to IP68. Series operates at speeds up to 20 Mbps (based on USB1.1)

Specifications:
- Current rating: 2A per contact
- Dielectric withstanding voltage: 200VAC for 1 minute
- Operating temperature: -55°C to +85°C
- Insulator: Glass-filled LCP
- Shell/Coupling Nut/Assembly Nut/Gland Nut: Copper/Chromium plated
- Shield Sleeve/Clamp/Spacer/Spring: Copper/Nickel plated
- Contact plating: 30µin Au over Ni
- Barrel: Zinc/Nickel plated
- RoHS Compliance per JAE documentation

RoHS Compliant

JN1 SERIES GENERAL PURPOSE WATERPROOF MINIATURE CONNECTORS

All plastic, waterproof to IP67. Twisting locking mechanism.

Specifications:
- Current rating: 5 amps (4 Pin) or 3 amps (10 Pin) per contact
- Dielectric withstanding voltage: 2000VAC (4 Pin) or 900VAC (10 Pin) r.m.s. for one minute
- Insulation resistance: 1000 MΩ min.
- Operating temperature: -20°C to +125°C
- Applicable wire size: # 20, # 21-25, # 26-28
- RoHS Compliance per JAE documentation

Receptacle:
- Pin Insulator: Synthetic resin
- Pin Contact: Copper alloy / Gold plating (10 pins) or Silver plating (4 Pins)

Plug:
- Front & Rear Insulator: Synthetic resin
- Spring & Spring Pin: Stainless Steel
- Socket Contact: Copper alloy / Gold plating (10 pins) or Silver plating (4 Pins)

RoHS Compliant

*Right angle plug can be mated in 4 different directions by rotating the connector 90 degrees.

For quantities of 50 and up, call for quote.

JN2 SERIES GENERAL PURPOSE WATERPROOF MINIATURE CONNECTORS

Similar to our JN1 series except that the outer shell has been reinforced with a zinc alloy for extra ruggedness. This connector meets IP67 waterproof rating.

Specifications:
- Current rating: 5 amps (4 Pin) or 3 amps (10 Pin) per contact
- Dielectric withstanding voltage: 2000VAC (4 Pin) or 900VAC (10 Pin) r.m.s. for one minute
- Insulation resistance: 1000 MΩ min.
- Operating temperature: -20°C to +100°C
- Uses the JN1 contact
- RoHS Compliance per JAE documentation

Receptacle:
- Pin Insulator: Synthetic resin
- Pin Contact: Copper alloy / Gold plating (10 pins) or Silver plating (4 Pins)
- Shell: Zinc spelter die-cast/Zinc plating

Plug:
- Front & Rear Insulator: Synthetic resin
- Spring: Stainless Steel
- Spring Pin: Synthetic resin
- Socket Contact: Copper alloy / Gold plating (10 pins) or Silver plating (4 Pins)

RoHS Compliant

For quantities of 50 and up, call for quote.

KYCON Mini-DIN Connectors

RoHS Compliant This page of product is compliant.

RIGHT ANGLE PCB RECEPTACLES

- Fully Shielded for good conductivity, grounding, and EMI/RFI protection
- Mates with standard and snap and lock plugs
- Body Material: PBT Thermoplastic, UL94V-0 rated
- Contact Material: Phosphor Bronze, Gold plated
- RoHS Compliance per Kycon Documentation
- Shield Material: Brass, Tin Plated
- Solder Tails: Tin Plated Over Nickel
- Operating Temperature: -25°C to +85°C

RoHS Compliant

LEMO Push-Pull Connectors

RoHS Compliant **This page of product is compliant.**

B-SERIES CONNECTORS

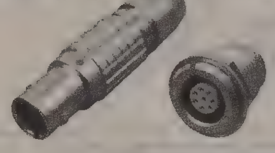
An extensive line of high quality mechanically keyed, general-purpose connectors with up to 1,400 insert configurations including multi-contact electrical, fiber optic, and various others.

Specifications:

- Multi-contact types from 2 to 64 contacts
- IP Rating 50
- Temperature range -55 to +250 deg C
- Shielding > 75 dB @ 10 MHz and > 40 dB @ 1 GHz

Features:

- Most widely accepted series by many industries
- Multiple keyways prevent accidental cross mating
- Reverse-sex configurations enhance safety in scenarios where the cable provides power



- RoHS compliant per LEMO documentation.
- Male Solder and Crimp connectors ending with a 'Z' require a collet. Collets ordered separately.

Plugs

LEMO Push-Pull Connectors

RoHS Compliant **This page of product is compliant.**

K-SERIES CONNECTORS - ENVIRONMENTALLY SEALED

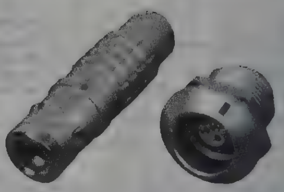
Environmentally sealed version of the B Series. With an IP 66 to 68 rating, these connectors handle the outdoors, wash-downs, and autoclaving.

Specifications:

- IP 66 rating when mated to the appropriate cable
- Multi-contact types from 2 to 64 contacts

Features:

- Multiple key options to avoid cross mating of similar connections
- Rugged housing for extreme working conditions
- Security of the push-pull latching system
- RoHS compliant per LEMO documentation



For quantities of 100 and up, call for quote.

LEMO Push-Pull Connectors

RoHS Compliant **This page of product is compliant.**

S-SERIES CONNECTORS

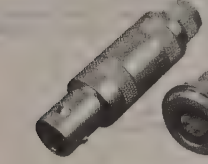
Hermaphroditic or concentric insert styles, and protected contacts make the "S" Series a quality choice connector for numerous general-purpose applications.

Specifications:

- Multi-contact types from 2 to 106 contacts
- Single contact insert types can run high currents (up to 230 A)
- Male Solder and Crimp connectors ending with a 'Z' require a collet. Collets ordered separately.

Features:

- Hermaphroditic (combined male & female contacts) half-moon inserts make blind mating easy
- Concentric insert types (single contact, coaxial/ triaxial) can be blindly inserted in any orientation and rotated into any direction for convenience
- RoHS compliant per LEMO documentation.



For quantities of 100 and up, call for quote.

00-SERIES CONNECTORS

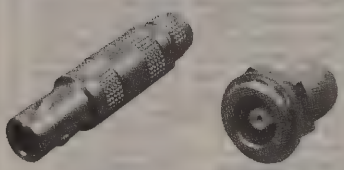
Range of compact 50-Ohm coaxial connectors for a wide variety of applications; formed the basis of the NIM-CAMAC CD/N 549 standard.

Specifications:

- 50-Ohm coaxial insert types
- RoHS compliant per LEMO documentation

Features:

- Small size and low weight allow high packing density
- Concentric insert types can be blindly inserted in any orientation and rotated into any direction for convenience



For quantities of 100 and up, call for quote.

SMPTE-SERIES CONNECTORS

LEMO developed the 3K.93C Series connectors in the early stages of the introduction on HDTV, becoming the standard for high-definition TV. It is one of the only connectors being used worldwide that complies fully with SMPTE standards for both signal and cable.

Features:

- Quick disconnect Push-Pull latching system
- Over 11 shells to meet various application needs
- RoHS compliant per LEMO documentation
- Stainless steel shell for rugged and harsh environments
- UL certified

For quantities of 5 and up, call for quote.

MOUSER STOCK NO.	LEMO Part No.	Description	Price Each
Male Solder			
736-FUW3K93CTLMC96	FUW.3K.93C.TLMC96	Straight cable mount plug, SMPTE, stainless shell for C96 collet	242.87
736-GMF3K085EANZ	GMF.3K.085.EANZ	Protective rubber boot for SMPTE cable mount plugs	69.22
736-PSSF2BB2LCE30	PSS.F2.BB2.LCE30	Female F2 fiber contact with 125um ferrule hole diameter, with crimp ferrule	58.67
Female Solder			
736-PUW3K93CTLCC96	PUW.3K.93C.TLCC96	Receptacle cable mount, SMPTE, stainless shell for C96 collet	223.31
736-GMP3K085EANZ	GMP.3K.085.EANZ	Protective rubber boot for SMPTE cable mount receptacles	69.22
736-FFSF2BB2LCE30	FFS.F2.BB2.LCE30	Male F2 fiber contact with 125um ferrule hole diameter, with crimp ferrule	45.98
SMPTE Tools			
736-DCC913125LA	DCC.91.312.5LA	Extractor for female F2 SMPTE 3K fiber contact	132.14
736-DPD990105K	DPD.99.010.5K	Hand crimp tool for use with SMPTE 3K shield termination for FUW and PUW	1280.23
736-DPC91101A	DPC.91.101.A	Hand crimp tool for use with SMPTE 3K 1.3mm positioners	409.85
736-DCE91133BVCW	DCG91133BVCW	Male and female positioner for SMPTE 3K 1.3mm crimp contacts	359.18

LEMO Push-Pull Connectors

RoHS Compliant **This page of product is compliant.**

4A-SERIES CONNECTORS

For video applications, LEMO offers a range of triaxial connectors especially designed for the connection of television cameras to control equipment. 4A Series is widely used by most manufacturers of professional video cameras. These connectors can either be used outdoors or indoors.

Specifications:

- IP Rating 61
- Impendence: 75 Ohms
- Operating Frequency: 2.5 GHz
- RoHS compliant per LEMO documentation

REDEL® SERIES - PLASTIC CONNECTORS

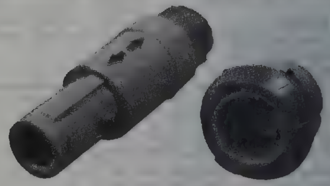
LEMO's line of REDEL® plastic connectors are considered the quality standard in the medical industry. This series is also ideally suited for aerospace, test & measurement, and research applications.

Specifications:

- Multi-contact types from 2 to 32 contacts
- IP Rating 61
- RoHS compliant per LEMO documentation

Features:

- Extensive steam or chemical sterilization with rugged PSU or PEI housing materials
- Multi-contact and hybrid inserts save space and connection time



REDEL® 1P Series

M12 SPEEDCON QUICKON-ONE PLUG CONNECTORS

Features:
- QUICKON-ONE design allows rapid connector termination
- No individual wire stripping is required
- IDC wire termination

Specifications:
- Current Rating: 4A
- Voltage Rating: 125V
- IP-Degree: IP65 & IP67
- Cable Diameter Range: 4 to 7.5mm

For quantities of 100 and up, call for quote.

SOURIAU Sealed Plastic Circular Connectors and Tooling

SOURIAU
Connection Technology

TRIM TRIO™ UTS SERIES WITH IP68/69K SEALING

Specifications:
- Connectors and Backshell Material: Thermoplastic
- ROHS Compliant per Souriau Documentation
- Operating temp: -40°C to +105°C
- Quick, secure, and reliable bayonet locking system
- UTS Connectors accept TRIM TRIO® size 16 or size 20 removable snap-lock contacts
- UV resistant - Suitable for outdoor use
- Contacts ordered separately

Cable Plugs with Backshell for Pin and Socket Contacts

For quantities of 100 and up, call for quote.

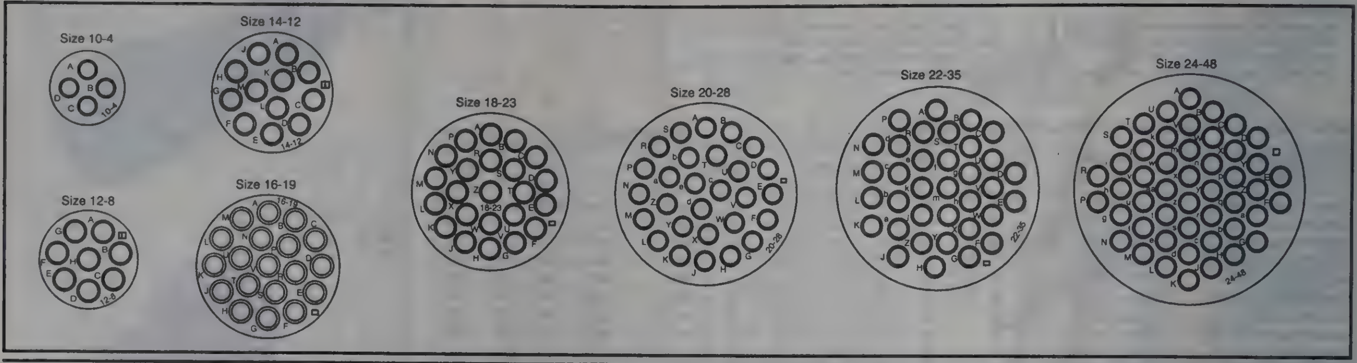
SOURIAU Plastic Circular Connectors

TRIM TRIO™ INSERT ARRANGEMENTS



TRIM TRIO™ UTG SERIES CIRCULAR CONNECTORS

Plastic Circular Trim Trio™ Connectors with Metal Coupling System
"UTG" Metalok Bantam plastic industrial circular connectors with metal coupling are a range of multiway connectors to provide the complete answer to the need for light weight, robust circular connectors.

Features:
- Accepts TRIM-TRIO removeable snap lock contacts; sold separately
- UL approved-file Nr.: E31151
- Metal bayonet ring:
  - Metal wave spring loaded
  - Locks with audible positive "click"
  - Assures 500 matings and unmatings
- Intermateable, interchangeable and intermountable with Trim Trio "UTO" and "UTP" industrial connector families

Materials:
- Body: Glass filled thermoplastic UL94V-0
- Color: Black
- Coupling Ring: Nickel plated brass
- Tri-locking pins: Stainless steel
- Coupling spring: Spring steel

Specifications:
- IP Degree: IP67
- Operating temperature: -55 ° C to +125 ° C
- Test potential: 2000 VAC
- Durability: 500 matings and unmatings

SOURIAU Mixed Power and Signal Circular Connectors

SOURIAU
Connection Technology

TRIM TRIO™ UTG POWER SERIES MIXED POWER AND SIGNAL CONNECTORS

Features:
- Identified grounding locations available
- Suitable for cable to box or cable to cable applications
- VDE versions available for high voltage

Specifications:
- Mixed power and signal version of the UTG series
- Current rating: up to 44 amp per contact
- Operating voltage: up to 600VDC
- Wire range: AWG 8-30

RoHS Compliant

TRIM TRIO™ INLINE SPLICES

RoHS Compliant

Specifications:
- Single position, quick disconnect system for individual wires
- Accomodates any size 16 Trim Trio™ contact
- Locks w/audible positive "click"
- Disconnect force: 3-11 lbs
- Coaxial cable types: RG161, RG179, RG187, RG174, RG188, RG178, RG196, RG188, RG178, and RG196
- Ideal for individual wire installation and repairs
- Especially suited for coaxial cable connections, eliminating bulky connectors while maintaining coaxial signal integrity

For quantities of 100 and up, call for quote.

SOURIAU Contacts and Tooling

SOURIAU
Connection Technology

TRIM TRIO™ SIZE 16 FORMED CONTACTS

Size 16 - 1.6mm (.063") diameter contacts are two piece formed crimp snap-in pin and sockets. Any TRIM TRIO™ contact can be used in any contact position in any connector in the TRIM TRIO™ interconnection system.

Features:

- Made from high conductive copper alloy with gold or tin over nickel plate finish
- Two piece construction with dual purpose spring which serves for contact retention and protects the body against damage
- Suitable for high volumes and lower installation cost

Specifications:

- Contact body: High conductive copper alloy
- Outer spring: Stainless steel
- Current rating: 13 A

Formed Pin Contacts

For quantities of 100 and up, call for quote.

TRIM TRIO™ SIZE 16 MACHINED CONTACTS

Features:

- Made from high conductive copper alloy with gold or tin over nickel plate finish
- Any TRIM TRIO™ contact can be used in any contact position in any connector in the TRIM TRIO™ interconnection system.
- Heat-treated beryllium copper locking springs assure proper locking and alignment of contacts in the housing
- Closed entry design on RC socket contact to prevent probe damage

Specifications:

- Contact body: High conductive copper alloy
- Outer spring: Tempered, heat-treated, beryllium copper
- Inner spring socket: Tempered, heat-treated, plated beryllium copper
- Current rating: 13A

TRIM TRIO™ SIZE 16 MONOCRIMP SUBMINIATURE COAXIAL CONTACTS

One Piece Contacts for Subminiature Coaxial Cables

Features:

- The monocrimp one-piece coaxial contacts offer reliability plus the economic advantage of a 95% reduction in installation time over conventional assembly methods.
- Any TRIM TRIO™ contact can be used in any contact position in any connector in the TRIM TRIO™ interconnection system.

Plating:

- Retaining spring plating: Nickel plated
- Inner and outer contacts: 0.75μ" Gold min. over Nickel

Materials:

- Inner and outer contacts: High conductive copper alloy
- Retaining spring: Beryllium copper
- Insulating bushing: Polyimide 6.6

Specifications:

- Operating temperature: -55°C + 125°C
- Isolation @ 30MHZ: 140db

For quantities of 100 and up, call for quote.

SOURIAU JBX Miniature Push/Pull Connectors

SOURIAU

JBX MINIATURE PUSH/PULL CONNECTORS

Designed to provide quick, reliable, high density interconnections of wire and cable.

Features:

- Mechanically keyed to ensure correct polarization and alignment
- High contact density in a small space
- Contact termination in crimp or solder contacts
- Removable contacts
- Fully compatible and intermateable with Lemo's B series

Specifications:

- Shell Material: Brass
- Socket Contact Material: Cupro-nickel
- Socket Plating Material: Gold
- Pin Contact Material: Brass
- Pin Plating Material: Gold
- Insulator Material: Fortron
- Shielded from 55dB up to 100 MHz
- Endurance: >1000 cycles per MIL-STD1344AD
- Temperature Range: -50°C; +125°C
- Protection Index: IP 40

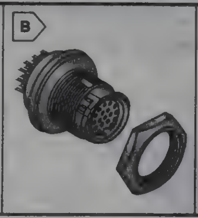
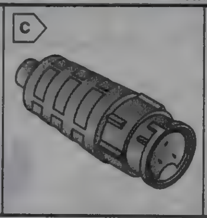
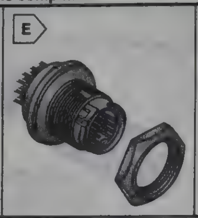
SWITCHCRAFT EN3™ Weathertight Series

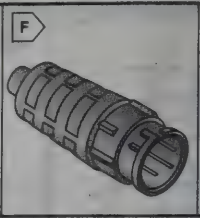
Switchcraft®

RoHS Compliant **This page of product is compliant.**





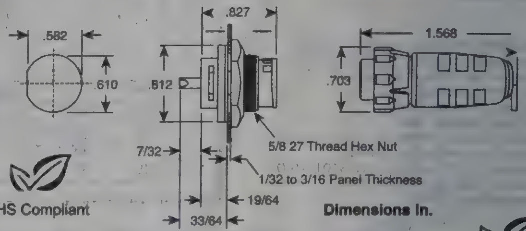




Specifications:

- Material:
  Panel connector shells and solder contact locking disk:
  Thermoplastic polymer glass fiber, flame retardant
  Connector shell interior: Thermoplastic rubber
  Contacts: Copper base alloy gold-plated over nickel underplate
- Mechanical:
  Shock: Mil-Std 202 Method 213B, condition K
  Vibration: Mil-Std 202 Method 201
  Life: 600 insertion/withdrawal cycles (minimum)
- Electrical:
  Voltage Rating (sea level): Tested at 600 VRMS
  Insulation Resistance: 100 megaohms (minimum) at 77° F
  Current rating: 13.0 Amps (#16 contact) 3 Pin
  7.5 Amps (#20 contact) 3 to 6 Pin
  6.5 Amps (#20 contact) 7 and 8 Pin
  3.0 Amps (#26 contact) 9 to 18 Pin
- Cable Diameter: .195" to .265"
- Environmental:
  Temperature Limits: -40°C to +65°C (non-operating)
  Moisture Resistance: Mil-Std 202 Method 106°F
  Insulation Resistance: Mil-Std 202 Method 302 condition B
  Thermal Shock: Mil-Std 202 Method 101D condition B
  Salt Spray: Mil-Std 202 Method 101D condition B
  Exceeds Coast Guard specifications for water tightness
  (CRF 46 Part 110.20)
- Ratings: IP16/IP18, IP66/IP68, NEMA 250 (6P)
  CFR 46 Part 110.20, UL 94V-O
- Termination: Solder cup
  9C-18C have staggered solder cups
  for easier soldering

RoHS Compliant



Dimensions In.

PROTECTIVE CAP

Covers the panel housing assembly when not in use.

RoHS Compliant

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.	Switchcraft Part No.	Fig.	Price Each			
			1	10	25	50
Cord Type						
502-EN3CAP	EN3CAP	D	1.08	.90	.82	.80

Features:

- Double-sealed for moisture & chemical resistance
- Integral O-ring and gasket is molded onto panel housing to prevent leakage and eliminate need for additional O-rings and gaskets
- Panel Connector shell has a positioning keyway to prevent misalignments and a polarizing single "D" design for proper panel mounting and prevents rotational movement
- Abrasion-resistant thermoplastic boot provides strain relief and accepts cable diameter .195" to .265".
- RoHS compliance per Switchcraft documentation

Applications:

- Process Control
- Marine Electronics
- Medical Instrumentation
- Geothermal Instrumentation
- Communication
- General Industrial Electronics

Gore-Shield® Die Cut Connector Gaskets

RoHS Compliant **This page of product is compliant.**

GORE
Creative Technologies Worldwide

DIE CUT CONNECTOR GASKETS

Features:
- Gore-Shield Gaskets replace non-conductive rubber seals.
- Excellent EMI Seal between Connector Flange and Mounting Panel.
- Standard Thickness is .508mm (0.02").
- Available in 2 Grades - GS500 for commercial applications and
- GS2100 for military/aerospace applications.
- Both Grades meet UL94 V-0.
- Conformable gaskets are silicone free.

RoHS Compliant

7E50 SERIES COMPACTFLASH™ TYPE II CARD HEADERS - SURFACE MOUNT

NEW FROM SUPPLIER

Features:

- RoHS Compliant per 3M documentation
- Mate with CompactFlash™ Type I and Type II cards
- Meets CFA standards for known compatibility and reliability
- Extended guide rails enable accurate and easy card insertion
- Guide rail ESD clip contacts board ground pads
- Single row surface mount solder tails facilitate auto placement and IR soldering
- Insulation Material: High Temperature Thermoplastic
- Flammability: UL94V-0
- Contact Material: Copper Alloy
- Current Rating: 0.5 A
- Insulation Resistance: 10^3 MΩ min. at 500 VDC
- Withstanding Voltage: 500 VAC for 1 minute
- Temperature Rating: -40°C to +85°C
- Process Rating: Maximum 260°C (per J-STD-020C)

RoHS Compliant

For quantities of 100 and up, call for quote.

SD™ AND MICROSD™ CONNECTORS

NEW FROM SUPPLIER

Features:

- Low Profile
- Smooth push-push eject mechanism
- Card Polarization
- Card detect indicator
- Metal-shielded cover

Specifications:

- High Temperature Thermoplastic
- Flammability: UL 94V-0
- Contact Material: Copper Alloy
- Current Rating: 0.5A
- RoHS compliant per 3M documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

2MM METPAK™ CP2 PRESS-FIT HEADERS AND SOCKETS

Specifications:

- Designed according to IEC 61076-4-101 and IEC 917 standards
- Meets CompactPCI application requirements
- "Eye of the needle" compliant pen press-fit design
- Insulation material: Glass Filled Polyester (PBT)
- Current rating: 1A at +70°C
- Temperature rating: -55°C to +125°C
- Contact material: Copper alloy
- Plating: 30µ" Gold

CP2 Series

For quantities of 100 and up, call for quote.

3M™ Card Edge and DIN Connectors

.100" PAK 100 CARD EDGE CONNECTORS

- Reinforced card-edge resists mouth bowing for consistent contact performance
- Metal cover clips provide superior cover retention
- Bifurcated contacts provide reliable contact with PC boards
- Insulation Material: Glass filled polyester (PBT)
- Flammability: UL 94V-0
- Color: Gray
- Contact Material: Copper alloy
- Contact Plating: 30μ" Gold, Type II, Grade C
- Wire Accommodation: 26 and 28 AWG solid or stranded
- Cable Conductor Pitch: .050" (1.27mm)
- Current Rating: 1 A
- Insulation Resistance: >1 x 10^9 at 500 VDC
- Withstanding Voltage: 1000 Vrms at sea level
- Temperature Rating: -55°C to +105°C
- RoHS compliant per 3M documentation

RoHS Compliant

For quantities of 200 and up, call for quote.

MEMORY CONNECTORS

- Insulator Material: PBT or LCP, glass reinforced UL94V-0
- Contacts: Phosphor Bronze
- Frame/Shield Material: Brass, nickel plated
- Operating Temperature: -20°C to +85°C
- Operation Voltage: 250VAC max.
- Current Rating: 0.5 and 1 Amps max.
- Insulation Resistance: 40 mΩ max. initial
- Dielectric Withstanding Voltage: 1000VAC for 1 minute

RoHS Compliant

Secure Digital Connectors

ALPS miniSD™ CARD CONNECTORS AND ADAPTER

Features:
- The miniSD™ Saves 40% of pcb area and 60% of volume required by SD cards
- Highly shock-resistant robust guard lock.
- Adapter has metal frame within plastic body
- Internal media detection switch
- Half-lock structure keeps media from popping out on ejection
- Adapter allows a miniSD™ card to be used in an SD connector

Specifications:
- Mating/unmating cycles: 10,000 cycles
- Operating temperature range: Connector: -25 to +70°C
- Adapter: -25 to 85°C
- Connector has push-push type media ejection
- Adapter has header type media ejection
- Both connector and adapter are supplied in bulk
- Connector is also available on tape and reel.

Applications:
- Mobile Phones
- Digital Cameras
- PDA's
- Personal Computers

RoHS Compliant

- miniSD is a trademark of San Disk

For quantities of 500 and up, call for quote.

ALPS SD MEMORY / MULTI-MEDIA CARD CONNECTORS

Features:
- Compact style and low profile
- Surface mount type
- Push-push type media ejection
- Standard/reverse mount

Specifications:
- Operating temperature range: -25°C to +60°C
- Withstanding voltage: 500VAC
- Insulation resistance: 1000 MW minimum
- Contact resistance: 100 mW maximum
- Mating/Unmating cycles: 10,000 cycles

Applications:
- Cellular Phones
- Digital Cameras
- PDA's
- Personal Computers
- Home audio/ video equipment

RoHS Compliant

For quantities of 500 and up, call for quote.

ALPS MEMORY STICK CARD CONNECTORS

Features:
- Long (10mm) stroke and clearly defined click for positive card insertion
- Increased reliability with anti-ESD construction.
- 4 solder lug terminals are a part of the enclosure for secure mounting to the PC board.

Specifications:
- Operating temperature range: -20°C to +60°C
- Withstanding voltage: 500VAC
- Insulation resistance: 1000 MW minimum
- Push-push media ejection
- Mating/Unmating cycles: 12,000 cycles
- Bulk packaging

Applications:
- Notebook PCs
- Desktop PCs
- PDA's
- Home audio/ video equipment

RoHS Compliant

- Memory Stick is a trademark of Sony

For quantities of 500 and up, call for quote.

ALPS Memory Card and Camera Module Connectors

ALPS

DIMENSIONS: mm

RoHS Compliant This page of product is compliant.

ALPS RS-MMC PUSH-PUSH TYPE CONNECTORS

Features:
- Offers one of the smallest mounting areas and one of the longest media ejection distances (4mm) in the industry
- High impact resistance
- Relow solderable

Specifications:
- Operating temperature: -25°C-+80°C
- Withstand voltage: 500VAC/1 min.
- Insulation resistance: 1000 MΩ
- Mating/Unmating cycles: 10,000 cycles

Applications:
- PDAs
- Digital Cameras
- Cellular Phones

RoHS Compliant

MMC is a registered trademark of Infineon Technology AG, and is licensed to the MMCA

For quantities of 200 and up, call for quote.

ALPS MEMORY STICK DUO™ CARD CONNECTORS

Features:
- Long (6mm) stroke and clearly defined click for positive card insertion.
- 10 Newton lock strength
- Push-push media ejection

Specifications:
- Operating temperaturerange: -20°C to +60°C
- Withstanding voltage: 500VAC
- Insulation resistance: 1000 MW minimum
- Mating/Unmating cycles: 12,000 cycles
- Contact resistance: 40 mW maximum

Applications:
- Cellular Phones
- Personal Computers
- Digital Cameras
- PDA's
- Home audio/video equipment

RoHS Compliant

ALPS COMPACTFLASH® CARD CONNECTORS

RoHS Compliant

The pin headers and the ejectors are supplied as separate parts.
When using them, solder a pin header to a printed circuit board, assemble an ejector to the pin header and screw in.

Features:
- Industry's smallest CF card connector with ultra-slim depth
- Eject mechanism
- High mounting strength realized by screwing connector directly to pc board
- Metal-plated structure enhances mechanical strength and noise-proof properties

Specifications:
- 0mm Stand-off
- Position of lever: 1-step type is on left, 2-step type is on right
- Pin pitch: 1.27mm
- Insulation resistance: 1000 MΩ minimum
- Mating/Unmating cycles: 10,000 cycles

Applications:
- Cellular Phones
- Personal Computers
- Digital Cameras
- PDAs
- Home audio/video equipment

CompactFlash is a registered trademark of SanDisk

AMP PCI, PCI Express, and Mictor Connectors

RoHS Compliant **This page of product is compliant.**

PCI STANDARD EDGE

Features:
- High density .050 [1.27] centerline contact spacing
- Easy mating of high circuit count daughter boards
- Polarizing web for positive board-to-connector registration
- Contact Finish: 30 μ" Gold
- RoHS Compliant per Tyco Electronics documentation

Specifications:
- Current Ratings: 1A
- Voltage Rating: 203 VAC
- Durability: 100 Cycles
- Operating Temperature: -55°C to 85°C

RoHS Compliant

For quantities of 200 and up, call for quote.

PCI EXPRESS

Features:
- Different tail (post) length (2.3mm or 3.10mm) available to support differing motherboard thickness.
- Tails are offset to form 4 rows on a 2.00mm pitch, thus making wave soldering easier.
- All connectors come with locating bosses to help align the connector to PCB (motherboard).
- Molded polarization key prevents improper insertion of the PCB.
- Connectors have slots to accept "add in" cards with thickness of 1.58mm (0.062in).
- Conforms to PCI Express specification on connectors.
- Contact Finish: 30 μ" Gold
- RoHS Compliant per Tyco Electronics documentation

Specifications:
- Current Rating: 1.1A
- Voltage Rating: 50 VAC
- Durability: 50 cycles
- Operating Temperature: -40°C to +85°C

RoHS Compliant

V-Type

MICTOR CONNECTORS

Features:
- Infrared and forced air convection compatible housing materials
- Designed for 50Ω systems
- Connector housings polarized for correct mating
- Built-in connector-to-board retention feature
- RoHS Compliant per Tyco Electronics documentation

Specifications:
- Material Housing: Liquid Crystal Polymer, black
- Contacts: High Reliability Copper Alloy
- Voltage: 30 VAC
- Operating Temperature: -55°C to +125°C

RoHS Compliant

For quantities of 50 and up, call for quote.

AMP PICMG® Standard Connectors

Tyco Electronics supports AdvancedTCA (ATCA), AdvancedMC (AMC) and MicroTCA (μTCA) PICMG® standards with a full complement of products to meet the wide array of applications and markets where these standard configurations will be used. These products include both the fully compliant interconnects that are specified in the PICMG® standards, as well as additional connectors that product designers need to customize their solutions for their specific markets.

ADVANCED TCA

RoHS Compliant

Zone 1 Power Connector

- High conductivity, precision formed contacts
- Qualified to meet PICMG 3.0, R2.0 specification
- Precision formed compliant terminations offer excellent retention to provide a reliable connection

For quantities of 50 and up, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each

1.0MM FREE HEIGHT FOR IEEE-1386

- For board stacking applications
- Meets EIA-700 AAAB specifications for IEEE 1386 applications
- High density packaging on 1.0 (.039) centerline spacing

For quantities of 200 and up, call for quote.

.5MM FREE HEIGHT FOR COM EXPRESS

- Parallel board to stacking for applications that require high density
- Specified by the PICMG COM Express standard
- Bridged connectors - Two connectors held together with a carrier

For quantities of 50 and up, call for quote.

AMP Eurocard Connectors incorporate internationally accepted design advantages of DIN 41612 and IEC 603-2 two-piece connectors with the universally known quality, service and delivery of AMP products. The Eurocard Connectors meet DIN 41612 and IEC 603-2 specifications.

EUROCARD RECEPTACLE ASSEMBLIES

Specifications:

- Housing: Polyester, Grey, 94V-0 rated
- Contacts: Phosphor bronze
- Plating: Gold flash over .000030 Palladium/Nickel in mating area, Tin Lead on tails, all over .000050 Nickel.

E28476 LR 7189

For quantities of 200 and up, call for quote.

AMP PC/104 and PC/104-*Plus* Connectors

PC/104, PRESS-FIT

Specifications:

- Housing: High temperature, glass filled nylon, black
- Screwlocks: Steel, clear chromate over zinc
- Contacts: Phosphor Bronze, 0.000381 (0.000015) min. gold on mating receptacle end, 0.000130 (0.000005) min. gold on remainder, all over 0.001270 (0.00005) nickel (stack-through), 0.000381 (0.000015) min. gold on mating receptacle end, 0.00254 (0.0001) bright tin-lead on remainder, all over 0.001270 (0.00005) nickel (non-stackthrough).

Features:

- Press -Fit design
- Flat-Rock insertable
- Unitized PC/104 connector assembly
- Integral board spacers with captive hardware
- Fully compliant for PC/104 & PC/104-*Plus* standards
- Compact form-factor 3.6 inches
- Unique self-stacking bus

Benefits:

- Eliminates hand soldering
- Eliminates two piece (60 & 40 pin) configuration
- Eases and improves assembly efficiency while minimizing stocked hardware

For quantities of 100 and up, call for quote.

PC/104-*PLUS*, PRESS-FIT

Specifications:

- Housing: High temperature, glass filled nylon, black
- Contacts: Phosphor Bronze, 0.000381 (0.000015) min. gold on mating receptacle end, 0.000130 (0.000005) min. gold on remainder, all over 0.001270 (0.00005) nickel (stack-through), 0.000381 (0.000015) min. gold on mating receptacle end, 0.00254 (0.0001) bright tin-lead on remainder, all over 0.001270 (0.00005) nickel (non-stackthrough).
- Screwlocks: Steel, clear chromate over zinc

Features:

- Use of high speed PCI bus in embedded applications
- Press-Fit design
- Integral board spacers with captive hardware

Benefits:

- Fast data transfer over a PCI bus
- Low cost due to PC/104's unique self-stacking bus
- High reliability due to PC/104's inherent ruggedness
- Eliminates hand soldering
- Eases and improves assembly efficiency while minimizing stocked hardware

For quantities of 100 and up, call for quote.

AMP Z-Pack Connectors

Z-PACK 2MM FB (FUTUREBUS+) CONNECTORS

- High density connections: 4 row, 2mm x 2mm circuit grid
- Compatible to IEC67076-4-0X(48B) and EIA SP3179
- Current Rating: Signal Contacts: 1A, Power Contacts: 4.6A
- Bellcore approved
- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

For quantities of 200 and up, call for quote.

Z-PACK 2MM HM CONNECTORS FOR COMPACT PCI

- High density system with small real estate on backplane and daughter card
- In accordance with IEC 917 and IEC 61076-4-101
- Universal Power Module rated at 7.8A/line, 23.4A fully energized
- Signal Contact Rating: 1.5A fully energized
- 5 + 2 Row Configuration
- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

For quantities of 200 and up, call for quote.

Z-PACK HM-ZD

- Designed for high speed differential applications
- Modular connector system with a standard module size of 25mm
- 4 signal contact pairs per column compatible with 8 row HM
- Contact pitch is 1.55mm within a pair; 3.0mm pair to pair
- Column to column pitch is 2.5mm
- Card pitch is 1.0" for 40 pair headers
- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

For quantities of 50 and up, call for quote.

AMPHENOL Smart Card Connectors

RoHS Compliant **This page of product is compliant.**

SIMLOCK®

The SIMLOCK® acceptor is designed to accept the GSM 11.11 miniature SIM (Security Identity Module). The standard is also popular for use as a SAM (Security Access Module) in EFT applications. The designer does not have to be concerned with housing tolerances and card guiding due to a self contained system.

Features:
- Reliable function in locked state during mobile use
- Polarization
- Card presence switch available
- Surface Mount Type
- Tape and Reel
- Contact position meets ISO 7816 and/or GSM 11.11
- Suitable for automatic assembly processes (Pick & Place, Tape & Reel, Reflow)

Specifications:
- Color: Black
- Housing: UL94V-0
- Number of Contacts: 6 (3+3)
- Contact Plating: Gold over Nickel
- Operating Temperature: -40°C to +85°C
- Soldering Conditions: Infrared reflow- 245°C, 10 s max

RoHS Compliant

For quantities of 200 and up, call for quote.

MOUSER STOCK NO.	Amphenol Part No.	Fig.	Description	Price Each

SIMBLOCK®

The SIMBLOCK® is an SMT contact block that can be used in applications where space is at a premium, making it suitable for mobile applications from handsets to e-purses

Features:
- Small footprint
- Multidirectional card insertion
- Secure contacts
- Surface Mount Type
- Pick and Place area
- Contact position meets ISO 7816 and/or GSM 11.11

Specifications:
- Color: Black
- Housing: UL94V-0
- Contact Plating: Gold over Nickel
- Operating Temperature: -40°C to +85°C
- Soldering Conditions: Infrared reflow- 245°C, 10 s max

RoHS Compliant

For quantities of 200 and up, call for quote.

MOUSER STOCK NO.	Amphenol Part No.	Fig.	Description	Price Each

HYBRID READER

The manual Hybrid Reader accepts both ISO 7810 magstripe cards and ISO 7816 chip cards in the same slot. Push-pull card handling allows reading of the magnetic stripe on the way in or out, and reading/writing of the chip card when card is fully inserted.

Features:
- Tracks: 1+2+3
- Magnetic head on bottom
- Dual head chip reader
- Decoder circuit for each track

RoHS Compliant

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.	Amphenol Part No.	Fig.	Description	Price Each		
				1	25	50
523-C70310M0086095	C703 10M008 609 5	G	Standard print, low profile	32.20	29.72	27.60

SUPERFLAT STYLE

The Superflat style connector which is extremely low profile and compact, having an average insertion cycle life of 200k+ cycles with some applications achieving 500k insertions cycles. The acceptor features a flex film I/O, and a normally open card presence switch (closes upon card insertion). These connectors are common in piont of sale systems, mobile devices, access control and keyboards.

Features:
- Contact position meets ISO 7816
- Versions according to EMV
- Panel mount
- Card presence switch- Normally open

Specifications:
- Color: Ivory
- Contact Plating: Tin bronze with selective gold
- Operating Temperature: -25°C to +65°C

RoHS Compliant

For quantities of 200 and up, call for quote.

MONOBLOCK PCB

The monoblock is a single molded part and is one of the most diverse around. It is widely used in applications requiring tracking and authentication like satellite TV receivers, access control to computer main frames and many medical devices.

Features:
- Low cost
- Contact position meets ISO 7810, 7816
- Card presence switch- Normally closed

Specifications:
- PCB mounting type
- PCB Thickness: 1.40mm - 1.68mm

RoHS Compliant

For quantities of 200 and up, call for quote.

AVX PCI Express, 2mm Hard Metric & DIN 41612 Connectors

A KYOCERA GROUP COMPANY

RoHS Compliant **This page of product is compliant.**

PCI EXPRESS

Features:
- Tails are offset to form 4 rows on a 2.00mm pitch, thus making wave soldering easier
- Connectors come with locating bosses to help align the connector to PCB (motherboard)
- Raised ridge at the topside of the connector, which can be used to lock/retain graphic card
- Molded polarization key prevents improper insertion of PBC
- Connectors have slots to accept "add in" cards with thickness of 1.58mm (0.062")
- RoHS compliant per AVX documentation.

Specifications:
- Contact Rating: 1.1A max.
- Contact Resistance: 30 mΩ max.
- Contact Material: Phosphor Bronze
- Insulator Material: 30% Glass Filled Nylon
- Insulation Resistance: 100 MΩ 50, 50V AC

- Lead Free

RoHS Compliant

For quantities of 100 and up, call for quote.

2MM HARD METRIC CONNECTORS

Features:
- Current Rating: 1.0A
- Voltage Rating: 250V max.
- Dielectric Withstanding Voltage: 750VAC rms/min.
- Operating Temperature: -55°C to +125°C
- Contact Material: Phosphor bronze
- Insulator Material: PBT 30% Glass filled, UL94V-0 rated
- Coding Key: Glass filled polyester, UL94V-0 rated
- RoHS Compliant per AVX documentation.

RoHS Compliant

DIN 41612 CONNECTORS

Features:
- Basic Grid: 0.100 (2.54) x 0.100 (2.54) – 0.100 (2.54) x 0.200 (5.08)
- Current Rating: 3A @ 20°max. on connectors up to 96 contacts, per UL approval, over 96 contacts must be derated to 1.0A max. VDE, CSA, and other European standards.
- Insulation Resistance: 5000 MΩ min. @ 500 VDC
- RoHS compliant per AVX documentation.

VARIPIN™ - Press fit contact guarantees equal force over entire contact length. The design prevents "eye of the needle" cracking/damage to PCB board.
- Application for PC board thickness ≥ 1.6mm
- 100% press-fit shank

High Temperature Termination: • Molded in SMC polymers • Suitable for infrared/reflow/vapor phase soldering processes up to 250°C

RoHS Compliant

* With keying system

For quantities of 50 and up, call for quote.

EDAC Card Edge Connectors

CARD EDGE CONNECTORS

DIMENSIONS: In. (mm)

Solder Tail

Specifications:
- Insulator Material: Thermoplastic Polyester, UL 94V-O
- Contact Material: Copper, Nickel, Tin Alloy CA-725 or Phosphor Bronze Alloy CA-510
- Contact Plating: Gold on mating area, tin-lead on contact tails, nickel underplate.
- Colors: Series 305, 306, 341, and 346 are green. Series 357 and 395 are black.
- Insulation Resistance: 5000MΩ @ 500 VDC
- Dielectric Withstanding Voltage: 1500 VAC RMS @ sea level
- Current Rating: 3A
- Contact Resistance: 6mΩ max.

RACK AND PANEL CONNECTORS

Features:
- RoHS compliant per EDAC documentation
- UL Recognized
- Plug and Receptacle in 20, 38, 56, 90 and 120 contact sizes
- Highly reliable Edacon Hermaphroditic Contact Design with four contact mating surfaces
- Contact termination options include: Crimp, P.C. Tail, Wire Hole, and Wire Wrap
- Mating and unmating simplified with actuating screws
- Optional metal covers with side entry available for all connector sizes
- Versatile metal cover design permits assembly or disassembly after cabling is complete plus cable entry style flexibility.

Specifications:
- Insulator Material: Series 100 and 200: Green Diallyl Phthalate
  Series 300 and 400: Gray Polycarbonate
- Contact Material: Phosphor Bronze Alloy CA-510
- Contact Plating: Gold over Nickel
- Cover Material: Die-cast Zinc, finished with gray enamel paint
- Current Rating: 8.5 Amps
- Contact Resistance: 10mΩ maximum
- Dielectric Withstanding Voltage: 2000VAC rms at sea level
- Insulation Resistance: 5000MΩ minimum
- Operating Temperature: -65 to +125 degrees C
- Insertion and Withdrawal Force: 2 to 16 oz.(0.56 to 4.45 N) per contact pos.

MEMORY SOCKETS FOR DDR2 MEMORY MODULES

Vertical sockets accept DDR2 (Double Data Rate 2) memory module assemblies per JEDEC MO-237 to allow convenient memory expansion in desktop PC's, servers, and communication equipment.

Features:

- 240 Positions
- Centerline Spacing: 1.00mm (0.039 in.)
- Orientation: Vertical
- Voltage: 1.8V
- RoHS Compliant per FCI documentation

Specifications:

- Plating:
  Contact: 15µ" Gold
  Soldertail: 100µ" Tin
  Underplate: 50µ" Nickel
- Housing Material: Thermoplastic (UL94 V-0)
- Contact Base Metal: Copper Alloy
- Current Rating: 0.5 Amps @ 30°C rise
- Durability (Mating Cycles): 25 Mating cycles per EIA 364

RoHS Compliant

For quantities of 100 and up, call for quote.

AIRMAX VS® (VIRTUAL SHIELDS) HIGH-SPEED BACKPLANE CONNECTOR SYSTEM

High-speed backplane connector system demonstrated to support differential signaling for data rates up to 25 Gb/s. Connector contacts can be allocated to Differential Pair Signals, Single Ended Signals, or Power. The connector's shieldless design provides options for wider column spacing to permit more traces to be routed on a single board layer to help reduce PCB layer count and cost.

Specifications:

- Termination Style: Press-fit
- Contact Base Material: Copper alloy
- Contact Plating: Au over Ni
- Housing Material: Hi-temp thermo plastic
- RoHS Compliant per FCI documentation
- Tail Plating:
  1: SnPb over Ni
  2: Sn over Ni

RoHS Compliant

For quantities of 100 and up, call for quote.

AIRMAX VS® (VIRTUAL SHIELDS) POWER HIGH-SPEED BACKPLANE CONNECTOR SYSTEM

These compact high-power connectors complement the AirMax VS® high-speed signal connector offering. Contacts are flat except for minimal forming at the plug contact's mating interfaces, which enables the use of high conductivity base metal. The unique insulator design includes openings to help air flow around the contacts to improve heat dissipation. These design features contribute to the connectors' higher current-carrying cabacity.

For quantities of 100 and up, call for quote.

METRAL® 2.00MM MODULAR INTERCONNECT SYSTEM

Mix low and high speed signal modules. Mix signal and power modules. Designed in accordance with IEC 61076-4-104. Contact plating meets Telcordia Central office.

Specifications:

- Contact plating: 30µ" gold
- Tail plating: .80µm (30 pin) gold, IEC class 2 gold
- Housing material: Glass-filled LCP
- Temperature: 55°C to +105°C
- Insulation resistance: 1000MΩ
- Current rating: 1.0A
- Tail length: Header 4.30mm (.169")

RoHS Compliant

POWER CARD EDGE

RoHS Compliant

The Power Card Edge connector is a connector system that can be used for DC power output from embedded AC/DC power suppliers or for power distribution between boards within an enclosure. The connectors' low profiles are ideal for use in enterprise date or communication equipment.

Features:
- One piece card edge design provides cost-effective power delivery with capacity for up to 7A per power contact
- Low-profile design helps maximize airflow for system cooling
- Integrated connector design simplifies board assembly
- RoHS Compliant per FCI documentation

Specifications:
- Housing: High temperature thermoplastic UL-94 V-0
- Color: Black
- Current Rating: 7A
- Insulation Resistance: 5000MΩ min. for Power contact
- Withstanding voltage: 1000 V/RMS 60hz for Power contact

For quantities of 200 and up, call for quote.

MICROTCA™ CARD EDGE CONNECTORS

RoHS Compliant

MicroTCA™ (μTCA™) vertical card edge connectors provide 170 contacts on .75mm pitch and enable AdvancedMC™ (AMC™) modules to be plugged directly to a backplane. FCI connectors are in full compliance with the MicroTCA standard. The MicroTCA standard, developed within PICMG®, creates a physically small but very powerful system in 4U height and 300mm depth. The MicroTCA system architecture reduces size and cost by eliminating the ATCA® carrier board and providing a chassis that accepts AMC™ modules directly. MicroTCA shelves will also support hot-plugable modules, which will increase availability by allowing individual modules to be serviced or upgraded without taking the shelf offline. The MicroTCA form factor is expected to be ideal for communications equipment, such as core routers and IP-gateways, radio base stations and switching centers and customer premises equipment, where small physical size and cost are key design constraints.

Features:
- 170 position card edge interface with 0.75mm contact pitch
- Very low loss and crosstalk for low-voltage differential signaling at data rates up to 12.5 Gb/s per lane
- RoHS Compliant per FCI documentation

Specifications:
- Housing: High temperatures thermoplastic, UL94V-0
- Contact base metal: Copper Alloy
- Current rating: 1.0A/contact maximum
- Insertions loss: >-1dB at 6 GHz
- Return loss: <-20 dB at 5 GHz
- Durability rating: 200 cycles minimum

For quantities of 200 and up, call for quote.

PWRBLADE® CONNECTORS

RoHS Compliant

The PwrBlade® power distribution connector system includes power and signal contacts to provide power distribution and power control in a single connector. Options for either vertical or right angle versions of both headers and corresponding receptacles deliver support for coplanar, backplane or mezzanine connections. The connectors are ideal for robust power connections to embedded AC/DC power suppliers of for board-to-board connections in servers, storage enclosures and communications equipment.

Features:
- Provides contacts for power distributions and power control
- Rugged blind-mate design
- Capability for up to 20 power contacts and 148 signal contacts in up to 8 inches
- Options for solder or press-fit termination
- Board retention devices provided to secure connectors during processing
- RoHS Compliant per FCI documentation

Specifications:
- Housing: Glass-filled high termperature nylons
- Color: Black
- Power contacts: Power contacts are copper based alloy
- Signal pins: Phosphor bronze
- Signal contacts: Copper based alloy
- Insulation Resistance:
  Power contact: 10,000MΩ
  Signal contacts: 500MΩ
- Withstanding voltage:
  Power contact: 2500 volts DC
  Signal contacts 10000 volts DC

For quantities of 200 and up, call for quote.

PCI Express™, DIN and Card Edge Connectors

FCI PCI EXPRESS™ 1.00MM PITCH VERTICAL CARD EDGE CONNECTORS

RoHS Compliant

Series 10018783 suitable for reflow soldering
For applications in desktops and servers using PCI Express™ technology.

PCI Express™ is a trademark of PCI-SIG.

Specifications:
- Housing Color & Material: Black, high temperature nylon, glass-filled, UL94V-0
- Contact Material: Copper alloy
- Insulation Resistance: 1000MΩ
- Temperature Range: -40°C to +85°C
- RoHS Compliant per FCI documentation

Features:
- Used to enable the implementation of high-speed, serial PCI Express™ architecture
- Each serial link supports 2.5 Gps (per direction)
- Through-mount tail length options for use on 1.58mm (.062") or 2.36mm (.093") thick motherboards

Through Hole Solder

For quantities of 200 and up, call for quote.

HARTING DIN 41612 Connectors

DIN 41612 SIGNAL CONNECTORS - 2 AMP

- IEC 60 630-2
- Pitch: 2.54 mm
- Current rating: 2 A
- 1A for Insulation Displacement version
- 40A Contacts in Type M version
- Contact Plating: Performance Level 2 plating (acc to DIN41612, part 5)
- UL and CSA Approved
- Contact resistance: 15 mø for wire wrap connections 20 mø for including crimp connections

- Temperature Range: -55°C - +125°C
- Termination zone tinned
- Moldings: Thermoplastic resin, glass fiber filled - UL 94V-0
- Contacts: Copper Alloy

2 Row Type B

For quantities of 50 or more, call for quote.

HARTING har-bus® 64 and 2mm Hard Metric Connectors

HAR-BUS® 64 VME64X EXTENSIONS CONNECTOR SYSTEM

- IEC 61 076-4-113
- 100% Backward Compatible to 3 Row 96 pin DIN 41612 Connectors
- Male Pre-leading contacts at positions d1, d2, d31, and d32
- Current rating: 1 A (at 70°C and all contacts loaded)
- Contact Plating: Performance Level 2 plating (acc to DIN41612, part 5)
- Pitch: 2.54 mm
- Temperature Range: -55°C to +125°C
- Contact Resistance: Rows a, b, c: ≤ 20 mΩ
  Rows z, d: ≤ 30mΩ
- Moldings: Male connectors LCP
- Female connectors UL94V-0
- Contacts: Copper Alloy
- UL Approved

The I-Trac™ Backplane Connector System from Molex Incorporated features a broadside-coupled, skew equalized design capable of data rates of 12 Gbps. With it's multiple benefits, including superior impedance control, lower cross-talk and higher overall bandwidth designed for both traditional and orthogonal architectures, I-Trac meets the growing demands of the next generation telecommunications and data networking equipment manufactures. The I-Trac connector system is currently available from Molex in 7, 11 and 15-row versions, with a complete breadth of guidance and power options. Call Mouser Sales for additional info on the 7 and 15 row versions.

I-TRAC™ BACKPLANE HEADERS

Specifications:
- Housing Material: Liquid Crystal Polymer (LCP) Glass-filled, UL94V-0
- Terminals: High Performance Copper Alloy
- Dielectric Withstanding Voltage: 750 Volts RMS
- Current and Temperature Rating:
- Signal Contact: 1 Amp per contact
- Maximum Operating Temperature: 105°C

For quantities of 250 and up, call for quote.

Right Angle Receptacles

Features:

- Tulip-shaped dual-beam contact provides high normal force and low insertion force.
- Press-fit PCB retention pegs
- Polarizing key posts and guide walls
- Voltage: 100V
- Current: 1.0A
- Dielectric Withstanding Voltage: 750VAC
- Insulation Resistance: 1000 MΩ min.
- Housing: Glass-filled LCP, UL94V-0
- Contact: Phosphor Bronze
- Operating Temperature: -55°C to +125°C
- RoHS Compliant per Molex documentation.

For quantities of 250 and up, call for quote.

MZP™ SERIES 2MM HARD METRIC CONNECTORS

Features:

- M style press-fit pin contact design creates four points of contact for a gas-tight connection
- Voltage: 500V
- Current: 1.0A
- Dielectric Withstanding Voltage: 750VAC
- Insulation Resistance: 10000 MΩ min.
- Receptacle Housing: Glass-filled LCP, UL94V-0
- Header Housing: Gray Glass-filled PBT, UL94V-0
- Contact: Phosphor Bronze
- Operating Temperature: -55°C to +125°C

Right Angle Receptacles With Upper Shield

✱ Upper Shield for Grounding.

COMPACTFLASH™ CARD CONNECTORS

Features:
- Dual-row 1.27mm (.050") pitch at card interface and 0.635mm (.025") pitch in-line SMT tails
- Integral Gold-plated frame grounds and solder tabs
- High temperature housing suitable for reflow soldering
- In-line SMT tails protect against damage during assembly

Ejector Features:
- Modular design snaps easily onto header
- Low-profile design
- Can be used with both top and bottom mount headers
- Lever design provides for smooth card extraction

Specifications:
- Voltage: 100V
- Current: 0.5A
- Contact Resistance: 40mΩ max.
- Dielectric Withstanding Voltage: 500V AC/1 min.
- Insulation Resistance: 1000 MΩ min.

Ejector Specifications:
- Metal Shell: Stainless Steel
- Button: Black glass-filled PBT, UL 94V-0
- Lever: Stainless Steel

RoHS Compliant

For quantities of 100 and up, call for quote.

TRANSFLASH MEMORY CARD CONNECTORS

TransFlash is the world's smallest memory card storage system. Offering over 70% volume savings versus miniSD, TransFlash provides ultimate space savings and up to 256MB of removable memory storage for cellphones and other mobile devices. Molex offers two types of TransFlash connectors. The hinged version is used like SIM card systems for one-time installation. There is also a push-push design for card removal options. Both versions are shielded and include solder tabs for ESD protection.

Features:
- Ultra small size for space savings
- Hinge and push-push types
- Metal shielding with shell tabs offer ESD protection and grounding support
- Gold-plated beveled contacts secure electrical contact
- Wide open area on shells accomadate pick-and-place
- Solder tails on inside of design offer space savings

Specifications:
- 1.10mm (.043") Pitch
- Current: 0.5A
- Withstanding Voltage: 500V AC
- Insulation Resistance: 1000Mø min.
- Plating: Gold (Au) over Nickel (Ni)
- Temperature Range: -25°C to +85°C

RoHS Compliant

For quantities of 100 and up, call for quote.

PCI EXPRESS® CARD EDGE CONNECTORS

Features:
- Complies with the PCI SIG spec
- Supports 2.5Gbps data transfer rate
- Scalable modular design
- Enables hot plug and hot swap
- Lead Free
- Top Entry

Specifications:
- Housing Material: Nylon 4/6, glass-filled, UL94V-0
- Color: Black
- Contact: Phosphor Bronze
- Pitch: 1.00mm (.039")
- Current: 1.1A
- Voltage: 50V

RoHS Compliant

For quantities of 100 and up, call for quote.

DDR DIMM SOCKETS

Features:
- Accepts JEDEC MO-206 modules
- Dual ejector latches
- Added contact wipe for improved reliabilty
- Beveled metal pins

Specifications:
- Voltage Key: Left 2.5V
- Contact plating: 15u" gold
- Pitch: 1.27mm

RoHS Compliant

For quantities of 100 and up, call for quote.

AMP Power Series Connectors

This page of product is compliant.

AMP Power Series Connectors provide a durable, quick connect/disconnect means to transmit "power" levels of current and voltage (15-275 A, 600 V AC/DC). This product family is primarily comprised of single-pole and 2-pole (battery) connector housings, crimp snap-in contacts, and accessories. Housings are offered in various colors. Two-pole housings have different polarization configurations with the exception of black housings, each color identifies a different keying configuration. In general, only like color housings will mate.

Specifications:

- Voltage Rating: 600V AC and DC
- Color-coded Housings, UL94V-0
- Hermaphroditic housings reduce inventory
- Modular, single pole housings are stackable in four directions
- Polarity (+ and -) molded into 2-pole housings
- Mechanical keys help prevent two different color-coded housings from mating
- Stainless steel retaining springs secure contacts in housings
- RoHS compliant per Tyco documentation

Applications:

- AC/DC power supplies and charging systems
- Rechargeable batteries
- Material handling equipment (forklift trucks)
- Electric vehicles (golf carts, sweepers, wheelchairs)
- Office furniture/Panels
- Amateur Emergency Radios
- Industrial Equipment

SERIES 15/30/45 CONNECTORS

Single-Pole

RoHS Compliant

- 40A with 10AWG wire (Series 45)
- 30A with 12AWG wire (Series 30)
- 20A with 16AWG wire (Series 15)

For quantities of 500 and up, call for quote.

SERIES 50 CONNECTORS

2-Pole Battery

RoHS Compliant

- RoHS Compliant per Tyco Electronics documentation
- Cold-headed contact wire range: 6, 8, 10-12 AWG
- 50 amp per circuit with 6AWG wire
- Black color housing has the same mechanical key as the gray housing
- Contacts and accessories are listed in the 75 Series Connectors

For quantities of 500 and up, call for quote.

AMP Power Lock Connectors

RoHS Compliant **This page of product is compliant.**

AMP Power Lock Connectors have hermaphroditic housings and contact designs. The hermaphroditic housings are also modular in design and permit the clustering of connectors of the same series. Housings are made of impact resistant thermoplastic with stainless steel locking springs for contact stability. High current handling capability: 31 or 53 amperes maximum depending on application.

AMP SERIES I CONNECTORS

18-12 AWG
Single-Circuit Housing Assemblies

RoHS Compliant E-28476 LR 7189

Material:
- Housing: Polycarbonate

RoHS compliant per Tyco Electronics documentation

For quantities of 200 and up, call for quote.

AMP Economy Power Connector System

RoHS Compliant **This page of product is compliant.**

WIRE-TO-BOARD CONNECTOR SYSTEM

AMP Economy Power connectors are designed for secondary power circuit applications. They consist of wire-to-pc board plug housings (for receptacle contacts) and mating post headers. During mating, the positive locking lever on the outside of the plug housing engages the mating header housing to provide for greater retention.

Features:
- .156" centerline
- Hooded contact designed to accept wire with insulation diameters up to .118"
- Positive locking feature built into header back wall
- Locking mechanism on connector housing maximizes retention
- Polarization tabs help prevent post misalignment and mismating
- Low-profile mating height of .641"

E28476

Specifications:
- Voltage Rating: 250 VAC
- Current Rating: 7.5 amp max. (2 to 12 pos.) 8 amp max. (1 pos)
- Durability: 50 mating and unmating cycles
- Operating Temperature: -25°C to +105°C
- Wire Size Range: 18-22 AWG

LR7189

Plug Housings

Material and Finish:
- Housing: UL 94V-0 rated nylon, natural color
- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

146-E SERIES POWER CONNECTOR KITS

Amphenol's most popular power connectors in the 146-E series are now kitted and available in two types: bulk head housing or hood kits. Each kit is complete and when combined with a mating half and properly clamped, provide an IP65 rating. No special tools are required with the easy screw termination and all include wire protection.

For quantities of 5 and up, call for quote.

CINCH Jones Plugs and Sockets

JONES PLUGS / SOCKETS SERIES 300

Features:

- Solder lug terminals with .093" x .062" wiring holes
- Two-contact "Jones" connector is round, all others are rectangular
- For use in cable-to-panel and cable-to-cable applications
- Designed for light and medium duty
- Polarized to prevent wrong-way insertion

Specifications:

- Insulation material: molded monoblock, general purpose phenolic, black UL94V-1
- Contact material: plug - brass, socket - phosphor bronze
- Contact plating: cadmium
- Operating temperature: up to +105°C
- Hood material: UL 94V-0
- Withstanding voltage: 730VACRMS
- Current rating: 10A
- Contact resistance: 16mΩ max.

∗ Two-contact "Jones" round connector, Dimension "A" is the diameter.

Polarizing Patterns - 300 Series

HARTING Heavy Duty Han® Power Connectors

HEAVY DUTY HAN® POWER CONNECTORS

Rated 10 to 100 amps

Han® connectors are multi-pin connectors that utilize hoods and housings for protection from dust, liquids, and physical damage. All series have UL and CSA electrical approvals and NEMA Type 4/12 and IP type environmental ratings as well as many international approvals.

Inserts carry the male and female contacts and feature protective leading ground, polarization to prevent incorrect connections, and interchangeability of male and female inserts in either hoods or housings. Inserts can also be used in rack and panel applications without hoods and housings.

Hoods connect to the cable and housings generally mount to the cabinet or machine. All hoods and housings meet NEMA Type 4/12 and equivalent international standard IEC 529 (DIN 40050) IP 65 degree of protection, which specifies that enclosures are protected.

HARTING Heavy Duty Han® connectors can be used in a wide variety of applications in many industries including:

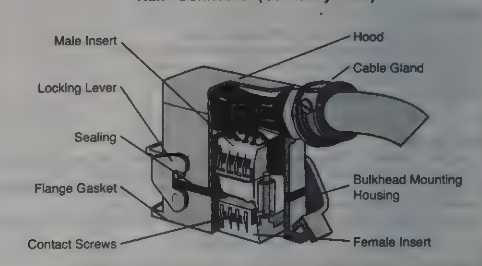
Robotics	Semiconductor
Transportation	Industrial Automation
Machine tools	Plastics machinery
Conveyors	Power utilities
Chemical plants	and many others.

For a complete connector: choose a kit or pick male and female mating inserts with same size hood and housing. Order crimp contacts and cable glands when necessary.

RoHS compliant per HARTING documentation

RoHS Compliant

Han® Connector (Cut Away View)



HAN® A/B MATING CONNECTOR KITS

Features:
- Ready to assemble complete connector kit
- Heavy duty screw terminal inserts
- IP65/ NEMA 4 rated assemblies
- Hood/Housing Color: Gray
- Male & Female inserts are interchangeable between hoods and housings.

Each Kit Includes:
Female Insert, Male Insert, Hood, Housing, Mounting Gasket, and Cable Gland

All parts on this page are RoHS compliant per HARTING documentation

RoHS Compliant

HAN-KIT® 3AGM

Cable Gland:
- Size: M20
- Material: Metal
- Cable Diameter: 5-9mm / 6-12mm

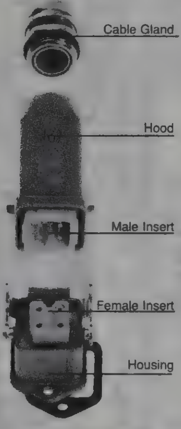
Hood:
- Han 3 A Series
- Degree of protection: IP 67
- Material: Die cast zinc alloy
- Cable entry: M20

Male Insert:
- Han 3 A Series
- Rated voltage: 600V UL/CSA
- Positions: 3-pins + PE
- Rated current: 10A
- Screw terminal: 1.0 to 2.5 mm^2, AWG 18-14

Female Insert:
- Han 3 A Series
- Rated voltage: 600V UL/CSA
- Positions: 3-pins + PE
- Rated current: 10A
- Screw terminal: 1.0 to 2.5 mm^2, AWG 18-14

Housing:
- Han 3 A Series
- Mounting: Straight Bulkhead
- Material: Die cast zinc alloy
- Flange Gasket
- Panel Cutout: 22 x 22 mm

RoHS Compliant



For quantities of 10 and up, call for quote.

Cable Gland:
- Size: M20
- Material: Metal
- Cable Diameter: 5-9mm / 6-12mm

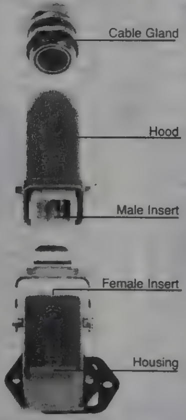
Hood:
- Han 3 A Series
- Degree of protection: IP 67
- Material: Die cast zinc alloy
- Cable entry: M20

Male Insert:
- Han 3 A Series
- Rated voltage: 600V UL/CSA
- Positions: 3-pins + PE
- Rated current: 10A
- Screw terminal: 1.0 to 2.5 mm^2, AWG 18-14

Female Insert:
- Han 3 A Series
- Rated voltage: 600V UL/CSA
- Positions: 3-pins + PE
- Rated current: 10A
- Screw terminal: 1.0 to 2.5 mm^2, AWG 18-14

Housing:
- Han 3 A Series
- Mounting: Right Angle Bulkhead
- Material: Die cast zinc alloy
- Flange Gasket
- Panel Cutout: 22 x 22 mm

RoHS Compliant



For quantities of 10 and up, call for quote.

- Size: M20
- Material: Metal
- Cable Diameter: 5-9mm / 6-12mm

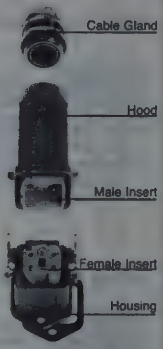
Hood:
- Han 3 A Series
- Degree of protection: IP 67
- Material: Die cast zinc alloy
- Cable entry: M20

Male Insert:
- Han 4 A Series
- Rated voltage: 600V UL/CSA
- Positions: 4-pins + PE
- Rated current: 10A
- Screw terminal: 1.0 to 2.5 mm^2, AWG 18-14

Female Insert:
- Han 4 A Series
- Rated voltage: 600V UL/CSA
- Positions: 4-pins + PE
- Rated current: 10A
- Screw terminal: 1.0 to 2.5 mm^2, AWG 18-14

Housing:
- Han 3 A Series
- Mounting: Straight Bulkhead
- Material: Die cast zinc alloy
- Flange Gasket
- Panel Cutout: 22 x 22 mm

RoHS Compliant



For quantities of 10 and up, call for quote.

HAN® A/B MATING CONNECTOR KITS (CONT.)

Features:
- Ready to assemble complete connector kits
- Heavy duty screw terminal inserts
- IP65/ NEMA 4 rated assemblies
- Hood/Housing Color: Gray
- Male and Female inserts are interchangeable between hoods and housings.

- **Each Kit Includes**: Female Insert, Male Insert, Hood, Housing, Mounting Gasket and Cable Gland

All parts on this page are RoHS compliant per HARTING documentation

RoHS Compliant

HAN-KIT® 4AWM

Cable Gland:
- Size: M20
- Material: Metal
- Cable Diameter: 5-9mm / 6-12mm

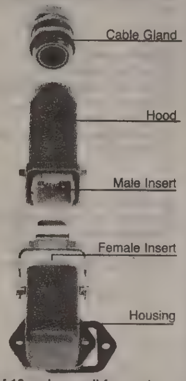
Hood:
- Han 3 A Series
- Degree of protection: IP 67
- Material: Die cast zinc alloy
- Cable entry: M20

Male Insert:
- Han 4 A Series
- Rated voltage: 600V UL/CSA
- Positions: 4-pins + PE
- Rated current: 10A
- Screw terminal: 1.0 to 2.5 mm^2, AWG 18-14

Female Insert:
- Han 4 A Series
- Rated voltage: 600V UL/CSA
- Positions: 4-pins + PE
- Rated current: 10A
- Screw terminal: 1.0 to 2.5 mm^2, AWG 18-14

Housing:
- Han 3 A Series
- Mounting: Right Angle Bulkhead
- Material: Die cast zinc alloy
- Flange Gasket
- Panel Cutout: 22 x 22 mm

RoHS Compliant



For quantities of 10 and up, call for quote.

HARTING Heavy Duty Han® Modular Connectors

MODULES

- Male insert with additional protection collar
- Polorization of module
- DIN VDE 0627, DIN VDE 0110, DIN EN 61 984
- Axial screw terminations recommended VDE 0295 Type 5 fine strand wire
- RoHS Compliant per HARTING documentation

RoHS Compliant

Axial Screw Modules

For quantities of 50 and up, call for quote.

PNEUMATIC MODULES

- 3 contacts for transmission of clean and dry compressed air
- Termination of 1.6 mm, 3 mm, 4 mm and 6 mm ID-tubes
- Tube sizes may be mixed in module
- Robust plastic contact
- RoHS Compliant per HARTING documentation

* Contacts with SHUT OFF also available

RoHS Compliant

For quantities of 50 and up, call for quote.

HINGED FRAMES

- Grounding system according to VDE
- Modules can only be assembled polarized to guarantee correct orientation
- Both male and female modules may be mounted in the same hinged frame
- Hinged frames are mountable in standard hoods/housings
- High mechanical reliability of modules in case of vibrations and impact stress
- DIN VDE 0627, DIN VDE 0110, DIN EN 61 984
- RoHS Compliant per HARTING documentation
- Rigid die cast zinc frame
- Alphabetical marking of module positions
- No tool necessary to remove modules

RoHS Compliant

For quantities of 50 and up, call for quote.

HARTING Heavy Duty Han® Power Connectors

HEAVY DUTY HAN® POWER CONNECTORS

Han® Hoods and Housings For A and B Inserts

Full Compliance to NEMA Type 4

- RoHS Compliant per HARTING documentation

RoHS Compliant

Hoods/Housings Selection:	Select the hood/housing combination that will accommodate the same size male/female inserts selected from the previous pages.
Ingress Protection:	Size 3A Metal = IP 44 Size 3A Plastic = IP 65 All other Metal Sizes = IP 65
Hoods/Housings Color:	Gray (RAL 7037)
Mating Information:	Hoods mate with any Housings of the same size and lever type.
Hood Cable Glands:	Cable Glands are not included with hoods and must be ordered off the accessory page based on PG size and cable diameter.

All hoods are also available in metric threads. Please see your Mouser Sales Representative for more information.

POWER EDGE™ POWER CONNECTORS

High current connector for direct mating to card edge or bus bar applications

Power Edge is a high current connector (12.9mm or 2.50mm Pitch) for direct mating to a customer's 1.58mm (.062") thick, double-sided card edge PCB or bus bar tab. Power Edge connectors can be combined (stacked end-to-end) to mate with multiple bus bar tabs or card edges up to 8" for power distribution applications.

With Power Contacts

Features:
- Connector assemblies available in two, three and four segments (2 contacts per segment)
- End-to-end stackable
- Vertical (Top Entry)
- Isolated segments on opposing contacts
- Rated for current interruption

Specifications:
- Pitch: 12.9mm
- Current: 40A per Contact
- Voltage: 250V
- Color: Black
- Flammability: UL 94V-0
- Contact: Copper (Cu) Alloy
- Operating Temperature: -40°C to +105°C

Applications:
- Telecommunications Equipment
- High and Mid-Range Computing Equipment
- Uninterruptible Power Supplies (UPS)
- Cellular Communications Equipment
- DC-DC Converters

RoHS Compliant

For quantities of 100 and up, call for quote.

With Signal Contacts

Features:
- Connector assemblies with 2 segments of 8 signal contact per segment for mating with low speed traces on a PCB card edge.
- End-to-end stackable
- Rated for current interruption to match hot plug requirements
- Opposing contact on each segment are isolated to allow independent mating with signal traces on a double-sided card edge
- Foot print compatible and end to end stackable with competing connectors

Specifications:
- Pitch: 2.50mm
- Current: 3.0A per Contact
- Voltage: 250V
- Color: Black
- Flammability: UL 94V-0
- Contact: Copper (Cu) Alloy
- Operating Temperature: -40°C to +105°C

Applications:
- Telecommunications Equipment
- High and Mid-Range Computing Equipment
- Uninterruptible Power Supplies (UPS)
- Cellular Communications Equipment
- DC-DC Converters

RoHS Compliant

For quantities of 100 and up, call for quote.

With Mixed Power / Signal Contacts

Features:
- Connector assemblies with mixed power and signal contacts to match power and slow speed sign contacts on a double-sided PCB card edge
- End-to-end stackable
- Rated for current interruption to match hot plug requirements
- Opposing contact on each segment are isolated to allow independent mating with signal traces on a double-sided card edge
- Foot print compatible and end to end stackable with competing connectors

Specifications:

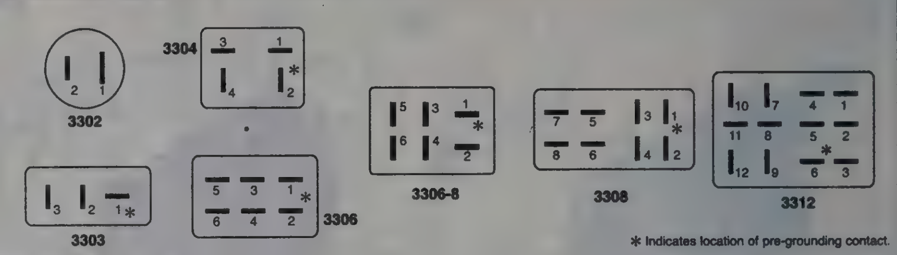
MOLEX Power Connectors

SERIES 3300 CONNECTORS

Series 3300 Connectors are interchangeable with Series 300 types and are designed for panel and cable mounting.



* Indicates location of pre-grounding contact.

Specifications:
- Current Rating (Individual Contact): 10 Amps
- Voltage Rating: 250 volts
- Materials:
  - Plug: Brass, tin plated
  - Socket: Phosphor bronze tin plated
  - Pre-Grounding Contact: Heavy duty plated brass
  - Base Insulating: High-grade phenolic, black
  - Backshell: Thermoplastic
  - Angle Bracket Finish: Steel, bright nickel electroplate
- Cable Clamp Top Includes: cable clamp, screws, latch and keeper

Plugs-Cable Clamp Top

- Cable Mount

For quantities of 200 and up, call for quote.

SERIES 5400 CONNECTORS

Series 5400 Connectors are interchangeable with Series 2400 or 400 type connectors. They are designed for use in panel and cable mounting applications. Includes steel bright nickel electroplated cable clamp and screws.

Specifications:
- Current Rating (Individual Contact): 15 Amps
- Voltage Rating: 250 volts (UL rated at 250 V, AC or DC max, between adjacent contacts)
- Pre-Grounding Contact Rating: Up to 30 Amps at rated voltages
- UL: File No. E34763
- CSA: File No. 22156
- Materials:
  - Plug: Brass, tin plated
  - Socket: Phosphor bronze, tin plated
  - Pre-Grounding Contact: Heavy duty plated brass
  - Base Insulating: High-grade phenolic, black
  - Backshell: Thermoplastic

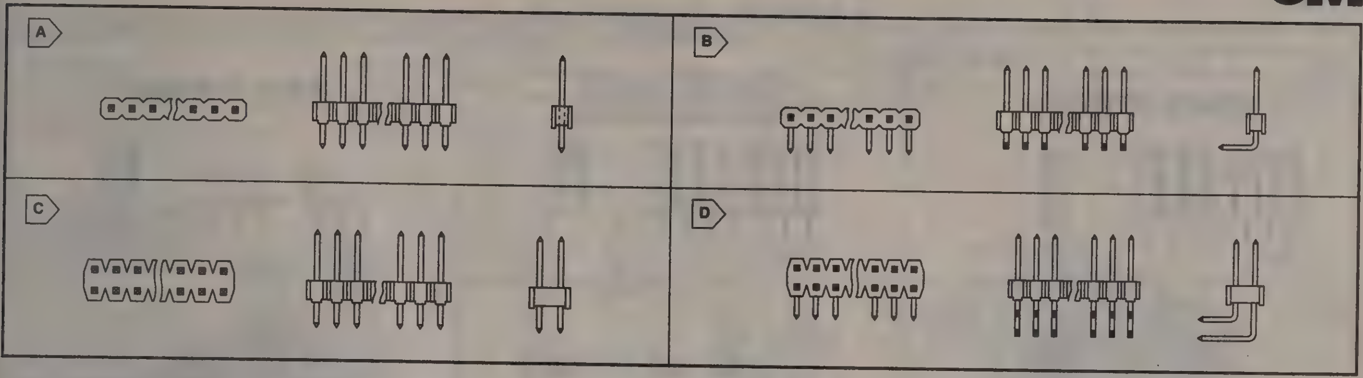
3M™ .100" Pin Strip Headers



2300 SERIES .100" PIN STRIP HEADERS

Specifications:

- Insulation material: Glass filled thermoplastic, Black, UL94V-0
- Contact material: Copper alloy
- Tail plating: 100μ" Tin
- Current rating: 3A
- Withstanding voltage: 1000Vrms
- Operating Temperature: -55°C to +105°C
- Series 2300

Mates with socket series 929 and CHG

For quantities of 500 and up, call for quote.

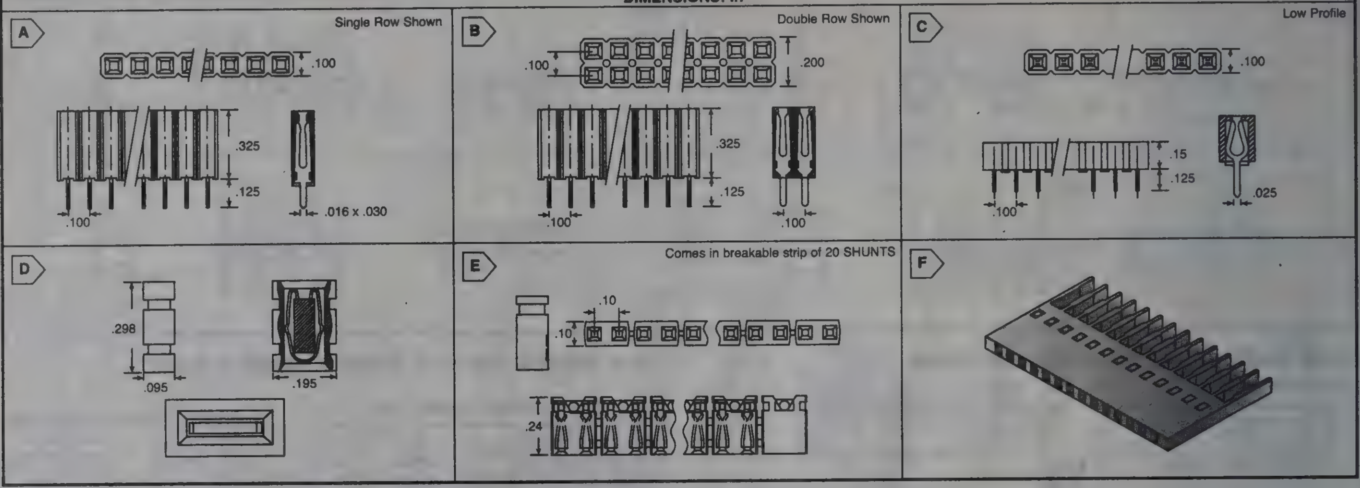
3M™ .100" Pin Strip Sockets and Shunts

DIMENSIONS: In



929 SERIES .100" PC BOARD MOUNT SOCKETS

Sockets mate with .100 pin header for board stacking applications.

Specifications:

- Tuning fork contact design
- Solder standoffs facilitate production wave soldering
- Insulation material: glass-filled polyester (PBT) black UL94V-0
- Contact plating: 10μ" gold or 100μ" tin
- Contact material: Copper alloy
- Current rating: 1A
- Tail length: .125"
- Withstanding voltage: 1500Vrms
- Temperature rating: -40°C to +105°C
- Series 929
  Mates with Header Series 2300 and 929.

For quantities of 1000 and up, call for quote.

929 SERIES .100" MIDGIE SHUNTS

Specifications:

- Unique C-Spring contact insures balanced forces
- Insulation material: glass-filled polyester (PBT) black UL94V-0
- Contact plating: Black: Unplated
  Blue: 10μ" Gold in wipe area
  Gray: 30μ" Gold in wipe area
- Stackable end-to-end and side-to-side
- Current rating: 1A
- Contact Material: Copper alloy
- Withstanding voltage: 1500Vrms
- Temperature rating: -55°C to +100°C

For quantities of 2000 and up, call for quote.

929 SERIES .100" SHUNTS

Specifications:

- Double wipe contact is reliable and failure free
- Insulation material: glass-filled polyester (PBT), UL94V-0
- Current rating: 2A
- Contact plating: Red: 75μ" Tin
  Blue: 10μ" Gold in wipe area
  Gray: 30μ" Gold in wipe area
- Open top contact allows easy probing and testing
- Contact Material: Copper alloy
- Withstanding voltage: 1500Vrms
- Temperature rating: -55°C to +100°C
- Loop hole on top of the contact provides easy removal for testing
- Pricing is per shunt

For quantities of 2000 and up, call for quote.

CHG SERIES .100" PAK 100 WIREMOUNT SOCKETS

Features:

- For .100" Pitch Notched or Discrete Wire Cable
- One row, side-to-side stackable
- Mates to 3M one row pin strip headers
- Twin slot IDC provides four points of contact
- Temperature rating: -55°C to +105°C
- Plating: 30μ Gold
- Insulation material:
  Glass Filled Polyester (PBT), UL 94V-0
- Color: Gray
- Contact material: Copper alloy
- Current rating: "KEP" 22-24 AWG: 2 A
  "KCP" 26-28 AWG: 1.5 A
- Exclusive L/H 4-wipe contact
- Series CHG: Mates with Header Series 2300 and 929
- RoHS Compliant per 3M documentation

RoHS Compliant

For quantities of 200 and up, call for quote.

3M™ Wiremount Sockets and Latch/Ejector Headers

RoHS Compliant **This page of product is compliant.**

CHG SERIES .100" PAK 100 POLARIZED WIREMOUNT SOCKETS

Specifications:
- For .100" Notched Ribbon or Discrete Wire Cable
- Military/DIN 41612 compatibility
- Two row, polarized body
- Mates to long latch/eject headers and plugs
- Twin slot IDC provides four points of contact
- Exclusive L/H 4-wipe contact
- With Centerbump
- Insulation material: Glass Filled Polyester (PBT), Gray, UL94V-0
- Contact material: Copper alloy
- Current rating: "KEP" 22-24 AWG: 2 A
  "KCP" 26-28 AWG: 1.5 A
- Temperature rating: -55°C to +105°C
- Plating: 30μ" Gold
- Series CHG
- RoHS compliant per 3M documentation
- **Mates with Header Series: 2300, 929, 3000, 2500, 303**
  Plug Series: 4600

For quantities of 200 and up, call for quote.

Specifications:
- Solder Tail Type
- Standard ejector latches
- Optional polarizing posts
- Mounting holes for securing header to board
- Insulation Material: Glass Filled Polyester (PCT)
- Military (with 3M's 3518 polarizing key) and centerbump polarization
- High temperature insulator suitable for "no lead" soldering operations
- Suitable for reflow soldering using "paste in hole" techniques
- Flammability: UL 94V-0
- Color: Black; Ejector Latch: Gray
- Contact material: Copper Alloy
- Contact plating: 30" Gold
- Terminal Finish Indicator: e3 (per JESD97)
- Marking: 3M Logo, Part Identification Number and Orientation Triangle
- Current Rating: 1A
- Insulation Resistance >1 x 109 at 500Vdc
- Withstanding Voltage: 1000Vrms at Sea Level
- Temperature Rating: -55°C - +105°C
- Process Rating: Maximum 260°C, single pass, (profile per J-STD-020C)
- Moisture Sensitivity Level: 1 (per J-STD-020C)
- **Mates with Socket Series' CHG, 8500, 3000, and 891**

RoHS Compliant

2500 SERIES .100" X .100" LOW PROFILE BOX HEADERS

Specifications:

- Solder Tail Type
- Low profile, space saving design
- RoHS compliant per 3M documentation
- High temperature insulator suitable for "no lead" soldering operations
- Suitable for reflow soldering using "paste in hole" techniques
- Insulation material: Glass filled polyester (PCT)
- Flammability: UL 94V-0
- Color: Black
- Contact material: Copper Alloy
- Contact plating: 30" Gold
- Terminal finish indicator: e3 (per JESD97)
- Current rating: 2A
- Insulation resistance: >1x 109 @ 500VDC
- Withstanding voltage: 1000 Vrms @ sea level
- Temperature rating: -55°C to +105°C
- Process rating: Maximum 260°C, single pass, (profile per J-STD-020C)
- Moisture sensitivity level: 1 (per J-STD-020C)
- Series 2500 mates with socket series: CHG, 8500, 3000, and 891
- RoHS compliant per 3M documentation

RoHS Compliant

303 SERIES .100" X .100" LOW COST, LOW PROFILE BOX HEADERS

Specifications:

- Sturdy body
- End windows
- Insulation material: Glass filled polyester (PBT)
- Flammability: UL94V-0
- Insulation color: Black
- Contact material: Brass
- Contact plating: Gold flash
- Current rating: 1A
- Insulation resistance: >1x 109 @ 500VDC
- Withstanding voltage: 500Vrms @ sea level
- Temperature rating: -55°C to +105°C
- Series 303 mates with socket series: CHG, 8500, 3000, and 891
- RoHS compliant per 3M documentation

4600 SERIES .100" X .100" WIREMOUNT PLUGS IDC SHROUDED HEADERS

RoHS Compliant

Features:

- Shrouded to protect against physical and chemical pin damage
- Accepts flat cable or discrete wire
- Insulation material: Glass filled polyester (PBT)
- Flammability: UL 94V-0
- Color: Gray
- Contact material: Copper alloy
- Wire Accommodation: 26 and 28 AWG solid or stranded
- RoHS compliant per 3M documentation
- Current rating: 1A
- Temperature rating: -55°C to +105°C
- Plating: 30µ" Gold
- Open end cover included
- Series 4600 mates with socket series: CHG, 8500, 3000, and 891

For quantities of 200 and up, call for quote.

8500 SERIES .100" X .100" POLARIZED BOARDMOUNT SOCKETS

RoHS Compliant

- Centerbump polarization
- Mates with low profile shrouded headers
- Board retention feature
- Insulation material: Glass filled polyester (PBT),
- Gray, UL 94V-0
- Contact material: Copper alloy
- Contact plating: 12μ" Gold
- Current rating: 1A
- Withstanding voltage: 1000Vrms
- Temperature rating: -55° C to +105°C
- Series 8500
  Mates w/ Header Series: 3000, 2500, & 303
  Plug Series: 4600

For quantities of 200 and up, call for quote.

3000 SERIES .100" X .100" WIREMOUNT SOCKET CONNECTORS

- Industry standard IDC socket
- Current rating: 1A
- Positive locking metal "J" clips provide high cover retention
- Withstanding voltage: 1000Vrms
- Accepts flat cable or discrete wire
- Temperature rating: -55° C to +105°C
- Insulation material: Glass filled polyester (PBT), Gray, UL 94V-0
- Contact material: Copper alloy
- Wire accommodation: 26 & 28 AWG solid or standed
- Series 3000
  Mates w/ Header Series: 3000, 2500, & 303
  Plug Series: 4600
- Plating: 30μ" Gold
- Order strain reliefs separately. (see below)
- RoHS compliant per 3M documentation

RoHS Compliant

810 SERIES .050" X .100" TRIPOLARIZED, LATCH/EJECTOR HEADERS

Specifications:

- Latch and eject for rugged high performance applications
- Two-row solder tail design saves board space
- Four-wall shroud provides contact protection
- Insulation material: High temperature plastic (LCP), Ivory, UL 94V-0
- Temperature rating: -55°C to + 105°C
- Plating: 30μ" Gold
- Current rating: 0.5A
- Withstanding voltage: 500 Vrms
- Contact material: Copper alloy

For quantities of 200 and up, call for quote.

8200 SERIES .050" X .100" TRIPOLARIZED WIREMOUNT SOCKETS

For .025" Pitch Cable

Specifications:

- Hill-n-dale design provides a high performance IDC termination
- Insert-molded copper alloy contacts for superior strength and reliability
- Insulation material: Glass filled polyester (PBT), Gray, UL 94V-0
- Temperature rating: -55°C to +105°C
- Metal cover latch
- Plating: Tin-lead
- Current rating: 0.5A
- Withstand voltage: 500Vrms

For quantities of 200 and up, call for quote.

78XX SERIES .100" X .100" 2 ROW PCB CONNECTORS

Specifications:

- Insulation material: Glass filled thermoplastic, Gray, UL 94V-0
- Wire Accommodation: 26 AWG Stranded, 28 AWG Solid or Stranded, 30 AWG Solid
- Uses less board area than 4-row design
- RoHS compliant per 3M documentation
- Contact material: Beryllium Copper
- Current rating: 1A
- Withstanding voltage: 1000 VAC for 1 minute
- Temperature rating: -55°C to +105°C
- Fits standard .100" x .100" header layout

RoHS Compliant

For quantities of 200 and up, call for quote.

3M™ 2mm x 2mm Headers and Sockets

1512 SERIES 2MM X 2MM PIN STRIP HEADERS

Specifications:

- Industry standard compatible
- High temperature dielectric
- Maximizes use of PC board space
- Mates with boardmount and wiremount products
- End and side stackable
- Insulator material: Black high temperature thermoplastic, UL94V-0
- Contact material: Copper alloy
- Plating: 30μ" Gold
- Current rating: 1.5 A
- Withstanding voltage: 500 Vrms at sea level
- Temperature rating: -55°C to +105°C

1502 SERIES 2MM X 2MM BOARDMOUNT SOCKETS

Specifications:

- Industry standard compatible
- Plated thru hole style
- Minimizes PC board stcking heights
- End and side stackable
- Insulator material: Black glass filled PCT, UL94V-0
- Contact material: Copper alloy
- Plating: 30μ" Gold
- Current rating: 1 A
- Withstanding voltage: 500 Vdc at sea level
- Temperature rating: -55°C to +105°C

Straight

For quantities of 200 and up, call for quote.

1522 SERIES 2MM X 2MM WIREMOUNT SOCKETS

For 1mm Pitch Cable

Specifications:

- Industry standard compatible
- Mates with Pak 20 grid pin strips & 2mm latch/eject headers
- Low Profile
- Preassembled open covers
- Wire accommodation: 28 AWG stranded
- Insulation material: Gray glass filled polyester PBT, UL94V-0
- Contact material: Copper alloy
- Plating: 30μ" Gold
- Current rating: 1A
- Withstanding voltage: 1000 Vrms at sea level
- Temperature rating: -55°C to +105°C
- RoHS compliant per 3M documentation

RoHS Compliant

For quantities of 200 and up, call for quote.

3M™ 2mm x 2mm Latch/Eject Headers

RoHS Compliant This page of product is compliant.

2MM LATCH/EJECT HEADERS

Features:

- Latch/eject mechanism maintains a secure connection
- Roll pins retain latches to body in shipping and high vibration environments
- Ejector helps make removal of assemblies easy
- High temperature insulators suitable for "lead free" processing and meet JEDEC J-STD-020C
- RoHS compliant per 3M™ documentation
- Mates with 3M™ 1552 Series IDC Wiremount Sockets or 3M™ Molded Cable Assemblies

Specifications:

- Insulation Material: Glass Filled Polyester (PCT)
- Flammability: UL 94V-0
- Contact Material: Copper Alloy
- Withstanding Voltage: 1000Vms at Sea Level
- Current Rating: 1A
- Plating: 30μ" Gold

RoHS Compliant

For quantities of 100 and up, call for quote.

3M™ I/O SCR and 2.00mm IDC Connectors

SHIELDED COMPACT RIBBON (SCR) I/O CONNECTORS

Specifications:
- Current Rating: 1 A
- Voltage Rating: 150V (AC)/200V (DC)
- Insulation Resistance: > 5 x 108Ω at @ 500V (DC)
- Withstanding Voltage: 500V RMS for 1 minute
- Temperature Rating: -55°C to +85°C

Features:
- 360° Shielding for excellent EMI protection
- 10 Contacts can carry signal or power (up to 1 ampere per pin)
- Polarized to provide proper insertion
- RoHS Compliant per 3M documentation

NEW FROM SUPPLIER

RoHS Compliant

For quantities of 100 and up, call for quote.

2.00MM IDC, WIREMOUNT MINI-CLAMP CONNECTORS - 371 AND 373 SERIES

Specifications:
- Flammability: UL94V-0
- Body Color: Black
- Contact Material: Copper Alloy
- Insulation Material: Nylon body, Polycarbonate cover
- Current Rating: 3.0 A
- Voltage Rating: 32 V
- Temperature Rating: -20°C to 85°C

Features:
- Operation by general tool "pliers" reduces tooling cost
- Latch enables rugged field termination
- RoHS Compliant per 3M documentation

Applications:
- Clinical Labs
- Gaming Machines
- Controller for LED displays
- Homeland Security
- X-Ray Machines
- Communication Networking Equipment

RoHS Compliant

For quantities of 100 and up, call for quote.

2.00MM BOARDMOUNT MINI-CLAMP SOCKET CONNECTORS - 372 SERIES

Specifications:
- Flammability: UL94V-0
- Color: Black
- Contact Material: Copper Alloy
- Insulation Material: Nylon
- Current Rating: 3.0 A
- Temperature Rating: -20°C to 85°C
- Voltage Rating: 32 V

Features:
- Mates to 371 Series Plugs
- Straight Solder Tails
- Kinked contact pins for board retention.

For quantities of 100 and up, call for quote.

3M™ .050" Boardmount and Wiremount Connectors

RoHS Compliant This page of product is compliant.

.050" PAK 50 BOARDMOUNT CONNECTORS

Features:

- Insulation material: Glass Filled Nylon
- Flammability: UL 94V-0
- Color: Black
- Contact material: Phosphor Bronze
- Style: Vertical
- Termination: Solder Tail
- Current rating: 0.5 A
- Temperature rating: -55°C to +85°C
- Plating: 10μ" Gold
- Retention clips included
- RoHS Compliant per 3M documentation

RoHS Compliant

ADAM TECH FPC/FFC Connectors

ADAM TECH
Adam Technologies, Inc.

FPC/FFC CONNECTORS

Adam Tech Flexible Printed Circuit and Flexible Flat Cable connectors are available in both LIF and ZIF styles. This series features multiple centerline pitches in single or dual rows with Thru-Hole or SMT mounting options. They are designed to be an easy and reliable connection of flexible printed circuits to a PCB. Our FPC/ FFC connectors are designed to produce a stable, high pressure connection while preserving circuit integrity.

RoHS Compliant

For quantities of 500 and up, call for quote.

STANDARD PROFILE HEADERS - .100" (2.54MM) CENTERS

Material:

- Housing: UL94V-0, Blk Thermoplastic
- .100" (2.54mm) Centers
- .025" Sq. Straight or Right-Angle Post
- Shrouded
- Post: Copper Alloy, plated as follows:s

∗ Contact Plating:

1 = Duplex plated .000030 min. gold on contact area. .0001 ~ .0002 min. tin-lead on solder area, w/ entire post underplated .000050 min. nickel.
2 = Duplex plated .000015 min. gold on contact area. .0001 ~ .0002 min. tin-lead on solder area, w/ entire post underplated .000050 min. nickel.
3 = .000100 ~ .000200 tin-lead over .000050 nickel on entire post.

.025" Sq. Straight Posts, w/ standoffs - Single Row

For quantities of 50 and up, call for quote.

AMP-LATCH NOVO CONNECTORS

RoHS Compliant

Features:

- Mates with .025" square or round pin, .245" max. post length
- IDC for fast, economical mass termination
- Tuning fork contact offers a military approved design at an economical cost
- RoHS compliant per Tyco Electronics documentation

Specifications:

- Current rating: 1A per contact max.
- Insulation resistance: 5000MΩ min.
- Termination resistance: 15mΩ max.
- Operating temperature range: -65°C to +105°C

For quantities of 500 and up, call for quote.

AMP-LATCH® .100"x .100" Latch/Ejector Headers

RoHS Compliant **This page of product is compliant.**

Features:

- Dual-Polarized Universal Ejection-Style Pin Headers
- .100 x .100" (2.54 x 2.54mm) Centers
- Straight-Thru or Right-Angle .025" (0.64mm) Square Posts
- .240" (6.10mm) Mating Post Length
- Recognized under the Component Program of Underwriters Laboratories Inc. File No. E28476
- Certified by the Canadian Standards Association, File No. LR 7189
- Current Rating: 1A
- Housing Material: Thermoplastic, UL94V-O Rated
- Temperature Range: -55° - +105° C
- RoHS Compliant per Tyco Electronics documentation

AMPMODU™ LOCKING CLIP CONTACTS AND HOUSINGS

Features:

- Mates with .025" (.64mm) square posts
- Modular design permits end-to-end stacking
- Housing made of 94V-0 rated glass-filled polyester
- Stamped: Cavity ID, part number, date code: where size permits Unstamped: No markings
- RoHS Compliant per Tyco Electronics documentation

Specifications:

- Contact Current Rating: 3 amp
- Termination Resistance: 12mΩ max. Gold
  16mΩ max. Tin
- Operating Temp.: -65°C to 105°C Gold
  -65°C to 60°C Tin

RoHS Compliant

Single Row

For quantities of 100 and up, call for quote.

AMPMODU™ SHORT POINT WIRE-APPLIED CONNECTORS AND CONTACTS

Features:

- Short point of contact mates with .169" - .259" (4.29 mm - 6.58mm)
- Double row housings are end-to-end and side-to-side stackable
- Mates with .025" (.64mm) square posts
- Dual cantilever contact beams for reliable mating
- RoHS Compliant per Tyco Electronics documentation

Specifications:

- Contact current rating: 3 amp
- Termination Resistance: 12mΩ max.
- Black thermoplastic, flame retardant, 94V-0

RoHS Compliant

Non-Polarized

For quantities of 100 and up, call for quote.

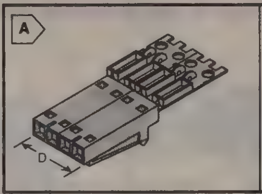
AMPMODU™ MTE Interconnection System

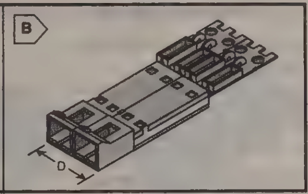
Material and Finish:

- .100" 2.54mm centerlines
- Housing: Black thermoplastic, UL94V-0 rated
- Contacts: Phosphor Bronze, plated as follows:

Plating Code:

A: Duplex plated .000030 (0.00076) gold on contact area. .000050 (0.00127) min. tin-lead in crimp area, with entire contact underplated .000050 (0.00127) nickel.
B: Duplex plated .000015 (0.00038) gold on contact area. .000050 (0.00127) min. tin-lead in crimp area, with entire contact underplated .000050 (0.00127) nickel.
C: .000100 (0.00254) bright tin-lead over .000050 (0.00127) nickel on entire contact.





Insulation displacement contacts accept an insulation diameter of .030 (0.76) min. to .054 (1.37) max. with an insulation wall thickness of .015 (0.38) max. Mating post length for preloaded housings is .200 (5.08) min., .250 (6.35) max.

MTE Receptacle Assemblies - Strip Form, Polarized/Latching, Single-Row, 26-22 AWG Wire

- Mates with Polarized/Latching Headers as well as Polarized/Latching Pin Assemblies.

For quantities of 200 and up, call for quote.

AMPMODU™ MTE Interconnection System

INTERCHANGEABLE CONTACTS, WIRE CRIMP (SNAP-IN)

To be used with MTE Unloaded Housings.

Plating Code:

A: Duplex plated .000030 (0.00076) gold on contact area. .000100 (0.00254) min. tin-lead on solder area, with entire post underplated .000050 (0.00127) nickel.
B: Duplex plated .000015 (0.00038) gold on contact area. .000100 (0.00254) min. tin-lead on solder area, with entire post underplated .000050 (0.00127) nickel.
C: .000100 (0.00254) tin-lead over .000050 (0.00127) nickel on entire post

Short Point Receptacles

For quantities of 2000 and up, call for quote.

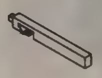
AMPMODU™ MT Connectors

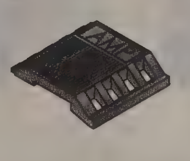
A

B

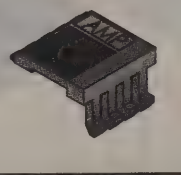
C



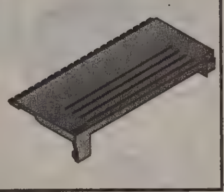
D



E



F



The AMPMODU™ Interconnection system offers labor and cost savings through mass termination technology, while maintaining the time-proven reliability of the AMPMODU™ product family. The MT system is comprised of preloaded, double-row receptacle assemblies with snap-on covers and a variety of shielding hardware and accessories. The IDC, features a mating interface that is the same as the conventional AMPMODU™ crimp, snap-in contact, featuring dual cantilever beams, built-in overstress protection and a completely enclosed box design.

RECEPTACLE ASSEMBLIES, DOUBLE-ROW .100" X .100" CENTERLINE

Housings Preloaded with Standard Pressure Contacts

Material and Finish:

- Housing: Black Thermoplastic, flame retardant
- Contacts: Copper alloy, duplex plated .000030 (0.00076) gold on contact area, .000050 (0.00127) min. tin in crimp area, with entire contact underplated .000050 (0.00127) nickel.
- Cable Insulation Diameter: .050 (1.27) max.
- Mating Post Length: .222-.273 (5.64-6.94) max.
- Stamped Housings: Cavity identification - first cavity (one side); AMP part no. and date code stamped on housing where size permits.
- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

For quantities of 500 and up, call for quote.

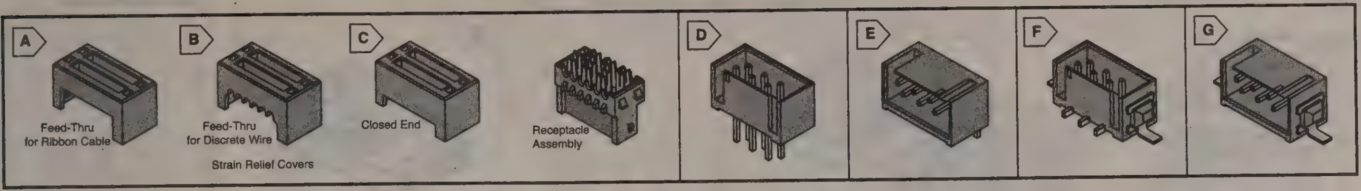
AMP MTA .050" Series IDC Connectors and Headers

Tyco Electronics
Authorized Distributor



Features:

- Tin Plated
- Voltage Rating: 30VAC
- Current Rating: 1A max.
- Low-Level Resistance: 30mΩ
- Dielectric Withstanding Voltage: 500VAC
- Insulation Resistance: 1,000MΩ
- Operating Temperature: -55°C to +105°C for connector only
- Color Coding by Wire Size for UL94V-0 Connectors
  26 AWG - Blue, 28 AWG - Green
- Strain Relief Covers: UL94V-0 rated, thermoplastic, black
- Housing: UL94V-2 rated, thermoplastic
- Housing Contacts: Phosphor bronze; .000100 [0.00127] min. nickel;
  mating end: .000100 [0.00254] min. tin-lead
- Headers:
  Housing: UL94V-0 rated, thermoplastic, black
  Contacts: Brass, .000100 [0.00254] min. tin-lead
  over .000050 [0.00127] min. nickel on solder legs;
  mating end: .000100 [0.00254] min. tin-lead

FEED-THRU RECEPTACLE ASSEMBLIES - FOR RIBBON CABLE

RoHS Compliant

Connector assembly consists of Receptacle Assembly and Strain Relief Cover
- RoHS Compliant per Tyco Electronics documentation

For quantities of 500 and up, call for quote.

AMP MTA .156" Series IDC Connectors

Tyco Electronics
Authorized Distributor

Specifications:
- Voltage rating: 250VAC
- Current rating: 5 Amp max.
- Low-level resistance: 3mΩ max. initial
- Operating temperature: -55°C to +105°C
- Dielectric withstanding Voltage: 1250VAC/1Min.
- Insulation resistance: 5000MΩ min. initial

Material and Finish:
- Housing: UL94V-2 rated, type 6/6 and 6/12 nylon
- Contacts: Phosphor bronze, post tin plated

File No.
E28476

Features:
- End to end stackable
- Contacts are lubricated to prevent fretting corrosion
- .156 Centers
- Pre-loaded with contacts

File No.
LR7189

AMP Mini-Universal MATE-N-LOK® and MATE-N-LOK II®

Tyco Electronics
Authorized Distributor

RoHS Compliant This page of product is compliant.

Features:
- Compact, durable housings
- Contacts accept wire size range 30-16 AWG
- Fully polarized
- UL 94V-0 flammability rated material
- RoHS Compliant per Tyco Electronics documentation

Specifications:
- Voltage rating: 600V AC or DC
- Current: 9.5A max. 9A Sealed
- Dielectric Withstanding Voltage: 1.5VAC

RoHS Compliant

AMP Mini-Universal MATE-N-LOK® connectors provide a highly reliable and economic means of grouping multiple-lead connections in today's computer, computer/peripheral equipment, business machines, entertainment centers, appliances, and other sophisticated commercial equipment. The electrical connector is an integral component in these applications. They also offer worldwide application approval because of their reliability and economy. Electrical functions have increased in complexity and new designs continually call for the maximum use of space. The Mini-Universal MATE-N-LOK® family of connectors offers the design and features to answer these modern industry requirements.

Features:
- Nylon white housing
- UL 94V-0 flammability rated material
- PCB thru mount
- Fully polarized

Specifications:
- Voltage rating: 600V AC or DC
- Current: 9.5A

VERTICAL HEADERS WITH DRAIN HOLES

RoHS Compliant

- RoHS Compliant per Tyco Electronics documentation

For quantities of 500 and up, call for quote.

COMMERCIAL MATE-N-LOK® CONNECTORS

Features:
- Fully polarized UL 94V-2 housings, nylon
- Integral design locking devices
- Connectors can be panel mounted to .025" - .065" panels
- Contacts accept wire size range 24-14AWG
- RoHS compliant per Tyco Electronics documentation

✱ Panel mount also

Specifications:
- Current rating: 7A
- Voltage rating: 300V
- Operating temperature: -20°C to +105°C

LR16476 E28476 RoHS Compliant

AMP MATE-N-LOK® Connectors

COMMERCIAL MATE-N-LOK® PC BOARD MOUNT CONNECTORS

Vertical Pin Headers

Features:

- Fully polarized UL94V-2 housings
- Integral design locking devices
- Contacts: Pre-tin plated phosphor bronze
- Housing: Nylon
- RoHS compliant per Tyco Electronics documentation

LR16455-38 E28476 RoHS Compliant

For quantities of 250 and up, call for quote.

UNIVERSAL MATE-N-LOK II® CONNECTORS

AMP MATE-N-LOK II Connectors offer the ultimate reliability in a softshell connector. They are designed for use where repair or replacement would be difficult. Available in 2-15 circuit sizes for free hanging or panel mount applications. Connectors consist of a front and rear housing section. Contacts are enclosed for shock protection. Terminals use "F" crimp termination.

Connectors

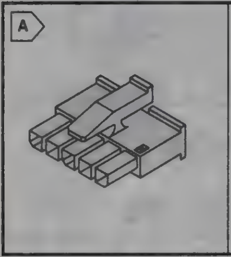
AMP Universal Micro Mate-N-Lok® Connectors

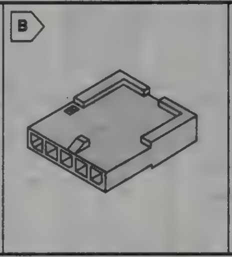
Features:

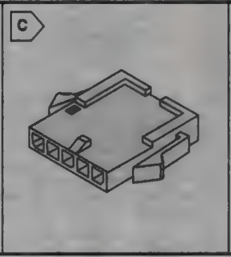
- Small form factor for space considerations
- Improved reliability and normal force
- Provides for proper mating of housings
- 3mm Pitch
- Dual Beam Contact Design
- Wire-to-Board connector system
- Allows for SMT processing

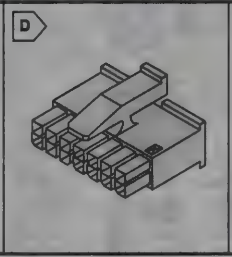
Specifications:

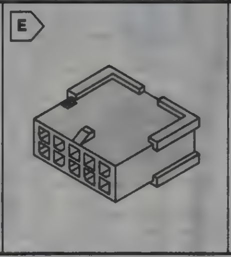
- Housing: Nylon, Black, UL94V-0
- Contacts: Brass (Plug); Phosphor Bronze (Receptacle)
- Voltage Rating: 250V
- Current Rating: 5A max.
- Contact Resistance: 20 m max.
- Temperature: -40°C to +105°C

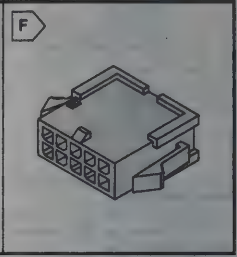












SINGLE ROW CONNECTOR SYSTEM

- RoHS Compliant per Tyco Electronics documentation

RoHS Compliant

Receptacle Housings

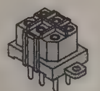
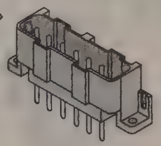
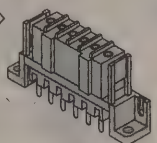
G



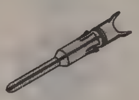
H



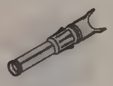
I



J



K



AMP Metrimate connectors are true metric specification connectors designed for panel, free-hanging or PC board application. These connectors offer improvements in durability, density and electrical performance over soft-shell pin and socket connectors.

HOUSINGS

Square Grid Housing

Specifications:
- RoHS compliant per Tyco Electronics Documentation
- 5mm (.197") Centerline
- 600V, 14A max.
- Polarized housings
- Housings made of UL rated 94V-0 thermoplastic
- Certified to ISO 9001

RoHS Compliant

For quantities of 500 and up, call for quote.

AMP (MR) Miniature Rectangular Connectors

Tyco Electronics
Authorized Distributor

The (MR) Series connector family consists of UL94V-0, soft shell nylon housings, contacts, strain reliefs, and PCB headers. Housings lock to prevent accidental disengagement and are designed for free-hanging or panel mount applications. Socket housing utilize an egg crate design, fully enclosing socket contacts reducing shock hazard. High density design is achieved through .165" contact centerline spacing.

Features:
- Positive lock design
- Protected contacts reduce shock hazard
- Polarized for proper mating
- Numbered cavities simplify circuit identification

Specifications:
- .165" contact centerline spacing
- 26-18AWG wire size
- UL94V-0 flammability rating
- UL Recognized, CSA Certified

These nylon housing connectors are used throughout the world in appliances, televisions, electronic games, business machines, and computers. All items are UL recognized (file no. E28476) and CSA listed (file no. LR-16455-101). These connectors are totally intermateable/interchangeable (housing for housing; contact for contact; assembly for assembly) with industry standard connectors of the same type.

E28476 E28476

.062" TERMINAL HOUSINGS

- .145" grid spacing
- UL94V-2 nylon natural color
- Accepts 30-18AWG wire
- Polarized
- RoHS Compliant per Tyco Electronics documentation

0.8MM FREE HEIGHT CONNECTORS FOR PARALLEL BOARD STACKING

AMP 0.8mm FH surface mount connectors are designed for parallel board stacking applications using subminiature connectors to meet today's electronic industry requirements for high density packaging. It is possible to save more than 50% of the required board space when compared to conventional 1.27 [.050] centerline connectors.

Features:

- Board stacking heights from 5mm [.197] to 16mm [.630] (in 1mm [.039] increments)
- Surface mount solder leads permit fast assembly operation
- UL File No. E28476

Applications:

- Notebook PCs
- Pen Pads
- Cellular Telephones

Specifications:

- Voltage Rating: 100 VAC
- Current Rating: 0.5 ampere
- Contact Resistance: 30 milliohms max.(initial)
- Dielectric Withstanding Voltage: 500 VAC (1 minute)
- Operating Temperature: -40°C to +85°C (including terminal temp rise)
- Housing: High temperature thermoplastic, natural color, UL94V-0

Vertical Receptacles

Features:

- Contacts: Beryllium copper duplex plated 0.00020 [.000008] min. gold contact area, 0.00100 [.000039] min. tin-lead on solder area, with entire contact underplated 0.00130 [.000051] min. nickel
- Preloaded with unique bellows-type spring contacts for reliable electrical connection with plugs
- Mates with Plugs-Series 177984, 179029, 179030 and 179031

For quantities of 200 and up, call for quote.

AMP 4.20mm PE Series Connectors

Tyco Electronics
Authorized Distributor

Low cost, wire-to-wire and wire-to-board connectors with 4.2 mm x 4.2 mm (.165") centerlines. Can be used in computer motherboards, harness assemblies, car alarms and heating systems.

Easy mate and unmate with positive latch design. Plug housings accept pin contacts and receptacle housings accept socket contacts.

Electrical:
- Voltage: 600 VAC
- Current: 9 amps max. in 2-position applications

Material:
- Housing: Nylon, UL 94V-2
- Contacts: Brass or Phosphor bronze with tin or gold plating
- Pitch: 4.2mm (.165")

AVX I/O and IDC Connectors

RoHS Compliant This page of product is compliant.

A KYOCERA GROUP COMPANY

9157 SERIES I/O CONNECTORS

Features:

- Patented 20° angled face on socket gives self-cleaning face when mated with plug
- Metal Latching area integral to socket which saves PCB real estate
- Integral to socket is a mechanical 50Ω switching coax SMT termination

Specifications:

- 15 signal contacts on 1mm pitch rated at 1.5A
- RoHS compliant per AVX documentation

RoHS Compliant

For quantities of 250 and up, call for quote.

9257 SERIES REDUCED SIZE I/O CONNECTORS

Features:

- No latching is required due to click design of contacts
- Compact size to optimize PCB real estate
- Metal outer cover provides integrated PCB location and solder tab

Specifications:

- 5K mating cycles and 1A rated
- Socket houses 16 contacts, 2 rows on 1.25mm pitch
- Socket has rating 1 Amp per contact
- RoHS compliant per AVX documentation

RoHS Compliant

For quantities of 250 and up, call for quote.

8284 SERIES SINGLE ROW IDC CONNECTORS .100" (2.54MM)

Features:

- Header is 1 piece insulator with various termination options
- Socket is 2 piece insulator design with IDC contacts suitable for termination to 26/28 AWG Stranded ribbon cable or dip solder terminations

Specifications:

- Material: Molding - UL94VO rated gray polyester
- Current Rating: 1.5 Amp maximum at 25°C, 1 Amp maximum at 70°C
- Voltage Rating: 350V DC or AC peak
- Operating temperature: -55°C to +125°C
- RoHS compliant per AVX documentation

RoHS Compliant

For quantities of 250 and up, call for quote.

9176 SERIES DISCRETE WIRE TO BOARD IDC CONNECTORS

Features:

- Small single row IDC
- Uses stranded wire 18 to 24 AWG
- Insulators are end to end stackable for higher pin counts

Specifications:

- Rated at 10 Amps
- Insulation Material: High-temp Nylon 46
- Current Rating: 1A continuous through all contacts at 25°C
- RoHS compliant per AVX documentation

RoHS Compliant

For quantities of 250 and up, call for quote.

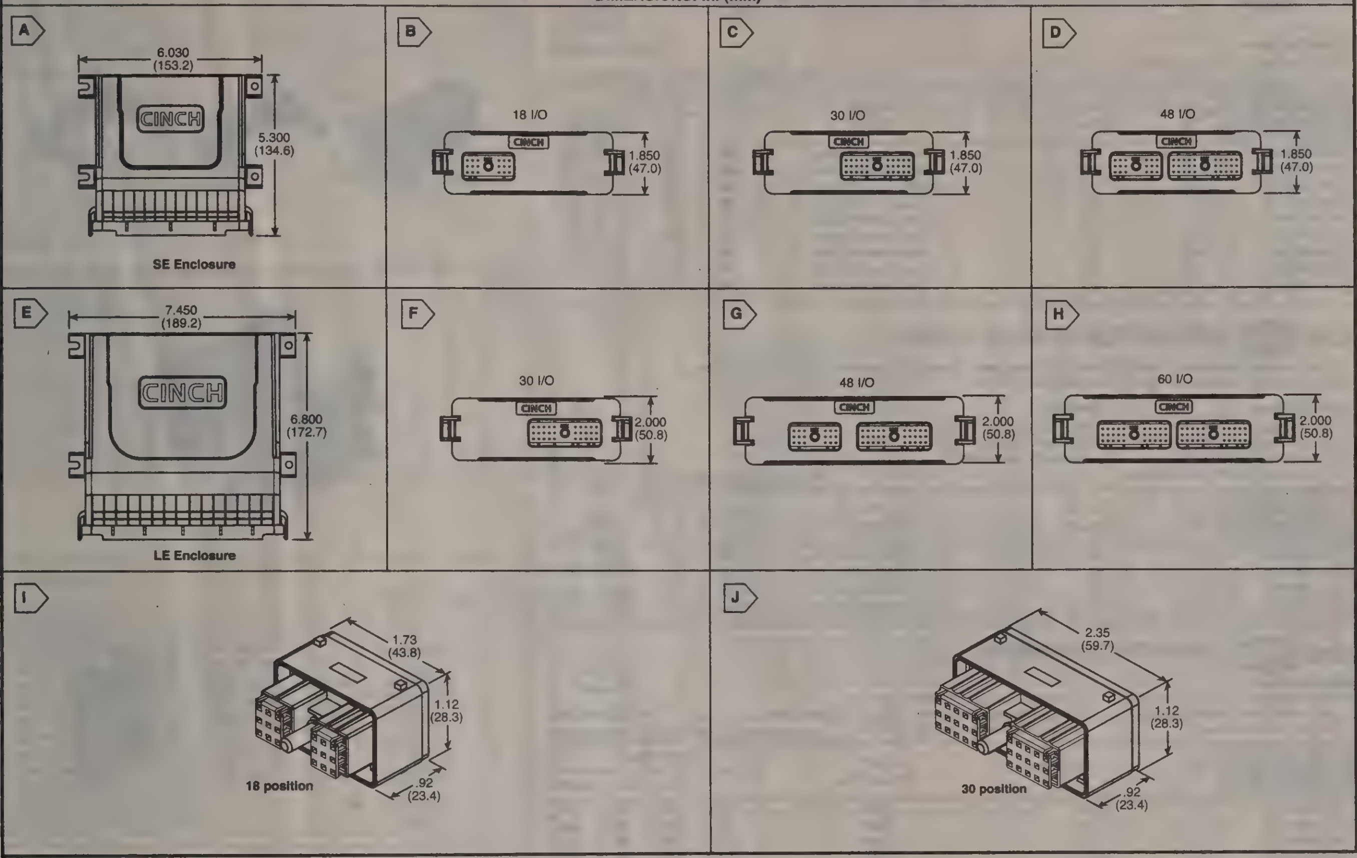
CINCH Modular Integrated Connector Enclosures

DIMENSIONS: in. (mm)



ModICE offers a high quality sealed electro-mechanical interface and is rated IP67 and IP69.
Ideal for use in On/Off highway vehicles, agricultural, construction or material handling equipment and other specialty applications.

Features:

- Rugged connector enclosure system
- Header suited for wave and reflow soldering
- Header modularity allows for various designs (Coax, Power I/O, etc.)
- Heat Sink Option
- Ferrite Filtering Option
- Interfaces with Cinch SHS, industry standard harness connectors
- Simple Assembly
- Headers are preinstalled with contacts
- Measurements: SE: 6.030" (153.2) x 5.300" (134.6)
  LE: 7.450" (189.2) x 6.800" (172.7)

Materials:

- Enclosure: Glass filled polymer
  Glass filled, high temperature, polymer
- Left and Right Side: Spring needed for enclosures with a heat sink
- Terminals: Brass. Post Tin plated. Seals: Silicone

SHS HARNESS CONNECTORS

To configure harnesses to mate with the headers, please add the total positions of each harness in combination to match the number of positions of the header. For example :
One 18 position harness, 538-581-01-18-023 and one 30 position harness, 538-581-01-30-028 are to be used to mate with the 48 position I/0 header. One 30 position harness, 538-581-01-30-028 and one 30 position Alternative Key harness, 538-581-01-30-029 are to be used with the 60 pos I/O header.

For quantities of 10 and up, call for quote.

KOBICONN IDC DIP FLAT CABLE PLUGS

DIP plug connectors are ideal for board-to-board or MPU emulation. Ribbed and grooved for positive cable positioning. They provide a low cost interconnect with excellent contact reliability.

Specifications:
- Current rating: 1A
- Insulation resistance: $10^{10}\,\Omega$
- Breakdown voltage: 500VDC
- IDC wire size: 28 AWG/.050" Spacing

Features:
- IDC mass termination
- Gold plated contacts
- Mates with .050" flat cable

RoHS Compliant

For quantities of 1000 and up, call for quote.

KOBICONN SHORTING JUMPERS

Specifications:
- Fits all standard .100" space headers
- Low insertion and withdrawal forces
- Nail grip for easy removal
- Phosphor bronze gold flash over nickel
- Open-ended option permits stacking and probe testing
- Operating temperature: 55°C to 105°C

RoHS Compliant

For quantities of 2000 and up, call for quote.

KOBICONN DIP THROUGH PIN COMPONENT HEADERS

Component headers allow discrete components to be assembled to a standard SIP/DIP base. It then can be plugged into a socket or soldered directly to a PC board.

Specifications:
- Insulator: PBT 30% glass filled polyester
- Contact: precision machined,gold plated brass
- Pin: gold plated brass
- Current rating: 1A
- Temperature range: -55°C to +125°C

For quantities of 2000 and up, call for quote.

3M INTRA-CONNECTORS

The Intra-Connector makes inaccessible circuits accessible for testing by providing probe pins in-line between ribbon cable sockets and standard mating. .100" x .100" board connectors.

Specifications:
- Includes one set of female contacts and two sets of male contacts at right angles
- Male contacts are standard .025" square pins

For quantities of 10 and up, call for quote.

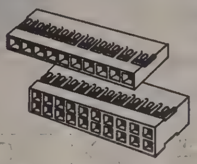
MINI-LATCH PV™ HOUSING

For use with dual metal Mini-PV™ contacts and crimp-to-wire pins. Allows simultaneous connections of Mini-PV™ terminated conductors on .100" x .100" or .100" x .200" double row to accommodate Mini-PV™ receptacles or crimp-to-wire male pins. Accepts crimp-to-wire Mini-PV™ range AWG 22-36 and crimp-to-wire pin AWG 22-32. Mates with .64mm (.025") square pin with length of 5.08mm (.200") min. to 6.22mm (.245") max.

Features:

- Made of modified polyphenylene oxide
- Rated UL 94V-1
- Color: black
- Insulation resistance: 1×10^5MΩ min.
- Temperature range: -40°C to +105°C
- Withstanding voltage: 100Vrms at sea level
- Latching force: 6.5 lbs. min. per position
- Optional polarization plug
- RoHS compliant per FCI documentation



RoHS Compliant

Single Row, .100" x .100" Centers

For quantities of 500 and up, call for quote.

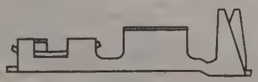
BERGCON® CRIMP-TO-WIRE MINI-PV™ RECEPTACLES

Mate to .019" and .025" round or square pins. Dual-metal contact design provides constant retention force after repeated cycles. These female receptacles have beryllium-copper spring and brass body and offer superior electrical and mechanical characteristics. Standard spring force is recommended for use in Mini-Latch™ housings 40-72 positions. High spring force for Mini-Latch housings 10-50 positions. Reel versions are available.

* 1 = 30μ" gold over nickel with gold flash
2 = 15μ" gold over nickel with gold flash
3 = 100μ" tin-lead
4 = 40μ" gold over nickel with gold flash
5 = 100μ" tin



RoHS Compliant

- RoHS Compliant per FCI documentation

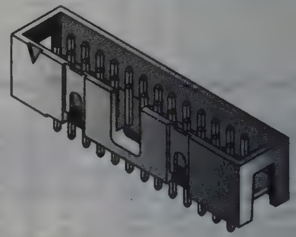
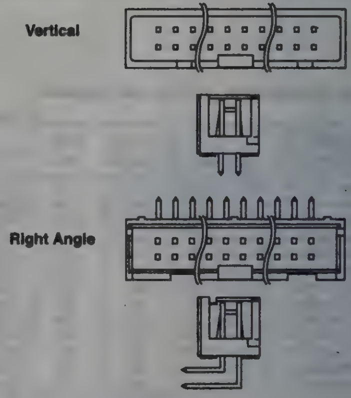
C





QUICKIE™ II IDC DUAL-BEAM RECEPTACLES

Round Conductor, Flat Cable IDC Connectors

- Housing material: Glass-filled thermoplastic polyester
- Contact area plating: 0.76μm (30μ") Gold
- Color: Blue
- Insulation resistance: 50,000 MΩ
- Current rating: 1A continuous
- Temperature range: -65°C to + 105°C
- Contact resistance: 15 mΩ max
- Mating data: Mates with 0.64mm (0.025") square or round pin from 4.32mm (0.170") min to 6.35mm (0.25") max. A nominal 5.84mm (0.23") is recommended.
- Dual wire entry
- Double-scalloped cable slot assists accurate positioning of the cable over the contacts
- RoHS compliant per FCI documentation

RoHS Compliant

For quantities of 200 or more, call for quote.

CONAN™ 1.00MM (.039") HIGH DENSITY MEZZANINE STACKING CONNECTORS

RoHS Compliant

Features:

- Low-profile, surface-mount connectors for parallel board stacking
- 0.38um PdNi with gold flash finish in contact area; contacts on 1mm (.039") spacing
- Robust high retention connection performs well in mobile applications
- Current rating: 1 Amp per contact
- Options for 4.5mm and 5.0mm stack heights are also available
- Tube-packaged options are listed; tape-on-reel packaging is also available
- RoHS Compliant per FCI documentation

For quantities of 200 and up, call for quote.

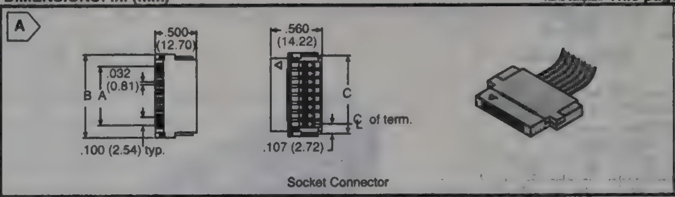
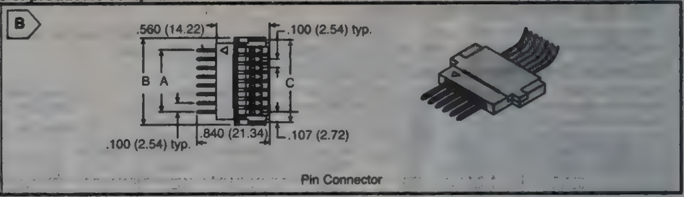
FCI Clincher™ Flat Cable Connectors

DIMENSIONS: In. (mm)

RoHS Compliant **This page of product is compliant.**



Socket Connector



Pin Connector

CLINCHER™ FLAT CABLE CONNECTORS

Single row high performance .100" (2.54mm) connector system

RoHS Compliant

Features

- Clinching portion of contact forms gastight crimp to prevent contamination
- Cable connectors are mass terminated without cable stripping
- Terminates flat flexible cable or flexible etched circuitry for wire-to-board or board to board applications
- .30" standoffs aid in PCB cleaning
- Mates with .025" (.635mm) square or round pins on .100" (2.54mm) centers
- Dual metal PV receptacle contacts provide excellent electrical and mechanical performance
- RoHS Compliant per FCI Documentation

Specifications:

- Receptacle housing: polypropylene (UL94V-0)
- Header housing: LCP (UL94V-0)
- Color: Receptacle: blue; Header: black
- Temperature range: Receptacle: -65°C to +105°C; Header: -55°C to +130°C
- Header pins: phosphor-bronze
- Insulation resistance: 5 MΩ
- Contact resistance (receptacle): 15 MΩ max
- Receptacle contact: copper alloy with BeCu Spring
- Current rating (receptacle): 2.0 amps
- Withstanding voltage: 1,000 V AC rms
- Pitch: .060"

Receptacles (Female)

For quantities of 200 and up, call for quote.

BERGSTAK® .80MM HIGH DENSITY, BOARD-STACKING CONNECTORS

Ideal for applications such as Mobile Phones, PDA's, Pagers, Digital Cameras, Servers, and Office Equipment. Parts listed do not have vacuum pickup cap.

RoHS Compliant

Specifications:

- Housing Material: LCP
- Contact Base Material: Copper alloy
- Contact Area Plating: 8µ" (.20µm) gold
- Contact Underplating: 50µ" (1.27µm) nickel
- Temperature Range: -40°C to + 85°C
- Insulation Resistance: 500MΩ min. (initial), 100MΩ min. (after test)
- Contact Resistance: 30MΩ max. (initial), 50MΩ max. (after test)
- Current Rating: 0.5A
- Voltage Rating: 100VAC

Features:

- Parallel board-to-board interconnects
- Surface mount
- Blade-on-beam contacts allow "peeling" and prevent "stubbing"
- Polarization peg
- RoHS compliant per FCI documentation

Receptacles

For quantities of 200 and up, call for quote.

VERTICAL PCB MOUNTED RECEPTACLE ASSEMBLIES LOW PROFILE, THRU-MOUNT

RoHS Compliant

Features:

- Top entry PC board mount receptacles can be stacked side-by-side on .100" centerlines
- Preloaded dual cantilever beam phosphor bronze contacts plated with 30µ" gold in contact area
- 100µ" tin-lead in solder area and 50µ" nickel underplated overall
- Solder tail length: .115"
- Molded housings: Rated UL 94V-O, feature beveled "lead-in" ramps to prevent pin-stubbing
- Mate with .025" square pins
- RoHS Compliant per FCI documentation

For quantities of 200 and up, call for quote.

VERTICAL SMT LOP PROFILE RECEPTACLES

RoHS Compliant

Features:

- The Dubox™ contact has a pre-stressed, dual beam design to enable low insertion force
- Floating solder tails self-center on circuit pads and assure coplanarity
- 4-wall contact design for signal protection
- RoHS Compliant per FCI documentation

FCI 2.00mm (.079") Shrouded and Unshrouded Connectors

RoHS Compliant **This page of product is compliant.**

MINITEK™ PIN-IN-PASTE CONNECTORS

Pin-in-Paste (PiP) processing technology enables through-mount components to be soldered using conventional reflow soldering processes and can eliminate the need for a separate wave soldering operation in the process flow. It is ideal for industrial applications such as process control units, payment terminals, and control boards.

RoHS Compliant

Specifications:
- Housing Material: High Temperature Black Thermoplastic
- Color: Black
- Flammability Rating: UL 94 V-0
- Temperature Range: -55°C to +125°C
- RoHS compliant per FCI documentation

.100" VERTICAL PCB MOUNTED RECEPTACLE ASSEMBLIES, THRU-MOUNT

Features:

- Designed for parallel board-to-board stacking on .100" x .100" centerlines
- Dual metal PV brass contacts duplex plated with 30μ" gold in contact area, 100μ" tin-lead in solder area, and 50μ" nickel underplated overall
- Beryllium copper thermoplastic polyester housings, rated UL 94V-0
- Spring member plated with gold flash
- Mate with .025" square or round pins
- Tail Material: Tin-Lead
- RoHS Compliant per FCI documentation

RoHS Compliant

For quantities of 500 and up, call for quote.

VERTICAL LATCHING SYSTEM II (2.54MM X 2.54MM / .100" X .100") CENTERLINES

Features:

- Uses Mini-PV™ receptacles and drawn-wire pins for high reliability
- Passive latching
- Single and double row configurations occupy minimal real estate

Specifications:

- Material: PCT (UL 94 V-0)
- Color: Black
- Plating: 0.76μm (30μ") gold over 1.27μm (50μ") nickel
- RoHS Compliant per FCI documentation

RoHS Compliant

For quantities of 500 and up, call for quote.

LOW-PROFILE SHUNT JUMPER SYSTEM

Economical, stackable jumper systems are applicable for bussing, programming, and switch replacement. Standard two-position for .100" centers. Low-profile shunt stands .200" above PC board. Dual-beam, phosphor-bronze contacts, and black glass-filled thermoplastic polyester housing, rated UL94V-0. Shunts mate with .025" square and round pins.

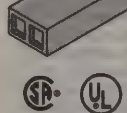
SYSTEM MINI JUMP SHUNTS

- 1 Row: 2 Positions
- Reliable cost-effective alternatives to switches for on-board programming
- PV contacts have beryllium-copper springs to provide high retention and normal forces for excellent electrical performance after repeated cycle
- Stackable on 2.54mm (0.100") centers
- Closed top protects fingertips during application, but can be opened for inspection and testing
- Mates with .025" square or round pins



Specifications:

- Housing: Thermoplastic polyester UL94V-0, Blue
- Contact: Body Material: Brass; Spring Material: Beryllium-copper
- Current rating: 3 A max per contact
- Temperature rating: -55°C to +120°C
- RoHS Compliant per FCI documentation

- Contact Material: Copper Alloy
- Durability (Mating Cycles): 50
- Current Rating: 0.45A per contact at 30°C rise
- RoHS Compliant per FCI documentation

RoHS Compliant

For quantities of 25 and up, call for quote.

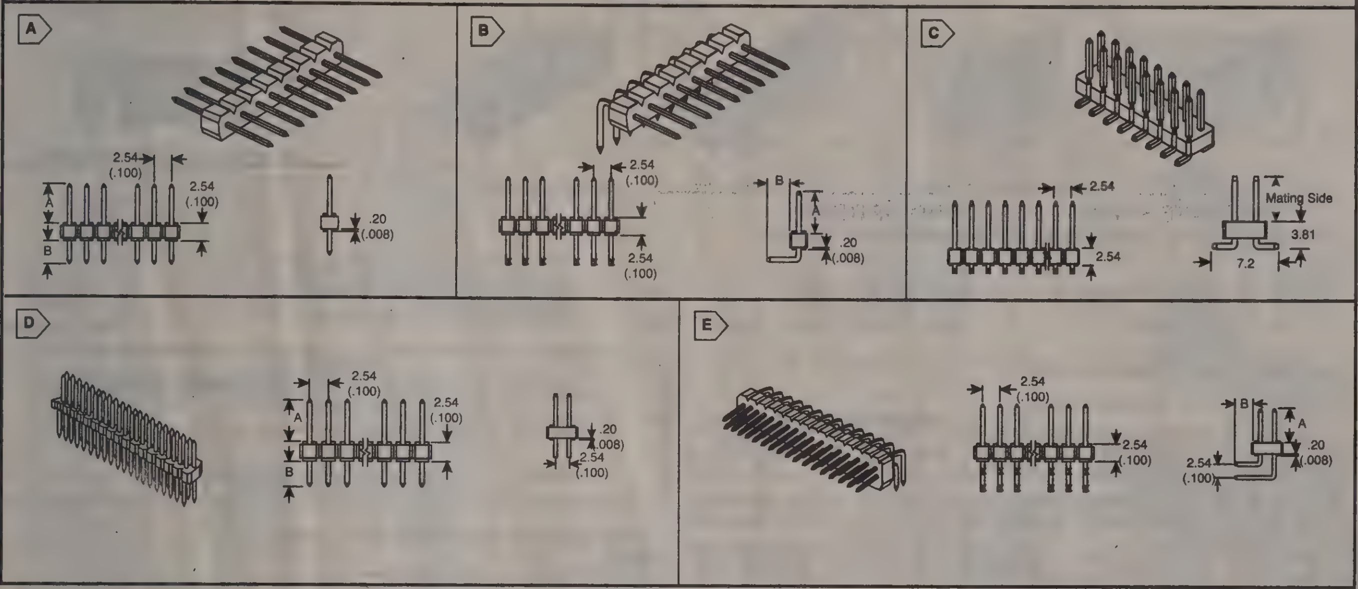
* Au over Ni with special contact geometry to meet requirements of Teleordia GR-1217.

FCI BergStik™ Unshrouded Breakaway Headers

RoHS Compliant **This page of product is compliant.**

DIMENSIONS: mm (In.)



Features:

- "Breakaway" design can be cut or broken to length to suit application
- Centerline pin spacing: .100"
- Insulation resistance: 5000MΩ min.
- Withstanding voltage: 1500VAC rms (sea level)
- Current rating: 3 amp continuous
- Temperature range: -65°C to +130°C

† Plating (Finish):
1 = 30μ" Gold over nickel
2 = 15μ" Gold over nickel
4 = 100μ" Tin over nickel

.100" SINGLE ROW HEADERS

RoHS Compliant

- RoHS Compliant per FCI documentation

For quantities of 1000 and up, call for quote.

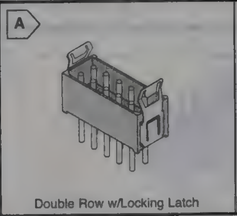
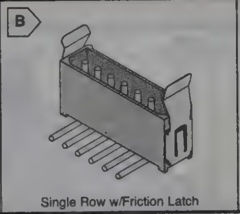
L-Tek High Reliability 2mm Datamate Connectors

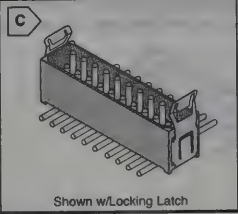
HARWiN

A


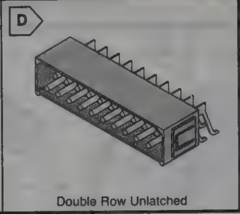
Double Row w/Locking Latch

B


Single Row w/Friction Latch

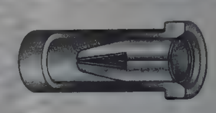
C


Shown w/Locking Latch

D


Double Row Unlatched

3 AMP Four Finger Berylium Copper Contact



Standard in all L & J Tek Female Connectors

L-TEK DATAMATE SERIES - 3 LATCHING OPTIONS: LOCKING LATCH, FRICTION LATCH, WITHOUT LATCH

Features:

- Mates with all L-Tek Series Connectors
- Professional connector system at commercial prices
- Ideal for COTS applications
- Proven history in Mil/Aero applications
- Environmental Classification -55°C / 125°C / 56 days at 95% RH
- Male Contacts: Phosphor bronze
- Durability: 500 operations
- Complies with BS9525-F0033/Mil C 55302/CECC 75101-008
- Proven performance in high vibration applications
- Mouldings: Glass-filled thermoplastic UL94V-0
- Female Contacts: Brass shell, with 4 finger beryllium copper contact
- RoHS compliant per Harwin Documentation

RoHS Compliant

L-Tek Male PC Tail Connectors - Vertical

Features:

- Selective Gold Plating
- Fully shrouded contacts
- Polarized mouldings

For quantities of 50 and up, call for quote.

LATCHING OPTIONS

Locking Latch:	The opening in the locking latch allows it to physically snap onto the mating half for additional retention force.
Friction Latch:	The friction latch is solid, which allows additional retention without physically locking onto mating half.
Unlatched:	The unique design of the four leaf Berylium Copper contacts provides retention force for unlatched options.

L-Tek Male Surface Mount Connectors - Vertical

Features:

- Selective Gold Plating
- Polarized mouldings
- Double Row

For quantities of 50 and up, call for quote.

L-TEK HIGH RELIABILITY 2MM PRE-CRIMPED DATAMATE ASSEMBLIES WITH 18" LEADS

Features:
- Pre-assembled with 18" crimped leads inserted into the housing
- Housings: Glass filled PPS UL94V-0, Black
- Contact Plating: Gold
- Current rating: 3.0 amps
- AWG: 26 and meets MIL-W-16878
- Males supplied with Locking Latch.
- RoHS compliant per Harwin documentation
- Different color wire for each contact

RoHS Compliant

For quantities of 50 and up, call for quote.

MIX-TEK MIXED TECHNOLOGY DATAMATE JACKSCREW CONNECTORS

Power, Signal and Coax integrated in one connector.

Available in wire-to-board, board-to-board, and wire-to-wire applications. Contact sales for options not shown in catalog.

Features:
- Housings: Glass filled PPS UL94V-0, Black
- Contact Plating: Gold
- Signal Current rating: 3.0A
- Power Current Rating: 20A max
- Frequency Range: 6GHz max
- Impedance: 50Ω
- RoHS Compliant versions available.
- AWG: Small bore 24-28, large bore 22, power contacts 12-16
- Mix and match to meet your requirements
- Thousands of combinations possible
- With Jackscrews
- Polarized moldings

For quantities of 50 and up, call for quote.

HARWIN J-Tek High Reliability 2mm Connectors

These surface mount connectors are designed to mate with all double row female J-Tek Datamate connectors.
They are also available in 6, 12, 14, 18, 26, 34, and 42 contact positions. Contact sales for more information.

Features:

- Professional connector system at commercial prices
- Ideal for COTS applications
- Proven history in Mil/Aero applications
- Environmental Classification: -55°C / 125°C / 56 days at 95%RH
- Complies with BS9525-F0033/Mil C 55302/CECC 75101-008
- Available in avariety of positions not shown
- Mouldings: Glass-filled thermoplastic UL94V-0
- Proven performance in high vibration applications
- Female contacts: Brass shell with 4 finger beryllium copper contact
- 3 Amps per contact
- Male contacts: Phosphor bronze
- Contact resistance: 20mΩ max.
- Insulation resistance: 100MΩ min. at 500VDC
- Durability: 500 operations
- RoHS compliant per Harwin Documentation

J-TEK MALE PC TAIL JACKSCREW CONNECTORS

- Fully shrouded contacts
- Polarized mouldings
- Jackscrews are assembled
- 3mm PC Tail length (4.5mm tails available)
- Double row
- Mate with J-Tek Female PC Tail and Crimp connectors below
- Selective Gold plating

RoHS Compliant

For quantities of 50 and up, call for quote.

HARWIN M22 Series Fine Pitch Connectors

RoHS Compliant This page of product is compliant.

2MM SINGLE ROW HEADERS

- Moulding Material: High Temperature Plastic, UL94V-0
- Current Rating: 2A per single contact, 1A all contacts
- Contact Resistance: 30 mΩ max
- Voltage Rating: 250V AC/DC
- Insulation Resistance: 100 MΩ min
- Contact Material: Copper Alloy
- Plating: Gold
- 2.4mm tails
- RoHS Compliant per Harwin Documentation

RoHS Compliant

For quantities of 50 and up, call for quote.

HARWIN M22 Series Fine Pitch Connectors

RoHS Compliant **This page of product is compliant.**

2MM PITCH JUMPER SOCKETS

For use with any M22 unshrouded pin headers.

- Can be fitted and removed by hand, giving an alternative to DIP Switches for on-board programming.
- Open top for use with test probe and end/side stackable
- Moulding: Glass filled Polyester UL94V-0
- Temperature Range: -40°C to 85°C
- Current Rating: 2 Amps
- Voltage: 250V AC/DC
- RoHS Compliant per Harwin Documentation

RoHS Compliant

For quantities of 50 and up, call for quote.

2MM FINE PITCH SOCKETS

- PC Tail Sockets have 2.6mm tails.
- Moulding Material: High Temperature Plastic, UL94V-0
- Contact Material: Phosphor Bronze
- Current Rating: 2A per single contact, 1A all contacts
- Plating: Gold, Tin
- Voltage Rating: 250V AC/DC
- Contact Resistance: 30 mΩ max
- Insulation resistance: 100 MΩ min
- RoHS Compliant per Harwin Documentation

RoHS Compliant

For quantities of 50 and up, call for quote.

2MM CRIMP HOUSINGS

- Moulding Material: Nylon, UL94V-2
- Contact Material: Phosphor Bronze
- Current Rating: 2A per single contact, 1A all contacts
- Plating: Gold, Tin
- Voltage Rating: 250V AC/DC
- Contact Resistance: 30 mΩ max
- Insulation resistance: 100 MΩ min
- RoHS Compliant per Harwin Documentation

RoHS Compliant

For quantities of 50 and up, call for quote.

JAE Surface Mount Connectors

RoHS Compliant This page of product is compliant.

FF02 SERIES: 0.30MM SMT BOARD-TO-FLEX CONNECTORS

Features:
- Low profile 1.2mm above board
- CAM Locking Structure makes FPC lining unnecessary and helps to absorb shock caused by fall resulting in much higher mating reliability

Specifications:
- FPC type: 0.3mm pitch, 0.12mm thickness with reinforcement
- Curemt Rating: AC/DC 0.35A per contact
- Dielectric Withstanding Voltage: AC 250 V rms per minute
- Voltage Rating: AC/DC 50V per contact
- RoHS Compliance per JAE documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

MOUSER STOCK NO.	JAE Part No.	Fig.	Pos.	Description	Price Each

WH1 SERIES: 0.40MM BOARD-TO-BOARD CONNECTORS

NEW FROM SUPPLIER

Features:
- Contact structure with high abrasion resistance and roll contacts with contact reliability
- Separate 2-point contact design to resist twisting stress
- Simple lock structure with assuring click response
- Solder migration countermeasure for plug and receptacle, (nickel barrier for contact)

Specifications:
- Current Rating: AC/DC 0.4 Amp per position
- Voltage Rating: AC/DC 50V
- Insulation Resistance: 100MΩ min. (initial)
- Dielectric Withstanding Voltage: AC250V rms per minute
- RoHS Compliance per JAE documentation

RoHS Compliant

IL-FPR SERIES: 0.50MM SMT ZIF BOARD-TO-FLEX CONNECTORS

Features:
- Low profile 2.0mm above board (Right-angle type)
- A slider enables insertion/extraction of FPC without applying force (Zero Insertion Force)
- Designed to avoid defective mating
- FPC type: 0.3mm thickness with reinforcement

Specifications:
- Current Rating: AC/DC 0.5 Amp per contact
- Dielectric Withstanding Voltage: 250 VAC rms (for one minute)
- RoHS Compliance per JAE documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

FA5 SERIES: 0.50MM SMT FPC BOARD-TO-FLEX CONNECTORS

Features:
- Low profile connector for PCB-to-FPC
- ZIF structure for easy insertion and removal of FPC
- Hold down structure with winding and strain protection
- Connector mounting height 1.45mm(.057"), low profile structure

Specifications:
- Current Rating: 0.8 Amp per contact
- Dielectric Withstanding Voltage: 250 VAC rms (for one minute)
- RoHS Compliance per JAE documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

FA5B Series Illustrated

JAE Surface Mount Connectors

RoHS Compliant **This page of product is compliant.**

WR SERIES 0.50MM LOW PROFILE SMT BOARD-TO-BOARD CONNECTORS

- For connection between parallel boards spaced 4 to 9mm
- Ribbon type contacts ensure reliable electrical continuity, resisting twisting force of coupling
- RoHS Compliance per JAE documentation
- Current Rating: 0.3A
- Operating Temperature: -40° to +85°C

RoHS Compliant

IL-312 SERIES 0.50MM LOW PROFILE SMT BOARD-TO-BOARD CONNECTORS

- For connection between parallel boards spaced 2.5 to 3.5mm
- Black heat resistant insulators
- Contacts: Copper Alloy
- Current Rating: 0.3A
- Operating Temperature: -40° to +85°C
- For use in applications that require boards to be stacked
- RoHS Compliance per JAE documentation

RoHS Compliant

DA1 SERIES 0.60MM SMT PCB TO CABLE CONNECTORS

- Mating Height: 3mm
- Current Rating: 0.5A
- Insulator: Black Nylon - UL94V-0
- Pin Contact: Gold Plated Copper Alloy
- Plug color: gray
- RoHS Compliance per JAE documentation

RoHS Compliant

KX14 / KX15 SERIES 0.80MM LOW PROFILE SMT BOARD-TO-BOARD CONNECTORS

- For connection between parallel boards spaced 4 to 15mm
- Polarization key prevents mismating
- Resistant to vibration and twisting
- Contact: Copper Alloy
- Current Rating: 0.5 Amps
- Operating Temperature: -40° to +85°C
- For use in applications that require boards to be stacked
- RoHS Compliance per JAE documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

FI-X SERIES 1.0MM PCB BOARD-TO-FLEX CONNECTORS

- Improved ground condition which is directly related to EMI characteristics
- Compatible with high-speed differential transmission and high-level impedance matching (90Ω to 100Ω)
- Current Rating: AC/DC 1 Amp per contact
- Bottom type structure provides 1.5mm (.059") connector height and 1mm (.039") height above the PCB
- RoHS Compliance per JAE documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

TX24 / TX25 SERIES 1.27MM OC BOARD TO PC BOARD CONNECTORS

For connections between parallel boards spaced between 12 to 24mm (2mm increments). Rugged with mating guide suitable for mounting on rack or panel. Ribbon type contacts ensures reliable electrical continuity, resisting twisting force of coupling. Suitable for applications such as: computers, OA equipment, communications equipment, measuring instruments, factory automation equipment, etc....

Specifications:

- Current rating: 1Amp
- Mating side contact finish: Gold over nickel
- Withstanding voltage: 500VAC r.m.s. (for 1 minute) (initial) or 250VAC r.m.s. (for 1 minute) (after stress)
- Through-hole
- Operating temperature: -40°C to +80°C
- Insulation resistance: 100MΩ min. (initial) or 10MΩ min. (after stress)
- Contact resistance: 40mΩ max. (initial) or 60mΩ max. (after stress)
- RoHS Compliance per JAE documentation

RoHS Compliant

For quantities of 100 and up, call for quote.

SF2, SF7 AND SF9 SIM CARD SMT CONNECTORS

- Supports GSM 11.11 standard compliant plug-in SIM Card
- RoHS Compliance per JAE documentation

∗Super low profile with a height of 0.5mm from the board
∗∗Easy operation hinge slide lock mechanism
† Space saving tray type design

RoHS Compliant

For quantities of 250 and up, call for quote.

SC1, SC2, SG3, SG5, ST1, AND ST2 SMALL MEMORY CARD CONNECTORS

- Small and low profile connectors
- Contact Resistance: 100mΩ or less
- Push-push structure to minimize space
- Rated Current: 0.5A
- RoHS Compliance per JAE documentation
- Insulation Resistance: 1000MΩ or more

RoHS Compliant

For quantities of 250 and up, call for quote.

JC22 SERIES PC CARD STANDARD TYPE I/II CONNECTORS

- DIP type-standard mounting and frame integrated structure
- Standoff height in 5mm and 17mm for effective utilization of mounting space and heat radiation
- Rated Current: 0.5A per pin
- RoHS Compliance per JAE documentation

RoHS Compliant

For quantities of 250 and up, call for quote.

JC26 SERIES COMPACTFLASH® TYPE I/II CONNECTORS

- Slot mechanism compliant with CFA (Compact Flash Association) Type I/II Card
- Designed with spring-loaded mechanism to prevent card from coming out
- RoHS Compliance per JAE documentation
- 1.6mm Stand-Off option: 7.4mm height on board

RoHS Compliant

For quantities of 250 and up, call for quote.

MILL-MAX In-line Sockets and Headers

1.25mm / .050" INTERCONNECTS

- May be cut to length
- Sockets: 200µ" Tin plated sleeve/ 30µ" Gold plated contact
- Headers: 10µ" Gold Plated
- High temp insulators, for all soldering operations
- Tail Type: Solder
- .016" Diameter Pins
- Voltage: 3A

RoHS Compliant

∗ RoHS Compliant per Mill-Max documentation.

Single Row

.100" SINGLE-IN-LINE SOCKETS

- Contact: 30μ" Gold
- Sleeve: 30μ" Gold or 200μ" Tin
- 64 positions (can be cut down)
- High-Rel 4-finger contacts are rated at 3A
- Sockets accept .015-.025" dia. pins and standard IC leads

For quantities of 1000 and up, call for quote.

MILL-MAX Spring Loaded Connectors and Contacts

.100" SPRING LOADED SURFACE MOUNT CONNECTORS

Features:

- Modular contacts for use on .100" grid, available in lengths from .137" to .430", available in single and double row contact strips
- Precision machined piston/base and gold plated components assure a 1,000,000 min. cycle life
- Pistons have a long stroke relative to the low profile of the assembly
- Low resistance, high current contacts are rated at 2 amps continuous, 3 amps peak
- High temperature thermoplastic insulators are suitable for surface mount processes
- A typical application would be as the base unit (battery/charger) interface for portable equipment such as mobile phones/radios
- RoHS Compliant per Mill-Max documentation

RoHS Compliant

Mechanical Specifications:

- Spring Force @ initial height (A) 25 grams
- Spring Force @ mid stroke (B/2) 60 grams
- Spring Force @ full stroke (B) 95 grams

Materials:

- Contact Piston & Base: Machined copper alloy plated 20µ" gold
- Spring: Beryllium copper plated 10µ" gold
- Insulator: High temp. thermoplastic rated UL94 V-0

Electrical Specifications:

- Voltage Rating: 100Vrms/150Vdc
- Current Rating: 2A (continuous), 3A (peak) per contact
- Contact Resistance: 20mΩ max.
- Insulation Resistance: 10,000MΩ max.
- Dielectric Strength: 700Vrms min.
- Capacitance: 1pF max.

For quantities of 25 and up, call for quote.

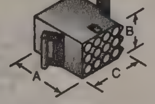
MOLEX Pin and Socket Connectors and Tools
(.062" and .093")

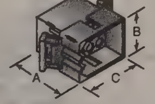
molex
one company › a world of innovation

A



Receptacle

B



Plug

STANDARD .062" RECEPTACLES

- UL94V-2, Nylon
- Friction lock
- Polarized housing assures proper mating
- Male and female terminals may be used in receptacle housings
- Detent Lock
- RoHS compliant per Molex documentation

RoHS Compliant LR19980 E29179

For quantities of 500 and up, call for quote.

MOLEX Pin and Socket Connectors and Tools
(.084"- MLX Series)

PLUGS

Series 42021

Features:

- Intermateable, interchangeable, and intermountable with industry-standard versions
- Positive Locks
- Fully isolated contacts
- Circuit ID grooves to reduce assembly errors
- Anti-stress positioning tabs to reduce breakage
- Mates with: Series 42022 Receptacles and Series 42002 Headers
- Material, plug housing: Nylon, UL94V-2, White
- Operating Temperature: -55° to +105°C
- Voltage: 600V ✻
- UL File No: E29179
- CSA File No: LR19980

LR19980 E29179

For quantities of 1000 and up, call for quote.

✻ Ratings are per circuit, based on fully loaded housings

✻✻ Cap housing should be installed into panel in the same direction as the panel cutout is punched

VERTICAL HEADERS

Features:

- Material: Header Housing: UL94V-2, White
  Header Contact: Phosphor Bronze
  Plating: Tin
- Operating Temperature: -55° to +105° C
- Voltage: 600V ✻
- Amperes ✻: 2, 3, 4 circuits all 13.5
- Amperes ✻: 6, 9, 12, 15 circuits all 11.0

For quantities of 1000 and up, call for quote.

2.54mm (.100") SL™ WIRE TO WIRE CRIMP HOUSINGS

Features:

- Housing: Black glass-filled polyester, UL94V-0
- Mounting ears for insertion into .030" to .090" thick panels
- Locking crown secures positive latch to connector
- Operating Temperature: -40°C to +105°C
- RoHS compliant per Molex documentation

LR19980 E29179

- Series: 70107
- Polarized

RoHS Compliant

For quantities of 1000 and up, call for quote.

2.54mm (.100") SL™ CRIMP HOUSINGS

- Housing: Black glass-filled polyester, UL 94V-0
- TPA: White glass-filled polyester, UL94V-0
- Positive Latch: Secures connectors to locking crown of mating connector
- TPA Piece: Eliminates terminal blackout when TPA is locked into place
- Non-polarized: End to end and side to side stackable

LR19980 E29179 RoHS Compliant

- Operating Temperature: -40°C to 105°C
- Series 70066 and 73838
- RoHS compliant per Molex documentation

For quantities of 1000 and up, call for quote.

2.54mm (.100") SL™ CRIMP HOUSINGS (Cont.)

Features:

- Housing: Black glass-filled polyester, UL94V-0
- Non-Polarized: End to end and side to side stackable
- Polarized: Mates with dual low profile shrouded headers
- Operating Temperature: -40°C to +105°C
- Series 70450
- RoHS compliant per Molex documentation

LR19980 E29179 RoHS Compliant

For quantities of 1000 and up, call for quote.

CRIMP TERMINALS

- Dual tab strain relief
- Locking tang secures terminal in housing
- Phosphor bronze
- Voltage: 250V
- Current: 3.0A

- Operating Temperature: -40°C to +105°C
- Male use with series 70107
- Female use with series 70066 and 70450
- RoHS compliant per Molex documentation

RoHS Compliant

∗ High Force

For quantities of 2000 and up, call for quote.

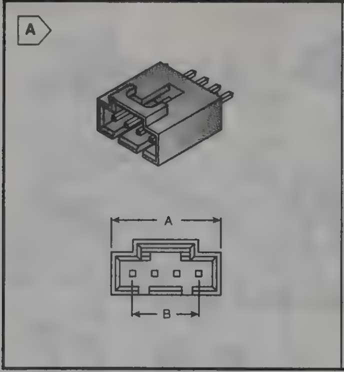
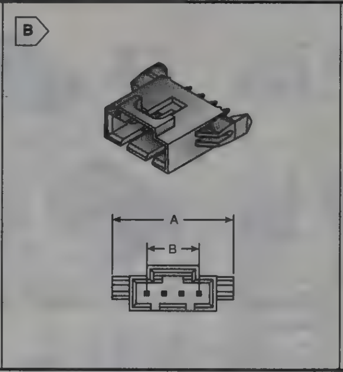
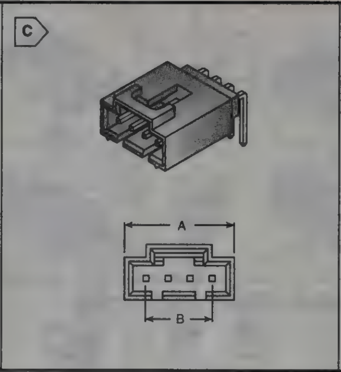
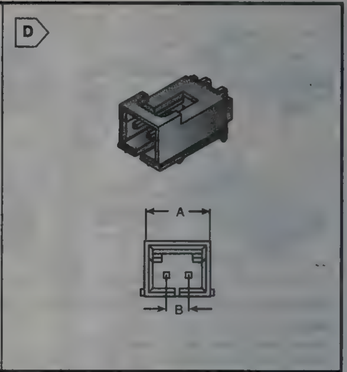
MOLEX 2.54mm (.100") SL™ Shrouded PCB Headers

RoHS Compliant This page of product is compliant.









SINGLE ROW, VERTICAL

Specifications:

- Housing: Black glass filled PCT, UL 94V-0
- Contact: Phosphor bronze, .025" square
- Operating Temperature: -40 to +105°C
- Voltage: 250V
- Current: 3.0A
- .120" Pocket

LR19980 E29179 RoHS Compliant

PCB Headers

Features:

- Locking crown secures positive latch to header
- Standoffs minimize flux retention
- Polarization slots guide front ribs of mating connector to prevent pin damage
- Mates with series 70066
- Surface mount compatible
- Wire to board
- RoHS Compliant per Molex documentation

For quantities of 1000 and up, call for quote.

SINGLE ROW, RIGHT ANGLE, LOW PROFILE

Specifications:

- Housing: Black glass filled PCT, UL 94V-0
- Contact: Phosphor bronze, .025" square
- Operating Temperature: -40 to +105°C
- Voltage: 250V
- Current: 3.0A
- .120" Pocket

LR19980 E29179 RoHS Compliant

PCB Headers

Features:

- Locking crown secures positive latch to header
- Polarization slots guide front ribs of mating connector to prevent pin damage
- Standoffs minimize flux retention
- Surface mount compatible
- Housing: Black glass filled PCT, UL 94V-0
- Contact: Phosphor bronze, .025" square
- Mates with series 70066
- Wire to board
- RoHS Compliant per Molex documentation

For quantities of 1000 and up, call for quote.

MOLEX C-Grid® Series Dual-Row Breakaway Headers (.100") molex

RoHS Compliant **This page of product is compliant.**

.100" (2.54mm) C-Grid® BREAKAWAY HEADERS

Specifications:

- Current: 3.0A
- Voltage: 250V
- Withstanding voltage: 1500V
- Insulation resistance: 1000MΩ min.
- Housing: thermoplastic, high temperature UL 94V-0
- Contact: phosphor bronze
- Operating temperature: -40°C to +105°C

Features:

- Stackable side-to-side and end-to-end (on unbroken edges)
- Easy breakaway to smaller sizes
- Drawn .025" square wire provides 4-sided smooth surface for quality interface
- Mates with SL crimp and IDT housings
- RoHS Compliant per Molex documentation

Vertical Headers

For quantities of 1000 and up, call for quote.

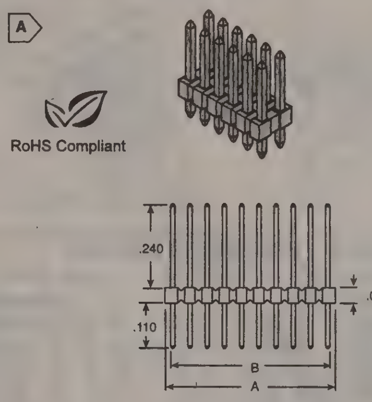
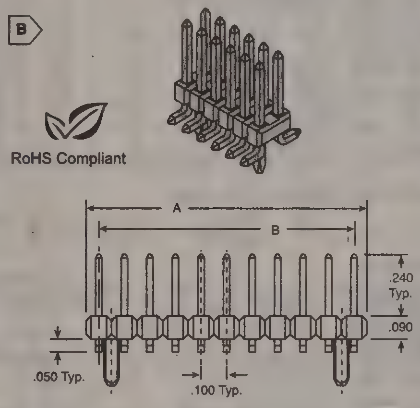
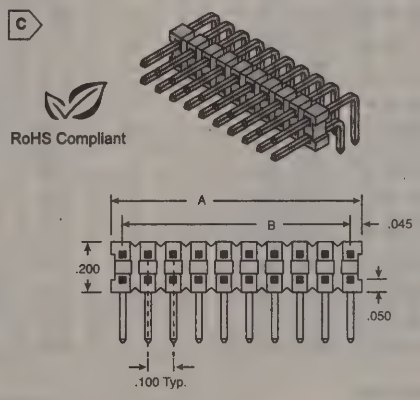
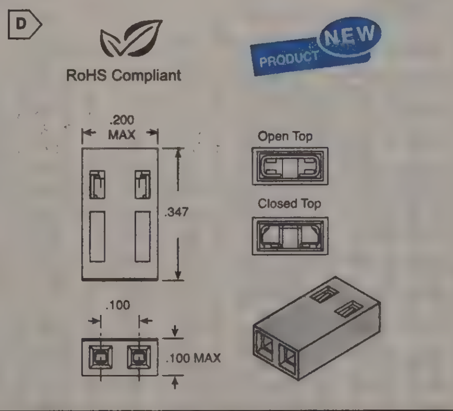
DIMENSIONS: in.



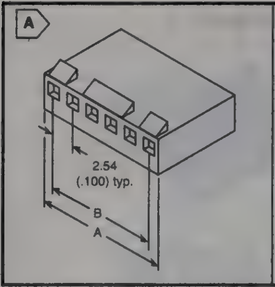


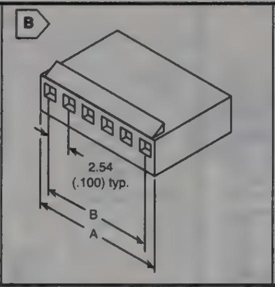


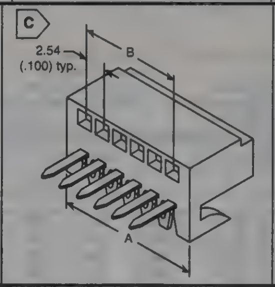


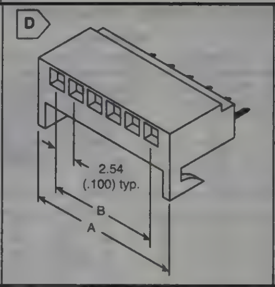
MOLEX KK® Series (.100")

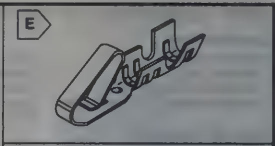
Products may be RoHS compliant.
Check mouser.com for RoHS status.

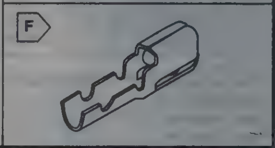












.100" CRIMP TERMINAL HOUSINGS

- Housing: Nylon, UL94V-0
- Voltage: 250V
- Current: Phosphor Bronze-4.0A max; Brass-2.5A max.
- RoHS Compliant per Molex documentation

RoHS Compliant

With Locking Ramp

For quantities of 1000 and up, call for quote.

.100" HIGH PRESSURE / VIBRATION TERMINAL HOUSINGS

- Housing: Red Nylon. UL 94-0
- Current: 2.5A
- RoHS Compliant per Molex documentation
- Voltage: 250V

With Locking Ramp And Polarizing Ribs

For quantities of 1000 and up, call for quote.

MOLEX SlimStack™ SMT Board-to-Board Connectors

RoHS Compliant This page of product is compliant.

0.50MM (.020") SLIMSTACK™ VERTICAL SMT BOARD-TO-BOARD CONNECTORS

Features:

- Durable blade on beam contact interface
- Anti-flux design
- J-Lead type SMT tail is 35% smaller than standard Gull Wing type
- Friction lock provides added mating retention to withstand shock or vibration
- Long wipe length helps provide good electrical reliability
- Applications include cell phones, digital cameras, PDA's and other mobile devices
- RoHS Compliance per Molex documentation

- Board Mounting: SMT
- Plating: Gold
- Mating Style: Vertical

RoHS Compliant

1.50mm Mated Height

- Voltage: 50V • Current: 0.5A

For quantities of 100 and up, call for quote.

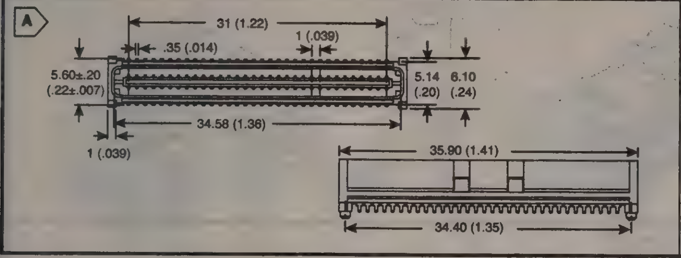
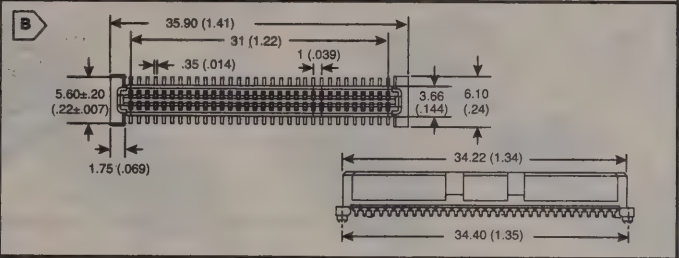
MOLEX Mezzanine Connectors

molex
one company > a world of innovation

RoHS Compliant **This page of product is compliant.**

DIMENSIONS: mm (in.)





1.0MM (0.039") MEZZANINE IEEE 1386 CONNECTORS BOARD-TO-BOARD, SURFACE MOUNT, VERTICAL

Molex's fully shrouded leaf-style design minimizes the chance of damaging plug contacts, and the receptacle contacts feature a low mating force, reducing PC board stress. Gold-over-Nickel contact plating enhances long-term reliability and UL 94V-0 LCP housings withstand SMT reflow processes. Excellent tolerance absorption allows the connector to be used in combinations of 1-4 mated pairs for up to 256 circuits.

Specifications:
- Voltage: 100V
- Current: 1.0A
- Contact Resistance: 30mΩ min.
- Dielectric Withstanding Voltage: 250V
- Insulation Resistance: 1000MΩ min.

Features:
- Housing: Glass-filled LCP, UL 94V-0
- Contact: Phosphor Bronze
- Plating: 30µ" Gold min.
- Operating Temperature: -55°C to +85°C
- Lead Free
- RoHS Compliant per Molex documentation

Applications:
- Network Interface Cards for NIC-HBA
- SCSI Host Bus and Adapter Cards for NIC-HBA

PLATEAU HS MEZZ™ CONNECTOR SYSTEM

Molex utilizes its proprietary Plateau Technology™ (plated gold housing) to provide a high-speed, high-density mezzanine connector system for differential and single-ended signal applications.
The gold-plated plastic shields each differential pair from neighboring pairs, lowering crosstalk and improving signal clarity.
Different stack heights and circuit sizes provide flexibility in design and grounding the conductive housing eliminates the need for individual ground pin designations within the connector.
Engineered for high-speed signaling, Plateau HS Mezz™ has incredible signal integrity performance for today's designs as well as next generation systems.

Specifications:
- Operating Voltage: 30VDC
- Current: 1.5A max. per circuit
- Operating Temperature: -55°C to +85°C
- Durability: 25 cycles

Features:
- Advanced gold-plated plastic housings with integrated shielding system
- Contacts on 1.20mm (.047") centerline pitch arranged in isolated differential pairs on 3.50mm (.138") pitch
- Two points of contact on each signal
- Molded and plated housing pegs
- Supports high-speed differential signaling in excess of 10Gbps with 100±10Ω impedance at 50 psec
- RoHS Compliant per Molex documentation

Applications:
- Switches and hubs
- Routers
- Servers and blade servers
- Workstations
- Storage devices

RoHS Compliant

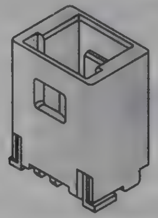
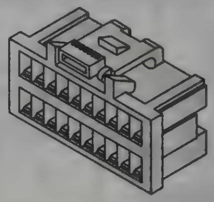
MOLEX Pico-Clasp™ 1.00mm (.039") Pitch Connectors

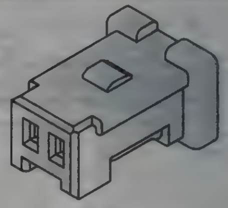
A



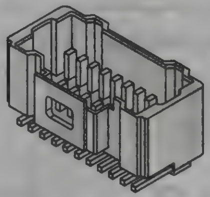
B



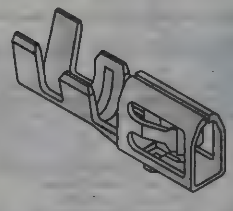
C



D



E



PICO-CLASP WIRE TO BOARD HEADERS

The new 1.00mm (.039") pitch wire-to-board Pico-Clasp™ connector system from Molex was developed for various connections in Flat Panel Displays (FPD). The compact, small circuit size fetures of this system also make it ideal for other applications such as Notebook PCs and other compact devices. The system is offered in both single and dual row versions. Friction and positive locks are offered for various application needs. Other freatures include mating guides, solder tabs and footprint compatibility with some competitive versions.

Specifications:

- Voltage: 50V
- Current: 1.0A max.
- Contact resistance: 20 mΩ max.
- Dielectric withstanding voltage: 250V AC
- Insulation resistance: 100 MΩ min.

Features:

- Smallest pitch for positive lock Wire-to-Board crimp system
- Inner positive lock (6-50 circuit sizes)
- Low mating and un-mating forces
- Wide header variations
- Provides customers with many choices and design flexibility
- Provides space savings for mounting other components
- Prevents wire hooking
- Latch protection and secure mating retention
- Strong mating retention and clear clicking
- Easy connector insertion and extraction

RoHS Compliant

The 1.25mm (.049") pitch PicoBlade™ system is designed for high-density harness applications. It saves about 45% of PCB space compared to typical 2.00mm wire to board systems.

WIRE-TO-WIRE AND WIRE-TO-BOARD RECEPTACLES

Features:
- Series 51021
- Housing lance provides extra terminal retention
- Friction locks provide secure mating
- Use with Series 50079/50058
- Mates with Series 53398, 53261, 53047, and 53048

Specifications:
- Voltage: 125V
- Current: 1.0A, 32 AWG: 0.8A
- Operating Temperature: -40 to +85°C
- Housing: PBTP, UL 94V-0

For quantities of 1000 and up, call for quote.

PCB HEADERS (CONT.)

Features:
- Series 53048
- Locking windows provide secure mating
- Mates with Series 51021
- Wire-to-Board

Specifications:
- Contact: Phosphor Bronze
- Plating: Tin
- Housing: 6/6 Nylon, UL 94V-0
- Voltage: 125V
- Current: 1.0A, 32 AWG: 0.8A
- Operating Temp.: -40 to +85°C

Right Angle

For quantities of 1000 and up, call for quote.

Features:
- Locking windows provide secure mating
- Metal solder tabs provide PCB hold-down and strain relief for SMT tails
- Mates with Series 51021
- Surface Mount
- Wire-to-Board
- RoHS Compliant per Molex documentation.

Specifications:
- Housing: 4/6 Nylon, UL 94V-0
- Contact: Phosphor Bronze
- Plating: Tin
- Solder Tabs: Phosphor Bronze, Tin plating
- Operating Temperature: -40 to +85°C
- Voltage: 125V
- Current: 1.0A, 32 AWG: 0.8A

Vertical, SMT

- Series 53398

1.50MM (.059") PITCH PICO-SPOX™ CONNECTORS

Features:

- Dual-point contact design for greater reliability
- Anti-fishhooking contact design to improve handling during harness assembly
- Locking tang on contact for secure retention to the housing
- Friction lock between receptacle housing and headers insures secure retention when mounted
- Lead-in chamber on receptacle to ease mating
- Headers fully shrouded to protect pins
- Polarized mating geometry insures header and receptacle cannot be mis-mated
- Lead-free plating
- RoHS Compliant per Molex Documentation

Specifications:

- Current: 3.0A max.
- Voltage: 50V
- Terminal: Phosphor Bronze
- Pin: Brass
- Plating: Lead-free Tin
- Operating Temperature: -55°C to +105°C
- Contact Resistance: 40mΩ max.
- Dielectric Withstanding Voltage: 500VAC per minute
- Insulation Resistance: 1000MΩ min.

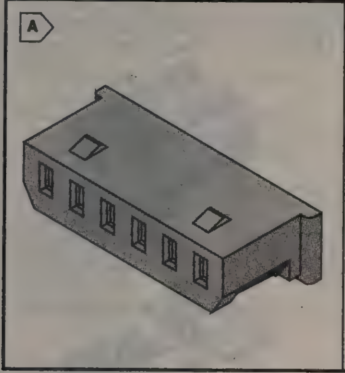
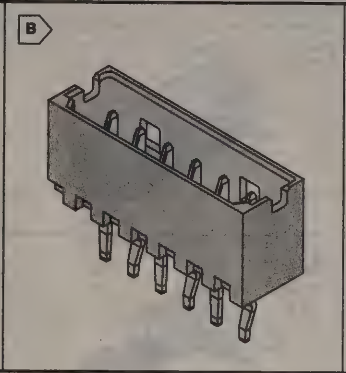
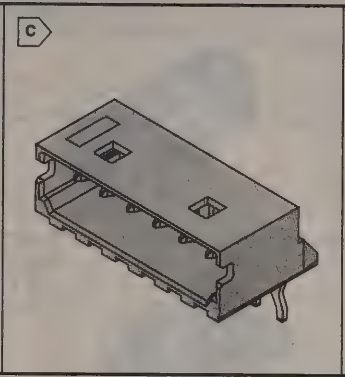
MOLEX MicroBlade™ 2mm Connectors

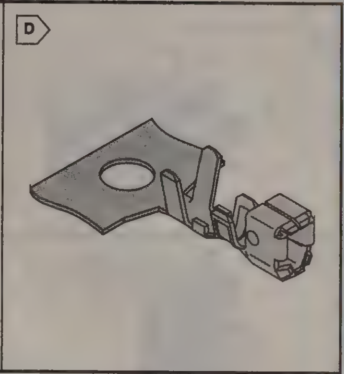
molex
one company > a world of innovation

RoHS Compliant This page of product is compliant.









MICROBLADE™ 2.00MM (.079") PITCH WIRE-TO-BOARD CONNECTOR SYSTEM

Molex's MicroBlade™ connector system provides a compact and flexible solution for an economical and flexible solution for industry-standard 2.00mm (.079") pitch applications such as consumer and small data devices.

Features:

- Compact, low-profile size
- Box style contact
- Friction lock
- Polarizing features
- Blade-type pins
- Protection to contact area
- Good mating retention
- Design flexibility
- Ensures proper mating
- Reliable and good wipe length
- Space savings
- RoHS compliant per Molex documentation

Housings

CRIMP TERMINAL HOUSINGS

- Series 5264-N
- Very low profile
- Friction lock
- Molded-in pull tabs
- Mates w/series 5267-NA & 5268-NA
- Use with terminal series 5263
- Operating temperature: -40° to +105°C
- Housing: 6/6 nylon, UL 94V-0
- RoHS Compliant per Molex documentation

LR19980 E29179 RoHS Compliant

For quantities of 1000 and up, call for quote.

MOLEX LFH™ and EBBI™ Connectors

LFH™ (LOW FORCE HELIX) CONNECTORS

The Low Force Helix (LFH) contact was designed for high-pin count signal applications where there is a need for reliability and performance. Designed for both cable-to-board and board-to-board applications, the system's low insertion forces make it ideal for situations where multiple single lines need to be terminated or packaged in a limited space.

Features:
- Matrix 50 contact layout is four rows on 1.27 by 1.27mm (.050 by .050") spacing
- Redundant contact points for long-term reliability
- High cycle life via controlled plating and contact surfaces
- Good electrical performance for high-speed applications

Applications:
- Mainframe Computers
- Mass storage
- Portable POS units
- Network Interface Cards
- Routers
- Switches

Specifications:
- Current Rating: 1.0A max
- Voltage: 40V max
- Withstanding Voltage: 500V AC
- Contact Resistance: 20mΩ max
- Insulation Resistance: 100MΩ min

Right-Angle Receptacle - Mates with 70929

For quantities of 100 and up, call for quote.

EBBI™ 50D CONNECTORS

The Molex EBBI 50D series meets the market demand for low-cost, unshielded, high density, leaf-style connectors. Several configurations are available including vertical, right angle, and blind-mating to provide valuable design flexibility and expandability. Leaf-style terminals are arranged in two rows on .050" spacing within a polarized "D"-shaped housing for rugged mechanical protection. Housings are made of high-temperature, UL 94V-0 thermoplastic. Terminals are plated with 30µ" min. gold in the mating area for long term reliability and durability. The IDT cable receptacle terminates to both .025" flat ribbon or laminated discrete-wire cable. A built-in polarizing key prevents mismating to the PCB card edge. The cable-gripping cover prevents cable pull-out and eliminates the need for an extra retention cover.

Specifications:
- Current Rating: 1.0A at 20° maximum temperature rise
- Voltage: 30V AC max
- Ambient Temperature: -40°C to 105°C
- Housing Material: Thermoplastic
- Flammability: UL94V-0
- Contact: Copper (Cu) Alloy
- Under Plating: Nickel (Ni)
- Durability: 500 cycles

Vertical Receptacle - Mates with 71661-2xxx Series

MOLEX MicroClasp™ Connectors

MOLEX 2.0MM (.079") RECEPTACLES AND HEADERS DUAL ROW - WIRE-TO-BOARD

The original application for the MicroClasp™ connector system was Pachinko (gaming) machines. Most of these machines previously used 2.50mm pitch WTB systems with outer positive locks. As pachinko boards became higher density with more functions, makers were looking for a smaller connector that was also easy to install. Easy installation is important because new game upgrades on daughterboard modules would be installed on-site by pachinko parlor employees. Molex developed the 2.0mm MicroClasp™ system to meet these various needs. Notches would sometimes have to be cut into panels to accommodate the old 2.50mm pitch outer-style positive lock types, but not with MicroClasp™. The smaller pitch and inner positive lock saved space and are easy to actuate in high density areas. And a unique low insertion force terminal makes it easy for operators to insert/extract connectors. In addition, MicroClasp™ is among the smallest of its kind to carry 3.0 Amps as most 2.0mm pitch systems can only accommodate 2.0 Amps. The extra signal power and space savings is important so Pachinko makers and other equipment makers can offer more high-end graphics/sound/etc in smaller spaces.

Features:
- Two point contact design for greater reliability
- Locking tang on contact for secure retention to the housing
- Positive lock on the housing assures secure retention when mated to a header
- Polarized mating geometry assures housings cannot be mismated to headers
- Headers fully shrouded to protect pins
- Lead-free plating
- Headers - through hole mounting

Electrical:
- Current: 3.0A max
- Voltage: 250V

Physical:
- Receptacles / Headers: White, Nylon 6/6, UL 94V-0
- Pin: Brass
- Plating: Lead-free Tin
- Operating Temperature: -25°C to +85°C

Applications:
- Coin Operated Devices
- Power Tools
- Alarms / Security systems
- Washers / Dryers
- Medical (Hospital beds, Patient monitors)
- HVAC
- Power supplies
- Exercise equipment

MOLEX Sherlock™ Connectors

SHERLOCK™ 2.0mm (.079") PITCH SINGLE-ROW CONNECTORS WIRE-TO-BOARD

Originally developed for PC monitor applications, this 2.0mm pitch system can also be used for other applications that require space savings and secure locking features.

RoHS Compliant

Features:
- Low-profile compact design
- Positive locking ribs
- Polarizing guide wall
- Low-insertion force terminal
- Box-style contact design
- Fully-shrouded header
- 2.0mm Pitch

Applications:
- PC Monitor
- TV
- VCR
- Printer
- Instrumentation
- Air Conditioner
- Vending Machine

Specifications:
- Voltage: 125V
- Current: 2.0A max.
- Contact Resistance: 20mΩ max.
- Dielectric Withstanding Voltage: 500V
- Insulation Resistance: 1000 MΩ min.
- Housings: Polyamide, UL 94V-0
- Operating Temperature: -40°C to +105°C
- AWG: 24-30
- RoHS Compliant per Molex documentation

Housings

- Mating Height: 7.2mm
- Mating Width: 5.8mm

For quantities of 1000 and up, call for quote.

2.00mm (.079") RECEPTACLES VERTICAL, DUAL ROW

- IR, vapor-phase and wave solder/surface mount compatible
- Dual beam contact design ensures reliable electrical performance
- Molded-in void locations for polarization to mating connector
- PC tails have tapered lead-in for insertion into the PC board
- Mates with 0.50mm square pin headers
- Through hole
- Board to board
- Current: 1.0A
- Voltage: 125V
- Housing: Black glass-filled LCP, UL 94V-0
- Operating Temperature: -55°C to 105°C
- Contact: Phosphor bronze
- Plating: 15μ" min. gold

- Fully shrouded to protect pins during mating/unmating
- Center polarization slot (8 to 12 Circuits)
- Center polarization slot and front windows (14 to 50 Circuits)
- Current: 2.0A • Voltage: 125V
- Housing: PA Polymide (Nylon) 4/6 UL 94V-0
- Plating Contact: 0.38μm (15μ") Gold (Au)

For quantities of 200 and up, call for quote.

MOLEX Single and Dual Row Micro-Fit 3.0™ Connectors

CRIMP HOUSINGS-SINGLE ROW

- Positive latching to mating headers or plugs
- Fully isolated contacts
- Integral pull tabs for ease in unmating
- 3.00mm (0.118") Pitch
- Receptacle mates with 43640 series and 43650 series
- Wire to Wire
- RoHS Compliant per Molex documentation

RoHS Compliant

For quantities of 500 and up, call for quote.

MOLEX MICRO-FIT 3.0™ BMI Connectors

molex
one company › a world of innovation

Products may be RoHS compliant.
Check mouser.com for RoHS status.

Specifications:
- Electrical: 250V
- Current: 5.0A
- Housing: UL94V-0
- Contact: Phosphor Bronze

Features:
- Innovative panel mounting design holds connectors firmly in place
- Fully isolated contacts prevent terminal damage
- Fully polarized to prevent mismating

VERTICAL RECEPTACLE HEADER WITH FRICTION PEGS

Tin Plated

For quantities of 500 and up, call for quote.

MINI-FIT JR.™ CONNECTORS

Wire-to-wire and wire-to-board versions. The mated length of the wire-to-wire version is less than 1 3/8" while the wire-to-board version is less than 15/16". Despite it's small size it can handle the I/O currents of most standard equipment. They are high density, high current power connectors.

Specifications:
- Pitch: 4.2mm (.165")
- Current: up to 9A
- Contact resistance: 10mΩ
- Voltage: 600V
- Housing: 6/6 nylon
- Temperature: -40°C to +105°C

Features:
- Positive housing locks
- Fully isolated terminals
- Intermateable with Mini-Fit BMI, SMC, CPI
- Contacts sold separately

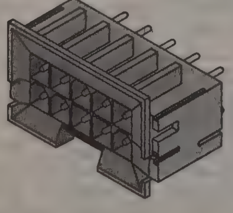
MINI-FIT CPI™ COMPLIANT PIN INTERFACE HEADERS

Specifications:
- Pitch: 4.2mm (.165")
- Current: up to 8.0A max.
- Contact Resistance: 10mΩ max.
- Voltage: 600V
- Housing: 4/6 Nylon
- Temperature: -40°C to +105°C

Features:
- Press-fit pin requiring no soldering
- Blind mating vertical header
- Designed for multiple board thicknesses of .094" and greater
- Mates with 42385, 42474 and 5557 Series Receptacles



For quantities of 500 and up, call for quote.

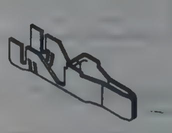
K



MINI-FIT BMI™ (BLIND MATING SYSTEM) CONNECTORS 4.20MM (.165") PITCH

Features:

- Fully isolated terminals to protect contacts from damage
- Uses standard Mini-Fit series terminals
- Dual Row

Specifications:

- Housing: 6/6 Nylon
- 600V rating
- Temperature: -40 to +105°C

RoHS Compliant

Plating: a) Tin, select gold b) Post-plated Tin over nickel

Plugs - Dual Row

- RoHS Compliant per Molex documentation

For quantities of 1000 and up, call for quote.

MINI-FIT, SR.™ CONNECTORS - 10.00MM (.393") PITCH

Features:

- High Current
- Fully polarized
- Positive Locks
- Low engagement force
- Wire-to-wire, wire-to-board
- Single Row

Specifications:

- Plating: Tin over Nickel
- Contact: Copper Alloy
- Receptacles/Plugs: Polyester, UL94V-0
- Headers: Glass-filled, 4/6 Nylon, UL94V-0
- Voltage: 600V
- Temperature: -40 to +105°

RoHS Compliant

For quantities of 1000 and up, call for quote.

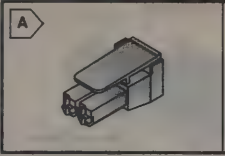
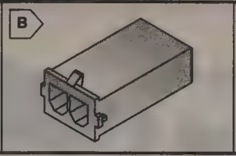
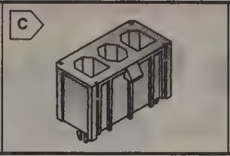
MOLEX 7.50mm Sabre™ and 5.08mm Disk Drive Connectors



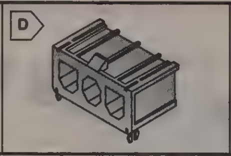
A



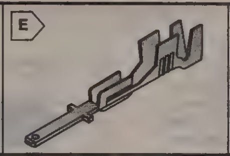
B



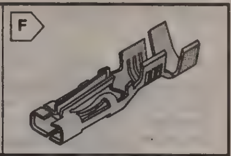
C



D



E



F

7.50MM PITCH SABRE™ CONNECTORS-SINGLE ROW

The Sabre™ system is a robust power connector supplying up to 18 amperes for high current applications. Designed and patented by Molex engineers, Sabre™ standardizes manufacturing footprints by offering both wire-to-wire and wire-to-board configurations. The terminal is designed with a Terminal Position Assurance (TPA) feature that virtually eliminates terminal backout. Activation of the TPA feature is optional. The positive locking latch on the receptacle housing prevents accidental disconnection.

Receptacles

- Polarized housing assures proper mating
- Terminals are fully isolated in housing
- Housing: Nylon, UL94V-0
- Mates with: 43160 series header and 43680 series plug
- RoHS Compliant per Molex documentation
- Temperature:-40˚ to +75˚C
- Voltage: 1000V
- Current: 18.0A

RoHS Compliant

For quantities of 1000 and up, call for quote.

Vertical Headers

- Wire-to-Board Header
- Accommodates .062 board thickness
- Surface Mount Compatible
- Housing: Black glass-filled nylon, UL94V-0
- Positive Lock • Fully Polarized
- Contact: Brass
- RoHS Compliant per Molex documentation
- Plating: Tin
- PCB Thickness: 3.81mm
- Mates with: 44441 series housing
- Temperature:-40˚ to +75˚C
- Voltage: 1000V
- Current: 18.0A

RoHS Compliant

For quantities of 1000 and up, call for quote.

Terminals

- Virtually eliminates terminal backout
- No secondary plastic parts needed
- Four points of electrical contact
- Accommodates single or double wire crimps
- Contact: Brass
- 43375: female • 43178: male
- Voltage: 1000V • Current: 18.0A max.
- Plating: Tin
- Female terminal mates with: 43160 series headers, 43680 series plug housing and 43178 series terminals
- Male terminal mates with: 43375 series terminal and 44441 series receptacle housing
- RoHS Compliant per Molex documentation

RoHS Compliant

For quantities of 1000 and up, call for quote.

High Temperature Vertical Headers

*with plastic peg

Features:

- Shrouded
- Antiwicking PC tails
- Surface Mount Compatible
- 4 position without pegs
- PCB
- Through Hole

Specifications:

- Housing: High-temperature Thermoplastic
- Contact: Phosphor Bronze
- Plating: Tin over Nickel
- Temperature: -40° to +85°C
- Color: Black
- Current: 10.0A
- Voltage: 250V
- Rating: UL94V-0

For quantities of 500 and up, call for quote.

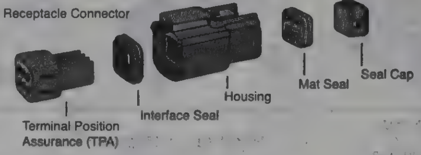
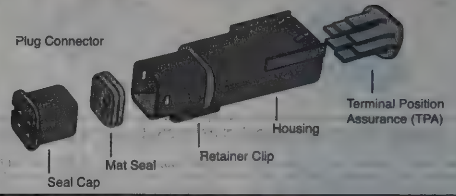
MOLEX MX150L™ Sealed Connector System

molex
one company > a world of innovation

The MX150™ system from Molex is a rugged, environmentally-sealed connector system that supports both low-level signal applications as well as power applications up to 18.0A

* All discrete components shown to the right for both the receptacle and plug housings are pre-assembled. Terminals are simply crimped and poked into the housings. No additional wire seals, wedge locks or CPA locks are required.





5.84MM (.230") PITCH MX150L™ - SINGLE ROW CONNECTORS

Features:
- Environmentally sealed to IP67
- Integrated mat wire seal
- Integrated interface seal (receptacles only)
- Integrated terminal position assurance (TPA)
- Simple crimp and poke application
- Field serviceable contact removal system
- Tactile and audible mating feedback

Specifications:
- 5.84mm (.230") Pitch
- Housing: SPS Glass-filled Crystalline Polymer
- Operating Temperature: -55 to +125°C
- Dielectric Withstanding Voltage: 1500V AC min.
- Insulation Resistance: 1000MΩ

RoHS Compliant

For quantities of 500 and up, call for quote.

Contacts

Features:
- Mat seal friendly design features center seam and coined edges
- Anti-over stress beam geometry feature
- Low insertion force

Specifications:
- Contact: C19025 Copper Alloy
- Plating: Tin
- Operating Temperature: -55 to +125°C
- Voltage: 600V
- Current: 18.0A
- Durability: 25 cycles for Tin plating

RoHS Compliant

For quantities of 2000 and up, call for quote.

MX150L™ CIRCUIT PLUG

With the application of optional circuit plugs, the MX150L™ system supports the ability to implement sealed blank cavities in both plug and receptacle housings. The circuit plugs occupy and fully seal the unused cavity and can be extracted and replaced with a standard male blade or female receptacle terminal. This feature provides the ability to plan for possible future circuit additions while maintaining the sealing integrity of the mated pair.

RoHS Compliant

Materials: • SPS Glass-filled Crystalline Polymer

For quantities of 2000 and up, call for quote.

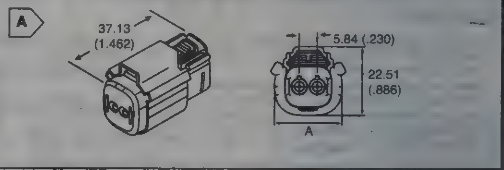
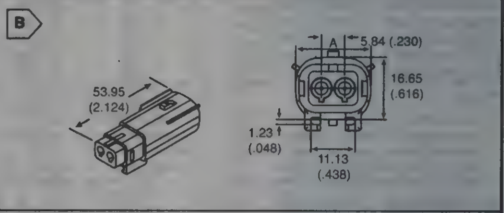
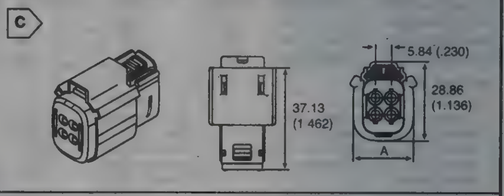
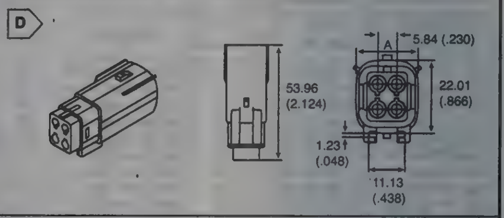
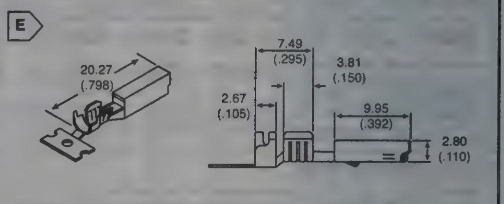
DIMENSIONS: mm (in.)

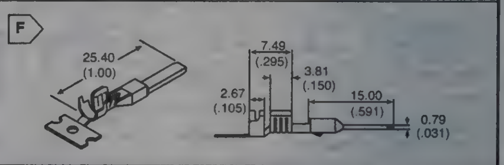


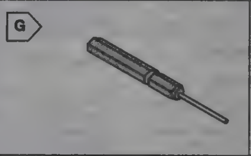


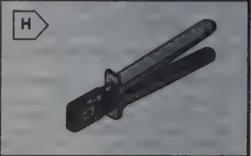


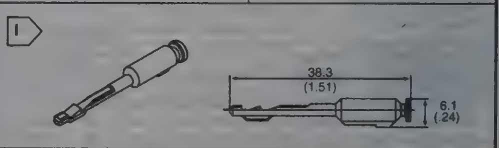




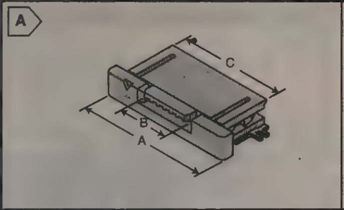


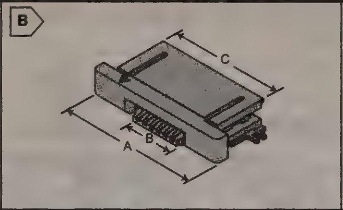


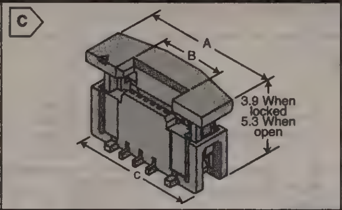


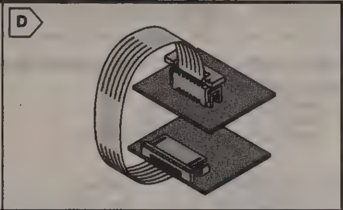


MOLEX FFC / FPC 0.50mm/.020" Connectors









0.50MM (.020") PITCH FFC / FPC CONNECTORS

For 0.30mm (.012") thick FFC/FPC. Metal solder tabs provide PCB hold-down and strain relief for SMT tails. ZIF: Zero Insertion Force

RoHS Compliant

Specifications:

- Voltage: 50V
- Current: 0.5A
- Dielectric Withstanding Voltage: 250V AC/1 min.
- Housing: 4/6 Nylon, UL 94V-0
- Actuator: PPS, UL 94V-0
- Contact: Phosphor Bronze
- Plating: Tin
- Solder Tabs: Phosphor Bronze, Tin plating
- Operating Temperature: -20 to +85°C

Right Angle, SMT, ZIF - Top Contact Style

For quantities of 500 or more, call for quote.

LOW PROFILE FFC CONNECTORS

DIMENSIONS: in.

Specifications:

- Housing: LCP Liquid Crystal Polymer
- Mated Height: 1.20mm (.047")
- Mated Width: 3.40mm (.134")

Features:

- Pre-hold cable feature keeps FPC in place while actuator is being closed
- Sturdy actuator allows for easy cable insertion
- Metal solder tabs provide PCB hold-down and strain relief for SMT tails

RoHS Compliant

Right Angle, SMT, ZIF - Top Contact Style

For quantities of 500 or more, call for quote.

PREMO-FLEX™ FLAT FLEX CABLE JUMPERS FOR 0.50MM (.020") CONNECTORS

These jumpers are used to connect 2 PC boards and terminate to either ZIF or Non-ZIF FFC Connectors. Mates with any 0.50mm (.020") Pitch FFC/FPC Connector. They are available with the contacting area on the same side (Type A) or the opposite side (Type D) to mirror signal layout between PC Boards.

Specifications:

- Voltage: 30V
- Current: 0.5A
- Temperature: -40 to +80°C
- Cable Width: (No. of circuits + 1) x 0.50mm
- Exposed conductor length: 4mm with 8mm reinforcement
- Conductor width: 0.30mm (.012").
- Conductor thickness: 0.10mm (.004")
- Contacts on the same side

For quantities of 500 or more, call for quote.

MOLEX FFC / FPC 1.00mm Connectors

molex
one company › a world of innovation

1.00MM (.039") PITCH FFC/FPC CONNECTORS

For 0.30mm thick FFC/FPC. Metal solder tabs provide PCB hold-down and strain relief for SMT tails. ZIF: Zero Insertion Force.

Right Angle, SMT, ZIF - Top Contact Style

Specifications:

- Voltage: 125V
- Current: 1.0A
- Dielectric Withstanding Voltage: 500V AC/1 min.
- Housing: 4/6 Nylon, UL 94V-0
- Actuator: PPS, UL 94V-0
- Contact: Phosphor Bronze
- Plating: Tin
- Solder Tabs: Copper Alloy, Tin plating
- Operating Temperature: -20 to +85°C

RoHS Compliant

For quantities of 500 or more, call for quote.

Right Angle, SMT, ZIF - Bottom Contact Style

Specifications:

- Voltage: 50V
- Current: 0.5A
- Dielectric Withstanding Voltage: 500V AC/1 min.
- Housing: 4/6 Nylon, UL 94V-0
- Actuator: PPS, UL 94V-0
- Contact: Phosphor Bronze
- Plating: Tin
- Solder Tabs: Copper Alloy, Tin plating
- Operating Temperature: -20 to +85°C

RoHS Compliant

For quantities of 500 or more, call for quote.

PREMO-FLEX™ FLAT FLEX CABLE JUMPERS FOR 1.00MM (.039") CONNECTORS

These jumpers are used to connect 2 PC boards and terminate to either ZIF or Non-ZIF FFC Connectors. Mates with any 1.00mm (.039") Pitch FFC/FPC Connector. They are available with the contacting area on the same side (Type A) or the opposite side (Type D) to mirror signal layout between PC boards.

Specifications:

- Voltage: 30V
- Current: 1.2A
- Cable width: (No. of circuits + 1) x 1.00mm
- Exposed conductor length: 4mm with 8mm reinforcement
- Temperature: -40 to +80°C
- Conductor width: 0.70mm (.028")
- Conductor thickness: 0.10mm (.004")

For quantities of 500 or more, call for quote.

OMRON FPC Connectors

RoHS Compliant **This page of product is compliant.**

OMRON XF2B SERIES: SMT ROTARY BLOCK 0.30MM PITCH FPC CONNECTORS

Features:
- Bottom wall eliminates exposure of terminals
- Low on-board profile of 1.2mm
- Double-sided contact
- Slider supplied in open position
- Housing prevents displacement as slider is operated

Specifications:
- Rated current / voltage: 0.2A AC/DC / 50V AC/DC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating
- Applicable FPC thickness, t=0.2mm
- Reflow solderable, supplied on tape and reel

Applications:
- Personal computers
- Mobile phones
- PDAs
- Pagers
- LCDs

For quantities of 3000 and up, call for quote.

OMRON XF2L SERIES: SMT ZIF 0.50MM PITCH SLIDE-LOCK FPC CONNECTORS

Features:
- Small footprint reduces space on board
- Top and bottom contact styles have identical dimensions, utilize the same PCB layout for efficiency
- Color-coded slide identifies top and bottom contact versions to prevent mix-ups during production

Specifications:
- Rated current: 0.5A
- Rated voltage: 50VDC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating

Applications:
- Personal computers
- Mobile phones
- Digital cameras
- LCDs

OMRON XF2M SERIES: SMT 0.50MM PITCH ROTARY BACKLOCK FPC CONNECTORS

Features:
- Double-sided (upper and lower) contact structure enables component reductions
- Short body depth of 5.9 mm with slider closed
- Reflow solderable, supplied on tape and reel

Specifications:
- Rated current: 0.5A
- Rated voltage: 50VDC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating

Applications:
- Personal computers
- Mobile phones
- PDAs
- Digital cameras

OMRON XF2N SERIES: 0.50MM PITCH LOW-PROFILE ROTARY BACKLOCK FPC CONNECTORS

Features:
- Greater freedom of board design with 0.9mm profile and bottom wall
- Double-sided (upper and lower) contact structure enables component reductions
- Backlock mechanism makes FPC mounting significantly easier

Specifications:
- Rated current / voltage: 0.3A AC/DC / 50V AC/DC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating

Applications:
- Personal computers
- Mobile phones
- PDAs

For quantities of 6000 and up, call for quote.

OMRON XF2R SERIES: 0.50MM PITCH LOW-PROFILE ROTARY BACKLOCK FPC CONNECTORS

Features:
- FPC insertion sensation greatly improved with 1.1mm FPC guide section
- Double-sided (upper and lower) contact structure enables component reductions
- Effective interface length for terminals increased to 1.4mm to ensure stability in applications with a lot of movement

Specifications:
- Rated current / voltage: 0.3A AC/DC / 50V AC/DC
- Insertion tolerance: 20 times
- Contact material: nickel substrate, gold plating

Applications:
- Personal computers
- Mobile phones
- Digital cameras

For quantities of 6000 and up, call for quote.

3M Textool™ Test and Burn-In Sockets

RoHS Compliant This page of product is compliant.

TEXTOOL SOCKETS AND RECEPTACLES

Specifications:
- Current: 1A
- Color: Green
- Flammability: UL 94V-0
- Operating Temperature: -55°C to +150°C
- Contact Material: Beryllium Copper
- Contact Plating: 30μ" Gold over 50μ" Nickel
- RoHS Compliant per 3M documentation

ZIP DIP II 2.54mm (.100") DIP Sockets

RoHS Compliant

With decades of experience on the market, 3M TextoolTM DIP Sockets provide a proven, reliable test/burn-in interface for DIP Packages with .100" lead spacing, and pin counts of 14 to 64. The sockets possess a lever actuated zero insertion force mechanism to maximize cycle life and reduce the potential for device lead damage.

Shrink DIP .070" DIP Sockets

RoHS Compliant

With decades of experience on the market, 3M TextoolTM DIP Sockets provide a proven, reliable test/burn-in interface for DIP packages with .100" lead spacing, and pin counts of 28 to 90. The sockets possess a lever actuated zero insertion force mechanism to maximize cycle life and reduce the potential for device lead damage.

Power In-Line Socket

3M TextoolTM Power In-Line Sockets provide a proven, reliable test/burn-in interface for 3 lead TO packages such as TO-3 and TO-66. The Power In-Line Socket must be mounted to board with screws and has 2 entry ports which accept devices with 0.75" to 0.20" between leads.

RoHS Compliant

UNIVERSAL DIP 2.54MM (.100") UNIVERSAL DIP SOCKETS

With decades of experience on the market, 3M TextoolTM Universal DIP Sockets provide a proven; reliable test/burn-in interface for DIP Packages with .100" lead spacing. The sockets possess a lever actuated zero insertion force mechanism to maximize cycle life and reduce the potential for device lead damage. An extra-wide contact zone accepts any package body width between .300" and .600".

RoHS Compliant

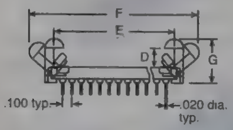
ARIES Sockets, Adapters and Jumpers

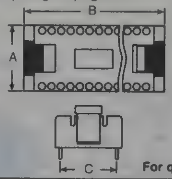
LOCK/EJECT DIP SOCKETS

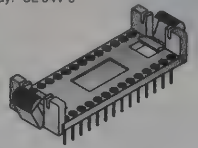
EJECT-A-DIP® is a rugged, solderable socket with a unique ejector/latch for fast in-field board maintenance. It locks in the connector or device, making it ideal for high vibration environments. When used as an ejector, it removes DIP packages without pin damage.

Specifications:

- Pin body plating: tin glass-filled polyester (PBT)
- Contact plating: 10µ" gold
- Contact current rating: 3A
- Body: UL 94V-0







For quantities of 100 and up, call for quote.

OPEN FRAME MACHINE PIN COLLET SOCKETS

Specifications:

- Body: blue UL 94V-0 glass-filled polyester thermoplastic (PBT)
- Pins: 200µ" tin over 100µ" nickel plated brass
- Contacts: 10µ" gold over 50µ" nickel plated beryllium copper

Features:

- Open frame allows for more efficient utilization of board space and better cooling
- Compatible with automatic insertion equipment

For quantities of 500 and up, call for quote.

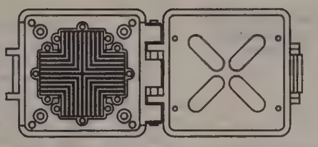
UNIVERSAL PLCC ZIF TEST SOCKET

Specifications:

- Body: black ULV-0 glass-filled polyphenylene Sulfide (PPS)
- Contact pin: beryllium copper, gold over nickel plating
- Contact current rating: 1A
- Hardware: stainless steel
- Life cycle: 10,000 insertions max.

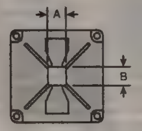
A



Features:

- One socket will accept all seven PLCC sizes: 20, 28, 44, 52, 68 and 84 square PLCC and 32 rectangular PLCC
- Seven adapter plates are available for each PLCC lead count
- The PLCC is inserted "live bug" (pins down)
- Can also be plugged into Aries' Universal ZIF PLCC Socket Receptacle (Mouser Stock No. 535-84-637-10)

B



For quantities of 5 and up, call for quote.

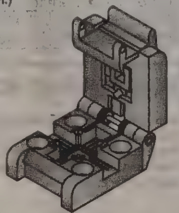
PLCC ZIF TEST AND BURN-IN SOCKETS

Features:

- ZIF prevents bending or damaging legs
- Corner post provide positive package orientation
- Accepts JEDEC, MO-047, MO-052, & other ceramic, leadless, or J-lead packages (Shims required)

Specifications:

- Body: UL94V-0 glass-filled polyphenylene sulphide
- Contact plating: 12μ gold over 50μ nickel
- Life cycles: 10,000 insertions (min.)
- Contacts: beryllium copper
- Current rating: 1A



For quantities of 5 and up, call for quote.

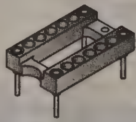
4 PIN OSCILLATOR SOCKETS

- Four pin socket accepts standard oscillator packages
- Designed to be end-to-end or side-to-side stackable
- Machine insertable
- Body: Blue UL 94V-0 Glass-filled Polyester Thermoplastic
- Operating Temperature: 221°F [105°C]
- 4-fingered collet contact has 10μ" of Gold plating



For quantities of 500 and up, call for quote.

PLCC TO DIP ADAPTERS

Features:

- Converts PLCC packaged IC's to a DIP footprint
- Ideal for prototyping, testing, and evaluation
- PLCC sockets or PLCC contact pads

Specifications:

- Body: FR-4 plastic
- Solder tail pins: brass alloy with tin over nickel plating
- Optional PLCC socket contacts: copper alloy with tin over nickel plating
- Current rating: 1A

For quantities of 50 and up, call for quote.

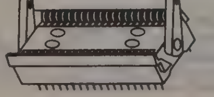
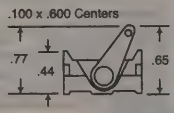
ZIF IC SOCKETS

A true ZIF (Zero Insertion Force) device. Contacts are normally open and are closed by CAM action controlled by lever arms. A tapered entry guides legs into mating position with contacts.





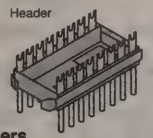
.100" DIP FORK HEADERS AND COVERS

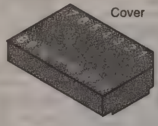
Features:

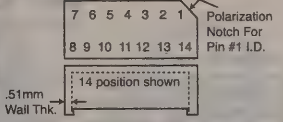
- Forked contacts accepts up to .025" Dia. leads
- Body cavity design provides additional clearance for components
- Protective covers snap on to headers

Specifications:

- Header body and covers: Red UL 94-HB Glass-filled Nylon
- Contact Rating: 2 Amps
- Operating Temperature: 221°F [105°C] Tin Plating 257°F [125°C] Gold Plating
- PCB Hole Size: .035 Dia.







Headers

UNIVERSAL ZIF TEST SOCKETS

Aries universal test sockets accept DIP devices with row-to-row pin spacing of .300" to .600". They are direct replacements for other test sockets currently on the market.

Features:

- Accepts DIP devices on .300" to .600" centers
- May be soldered directly to board or plugged into any compatible socket
- Choice of gold or tin plated contacts

Specifications:

- Body: UL94V-0 glass-filled thermoplastic
- Contacts: beryllium copper w/gold or tin over nickel
- Current rating: 1A
- Life cycles: 25,000 to 50,000 insertions

For quantities of 50 and up, call for quote.

LO-PRO ZIF IC SOCKETS

These low profile ZIF IC sockets permit 24, 28, or 40 pin DIP devices to be inserted without bending or damaging the leads. No force is required to insert or remove the component from the socket.

Specifications:

- Body: UL94V-0 glass-filled polyester thermo-plastic
- Contacts: beryllium copper with tin over nickel plating
- Current rating: 2A
- Contacts: tin plated

Features:

- CAM action compresses double sided contacts for gas tight seal
- Test point openings allow access to all pins

For quantities 50 and up, call for quote.

FCI PLCC SOCKETS - SURFACE MOUNT

Features:
- Standard JEDEC (type A) mounting pad
- Low profile: .175" (4.45)
- Hi-temp: IR reflow compatible plastic
- Polarization indicators assure positive chip carrier orientation
- Center pad for pick and place
- RoHS Compliant per FCI documentation

Specifications:
- Operating temperature: -50°C ~ 125°C
- Current rating: 1A
- Insulation resistance: 10,000MΩ
- Contact resistance: 20mΩ
- Contact material: Phosphor bronze alloy
- Contact plating: 150µ" tin, 40µ" nickel (min.)
- Capacitance: 1.0pF max.
- Withstanding voltage: 600V

RoHS Compliant

For quantities of 500 and up, call for quote.

FCI PLCC SOCKETS - THRU-HOLE

Features:
- Standard JEDEC (type A) mounting pad
- Low profile: .310" (7.87)
- Hi-temp: IR reflow compatible plastic
- Polarization indicators assure positive chip carrier orientation
- Center pad for pick and place
- RoHS Compliant per FCI documentation

Specifications:
- Operating temperature: -50°C ~ 125°C
- Current rating: 1A
- Insulation resistance: 10,000MΩ
- Contact resistance: 30mΩ
- Contact material: Phosphor bronze alloy
- Contact plating: 150µ" tin, 40µ" nickel (min.)
- Capacitance: 1.0 pF max.
- Withstanding voltage: 600V

RoHS Compliant

For quantities of 500 and up, call for quote.

KOBICONN PLCC SOCKETS

Features:
- Accepts JEDEC type A chips
- Polarization indicator to assure positive chip carrier alignment
- Low profile

Specifications:
- Contact resistance: 30mΩ max. @ 100mA DC
- Insulator resistance: 1000MΩ min. @ 500VDC
- Current rating: 1A
- Voltage rating: 500VAC for 1 minute
- Operating temp.: -55°C ~ 105°C
- Contact material: Tin/gold plated phosphor bronze
- Housing material: PPS and 40% glass fiber

Thru-Hole

For quantities of 1,000 and up, call for quote.

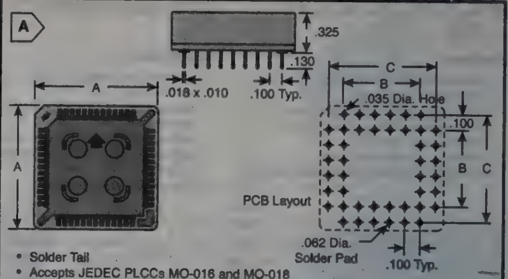
MILL-MAX PLCC Sockets

STANDARD PLCC SOCKETS

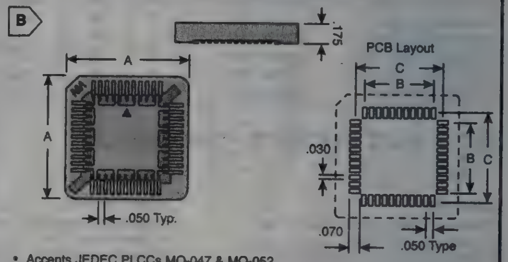
RoHS Compliant

Specifications:

- Contacts: 150µ" Tin
- Insulator: PPS Polyphenylene Sulfide, Rated UL94V-0
- Current rating: Thru-hole type 1A, SMD type 1A
- Shell Plating: 200µ" (matte finish) over 100µ" Nickel
- Inner Contact Planting: 100µ" (matte finish) over 50µ" Nickel
- Operating Temp: -55° to +105° C
- Contact Pressure: 150 grams min.
- Capacitance: 1pF max.



- Solder Tail
- Accepts JEDEC PLCCs MO-016 and MO-018
- Standoffs provide clearance for heat dissipation and cleaning.



- Accepts JEDEC PLCCs MO-047 & MO-052
- Low profile
- Standoffs provide clearance for heat dissipation and cleaning.

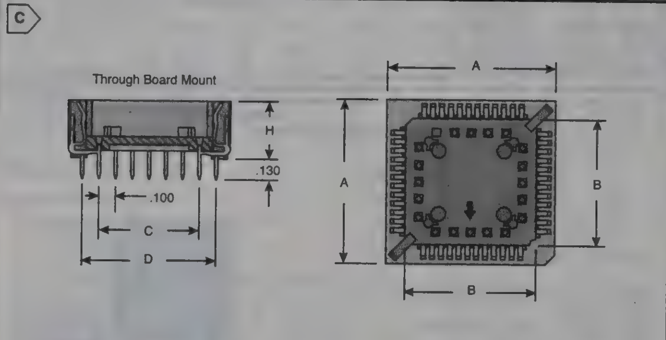
COMPACT PLCC SOCKETS

Specifications:

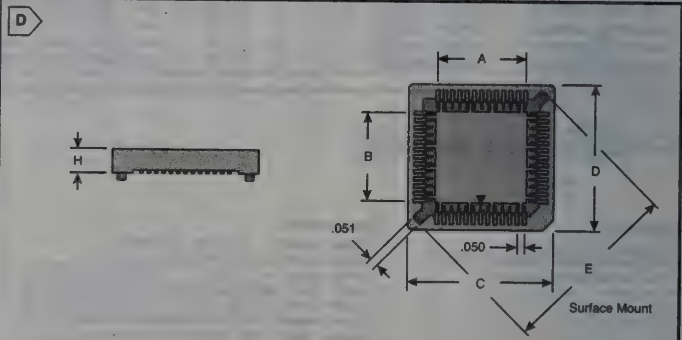
- Contacts: Plated copper alloy
- Insulator: (Brown) PPS Ryton R-4 Rated UL 94V-0
- Current rating: Thru-hole type 2A, SMD type 1A
- Operating Temp: -55° to +125° C
- Contact Pressure: 150 grams min.
- Capacitance: 2pF max.

RoHS Compliant

DIMENSIONS: in.



- End stackable
- Accepts JEDEC Type MS-016 and MS-018
- Body has polarizing features for both substrate and socket insertion
- High reliable contacts



- End stackable
- Accepts JEDEC type devices
- Open frame design in solder area improves IR soldering and inspection

For quantities of 5000 and up, call for quote.

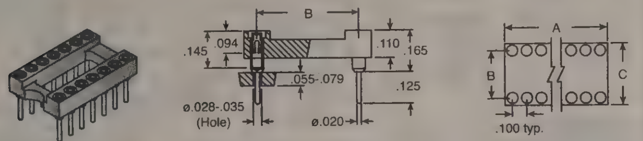
MILL-MAX DIP IC Sockets

STANDARD LOW PROFILE IC SOCKETS

WITH SCREW MACHINED SLEEVES

Features open frame design which leaves space beneath the IC for improved heat dissipation and easier PCB cleaning and inspection. 4 finger inner contact is stamped beryllium copper, press fitted into a precision, machined, brass receptacle sleeve.

DIMENSIONS: in.



Tin Sleeve, Tin Contact

- Sleeve: 200μ" tin
- Contact: 200μ" tin

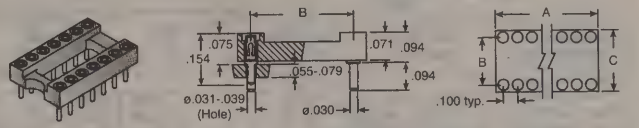
ULTRA LOW PROFILE IC SOCKETS

WITH SCREW MACHINED SLEEVES

Socket height is .095" above the printed circuit board. It has all the features of the standard low profile series including open frame design, for maximum heat dissipation and easier cleaning. 4 finger stamped beryllium copper inner contact, press fitted into a precision machined brass receptacle sleeve.

DIMENSIONS: in.



- Sleeve: 200μ" tin
- Contact: 30μ" gold

For quantities of 1,000 and up, call for quote.

3-LEVEL WIRE WRAP IC SOCKETS

WITH SCREW MACHINED SLEEVES

Socket has .515" terminal lengths for 3 level, solderless,wire wrapping. Terminals are locked into the insulator body to withstand the torques of wrapping tool. Open frame design for easier PCB cleaning and maximum heat dissipation. Features a 4 finger inner contact of beryllium copper, press fit into a precision machined brass receptacle sleeve.

- Sleeve: 200μ" tin
- Contact: 30μ" gold

DIMENSIONS: in.

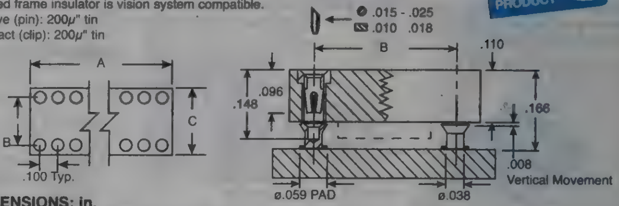
DUAL-IN-LINE SOCKETS (CONT.)

Surface Mount, Auto Placement, Stub Tail, Closed Tail

NEW PRODUCT

- Closed frame insulator is vision system compatible.
- Sleeve (pin): 200μ" tin
- Contact (clip): 200μ" tin



DIMENSIONS: in.

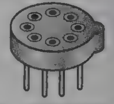
TRANSISTOR SOCKETS

NEW PRODUCT

- Glass filled polyester UL94V0
- Current rating: 1A
- 30μ" gold plated contact clip
- Pin is tin plated brass



For quantities of 1000 and up, call for quote.

INTERCONNECT COMPONENTS

MILL-MAX pin receptacles are machined, component lead sockets primarily used for the plugging and unplugging of components on pc boards.

Pin Receptacles

Specifications:

- Shell: machined brass, 200μ" tin over nickel
- Contact: multi-finger, beryllium copper, 30μ" gold over nickel

For quantities of 1,000 and up, call for quote.

Printed Circuit Pins

Printed circuit pins are machined, individual pins used for various plug-in applications and board to board interconnection.

RoHS Compliant

Specifications:

- Machined brass, 20μ" gold plated
- RoHS Compliant per Mill-Max documentation

For quantities of 1,000 and up, call for quote.

KEYSTONE Kits, Insulators and Covers

RoHS Compliant This page of product is compliant.

KEYSTONE MOUNTING KITS

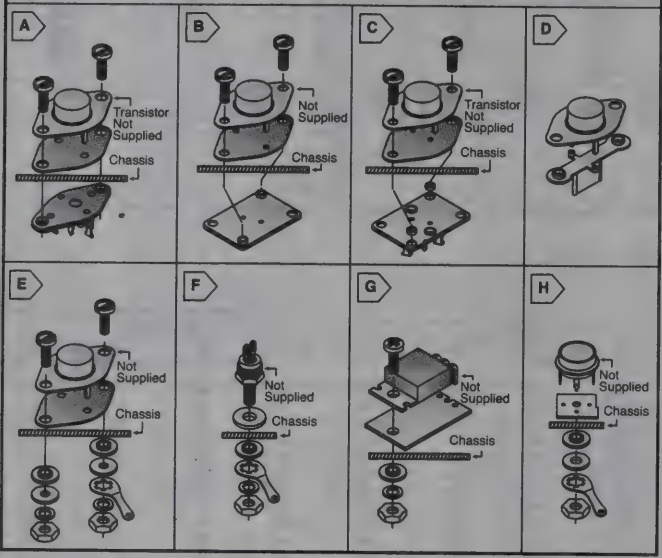
Socket mounting kits for TO-3

These pre-packed universal mounting kits provide all the necessary hardware and insulators required to securely mount transistors to the chassis.

Features:
- Labor saving
- Easier mounting to chassis
- Better thermal efficiency
- Avoids soldering directly to the transistor
- Easier to service

RoHS Compliant

Order 534-4732 for TO-3 kit   Order 534-4734 for TO-3 kit   Molded Nylon: 534-4616



RoHS Compliant

Transistor Mounting Kit With Socket

For quantities of 500 and up, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each		
			1	10	100
534-4732	A	TO-3 kit includes 2 #6-20 screws, 1 mica insulator, 1 Stock No.534-4602 transistor socket	1.78	1.50	1.35
534-4733	B	TO-3 kit includes 2 #6-20 screws, 1 mica insulator, 1 Stock No.534-4608 transistor socket	1.60	1.46	1.25
534-4734	C	TO-3 kit includes 2 #6-20 screws, 1 mica insulator, 4 nylon bushings, 1 Stock No.534-4606 transistor socket	1.91	1.60	1.46
534-4616	D	Nylon power transistor mount only for TO-3	.20	.10	.09

RoHS Compliant

Transistor Mounting Kit Without Socket

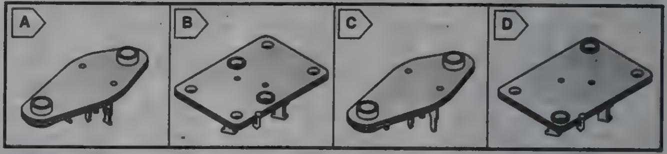
For quantities of 500 and up, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each		
			1	10	100
534-4725	E	Kit for TO-3 case includes 2 #6-32 screws, 1 mica insulator, 2 shoulder washers, 2 metal washers, 1 solder terminal, 2 lockwashers, and 2 #6-32 nuts	1.16	.98	.93
534-4726	E	Kit for TO-66 case includes 2 #6-32 screws, 1 mica insulator, 2 shoulder washers, 2 metal washers, 1 solder terminal, 2 lockwashers, and 2 #6-32 nuts	1.24	1.15	1.09
534-4728	F	Kit for Plastic case includes 2 #4-40 screws, 1 mica insulator, 2 shoulder washers, 2 metal washers, 2 lockwashers, 2 solder terminals, and 2 #4-40 nut	1.20	1.12	1.05
534-4729	F	Kit for DO-4, TO-59, TO-60 and TO-62 cases includes 1 mica insulator, 1 shoulder washer, 1 solder terminal, 1 lockwasher, and 1 #10-32 nut	1.16	.[illegible]7	.92
534-4730	F	Kit for DO-5, TO-48 and TO-61 cases includes 1 mica insulator, 1 shoulder washer, 1 solder terminal, 1 lockwasher, and 1 1/4-28 nut	1.16	.97	.92
534-4724	G	Kit for TO-220 case includes 1 #4-40 screw, 1 mica insulator, 1 shoulder washer, 1 lockwasher, and 1 #4-40 nut	1.16	.97	.92
534-4727	H	Kit for TO-36 case includes 1 mica insulator, 1 shoulder washer, 1 metal washer, 1 solder terminal, 1 #10-32 nut	1.20	1.12	1.05

KEYSTONE TO-3 POWER TRANSISTOR SOCKETS

Fig. A: These sockets are held underneath the chassis and the transistor is inserted into the socket, holding the assembly in position.
Fig. B: Pre-assembling the socket to the chassis by eyelets or rivets permits the installation of the transistor at a later stage in the assembly.
Fig. C: Easily assembled on PC board, stops on PC terminals provide sufficient spacing for proper assembly of transistor to socket.

RoHS Compliant



- Space savings
- Easier servicing
- Labor saving
- Simpler mounting

For quantities of 1000 and up, call for quote.

MOUSER STOCK NO.	Fig.	Case Type	Terminal Type	Top Plate Material	Standoff Height (In.)	Price Each

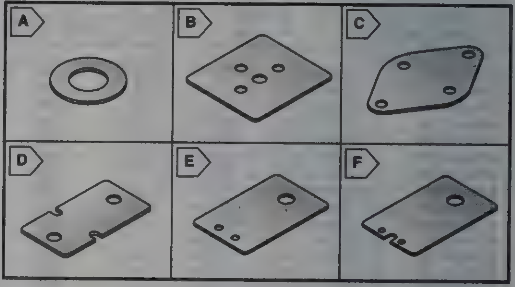
KEYSTONE TRANSISTOR MICA INSULATORS

- Rapid heat dissipation
- High dielectric strength
- Non-toxic
- Low cost
- Precision stamped .003" thick mica



RoHS Compliant

For quantities of 1000 and up, call for quote.
